

Status of Observations From Audit #2 Report (April 2019)

This section describes the actions DOT&PF has taken (or is taking) in response to observations made during the second audit.

Observation #1: Applicability of Existing Interagency Agreements

Section 5.1.3 of the MOU required the DOT&PF to work with FHWA and the resource agencies to modify existing interagency agreements within 6 months of the effective date of the MOU. During Audit 2, the audit team determined that none of DOT&PF's existing agreements applied to the current NEPA Assignment Program under 23 U.S.C. 327. According to the January 2020 Self-Assessment Report, "DOT&PF is not currently pursuing agency agreements per Section 5.1.4 of the MOU regarding appropriate processes and procedures."

Observation #2: DOT&PF Delegation of Authority for NEPA Approvals

Section 3.3.1 of the MOU requires DOT&PF to make NEPA approvals (CE determinations, findings of no significant impact, or records of decision). Audit 2 revealed inconsistencies regarding the delegation of NEPA approvals within DOT&PF. The DOT&PF's January 2020 Self-Assessment states that DOT&PF will incorporate a protocol that standardizes the delegation authority for NEPA approval in the regions in the February 2020 update of its EPM. The DOT&PF has not made any changes to the EPM since February 2018 per the DOT&PF's response to Audit 3's Pre-Audit Information Request. In interviews conducted as part of Audit 3, DOT&PF relayed plans to incorporate this protocol into the EPM in May 2020. Currently, each region has its own delegation process. Generally, DOT&PF delegates NEPA approvals to the senior staff and communicates that delegation via email to affected parties. Most staff interviewed understand their region's delegation process and new staff are becoming oriented with the process.

Observation #3: Staff Capacity

Sections 4.2.1 and 4.2.2 of the MOU outline the requirements for the State's commitment of resources and adequate organizational staff capacity. Moderate to high staff turnover has been a recurring issue since the MOU went into effect (Audit #1 report Observation #3 and Audit #2 report Observation #3). According to the January 2020 Self-Assessment Report, "DOT&PF's staffing levels were a concern during this audit period and senior staff expended considerable effort to hire new qualified

staff and to retain current staff. As a result of this effort, the regional offices are now fully or near fully staffed." DOT&PF is aware of the issue and continues to track staffing impacts on the NEPA Assignment Program through the QA/QC process.

Observation #4: Documentation of Environmental Commitments

Section 5.1.1 of the MOU requires the State to follow Federal laws, regulations, policies, and procedures to implement the responsibilities assumed. Audit 2 revealed inconsistencies regarding how DOT&PF was documenting environmental commitments and making sure that DOT&PF carries the environmental commitments through the project development process and into construction. The DOT&PF developed written guidance on the documentation of environmental commitments. According to the January 2020 Self-Assessment Report, the guidance was implemented on May 5, 2019. Based on the interviews conducted as part of Audit 3, DOT&PF staff understood who certified that the environmental commitments were included in the plan, specifications, and estimates, as well as their role in the certification process.

Observation #5: Inconsistency in Project Termini and Statewide Transportation Improvement Program (STIP)

Section 3.3.1 of the MOU requires DOT&PF, at the time of NEPA approval (CE determination, finding of no significant impact, or record of decision), to ensure that the project's design concept, scope, and funding is consistent with current planning documents. During Audit 2, the audit team found one project file with an inconsistency between project termini shown in a project plan and that described in the STIP, and similar inconsistencies in the DOT&PF's Audit 2 Self-assessment. Project scope inconsistencies were not found by the file review team during Audit 3. The DOT&PF's Audit 3 Self-assessment identified one instance of a project description discrepancy that did not affect the scope of the project. Regional QC efforts appear to have improved this issue, although DOT&PF noted in their self-assessment that using the STIP project description as the project scope in environmental documents is not possible for all projects.

Observation #6: Training Plan Update

Section 12.2 of the MOU commits DOT&PF and FHWA to update the DOT&PF training plan annually in

consultation with other Federal Agencies as appropriate. The DOT&PF did not update its Training Plan prior to or during the Audit 2 process. In their response to the Audit 3 PAIR, DOT&PF stated "the training plan was updated on October 29, 2019, with minor revisions to Section 5. A list of proposed training has been added to this section and the RD&T2 [Research, Development, and Technology Transfer], FHWA, and Prior Training Requests subsections have been removed." Based on the information gathered through the PAIR and interviews, the audit team is satisfied that the DOT&PF addressed the training observation from the second audit. Moving forward, DOT&PF committed to coordinating with the FHWA Alaska Division Office and other Federal Agencies, as appropriate, for the future annual updates of the training plan.
