

responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a “significant regulatory action” under Executive Order 12866,

(2) Will not affect intrastate aviation in Alaska, and

(3) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

2022–03–17 Airbus Helicopters:

Amendment 39–21934; Docket No. FAA–2021–1018; Project Identifier MCAI–2021–00902–R.

(a) Effective Date

This airworthiness directive (AD) is effective March 22, 2022.

(b) Affected ADs

None.

(c) Applicability

This AD applies to all Airbus Helicopters Model AS332L2 and EC225LP helicopters, certificated in any category.

(d) Subject

Joint Aircraft Service Component (JASC) Code: 6400, Tail Rotor System.

(e) Unsafe Condition

This AD was prompted by a report of loss of tightening torque on the nut that attaches the tail gear box (TGB) bevel wheel. The FAA is issuing this AD to address loss of tightening torque on the nut that attaches the TGB bevel wheel, which, if not corrected, could lead to structural failure of the TGB drive, resulting in reduced, or loss of, control of the helicopter.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Requirements

Except as specified in paragraph (h) of this AD: Comply with all required actions and compliance times specified in, and in accordance with, European Union Aviation Safety Agency (EASA) AD 2021–0184R2, dated January 12, 2022 (EASA AD 2021–0184R2).

(h) Exceptions to EASA AD 2021–0184R2

(1) Where EASA AD 2021–0184R2 requires compliance in terms of flight hours, this AD requires using hours time-in-service.

(2) Where EASA AD 2021–0184R2 refers to August 19, 2021 (the effective date of EASA AD 2021–0184, dated August 5, 2021), this AD requires using the effective date of this AD.

(3) Where the service information referenced in EASA AD 2021–0184R2 specifies sending parts to the manufacturer or an approved repair station to be examined, this AD does not include that requirement.

(4) This AD does not mandate compliance with the “Remarks” section of EASA AD 2021–0184R2.

(i) No Reporting Requirement

Although the service information referenced in EASA AD 2021–0184R2 specifies to submit certain information to the manufacturer, this AD does not include that requirement.

(j) Special Flight Permit

Special flight permits may be permitted provided that there are no passengers on board.

(k) Alternative Methods of Compliance (AMOCs)

(1) The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the International Validation Branch, send it to the attention of the person identified in paragraph (l) of this AD. Information may be emailed to: 9-AVS-AIR-730-AMOC@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(l) Related Information

For more information about this AD, contact Andrea Jimenez, Aerospace Engineer, COS Program Management Section, Operational Safety Branch, Compliance & Airworthiness Division, FAA, 1600 Stewart Ave., Suite 410, Westbury, NY 11590; telephone (516) 228–7330; email andrea.jimenez@faa.gov.

(m) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless this AD specifies otherwise.

(i) European Union Aviation Safety Agency (EASA) AD 2021–0184R2, dated January 12, 2022.

(ii) [Reserved]

(3) For EASA AD 2021–0184R2, contact EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; telephone +49 221 8999 000; email ADs@easa.europa.eu; internet www.easa.europa.eu. You may find the EASA material on the EASA website at <https://ad.easa.europa.eu>.

(4) You may view this service information at the FAA, Office of the Regional Counsel, Southwest Region, 10101 Hillwood Pkwy., Room 6N–321, Fort Worth, TX 76177. For information on the availability of this material at the FAA, call (817) 222–5110. This material may be found in the AD docket at <https://www.regulations.gov> by searching for and locating Docket No. FAA–2021–1018.

(5) You may view this material that is incorporated by reference at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, email fr.inspection@nara.gov, or go to: <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

Issued on January 26, 2022.

Lance T. Gant,

Director, Compliance & Airworthiness Division, Aircraft Certification Service.

14 CFR Part 71

[Docket No. FAA–2021–0917; Airspace Docket No. 21–ANM–45]

RIN 2120–AA66

Modification of Class E Airspace; Kit Carson County Airport, Burlington, CO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies the Class E airspace extending upward from 700 feet above the surface of the Earth, and removes the Class E airspace extending upward from 1,200 feet above the surface of the Earth at Kit Carson County Airport, Burlington, CO. This action ensures the safety and management of instrument flight rules (IFR) operations at the airport.

DATES: Effective 0901 UTC, May 19, 2022. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order JO 7400.11F, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783. FAA Order JO 7400.11F is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order JO 7400.11F at NARA, email fr.inspection@nara.gov or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FOR FURTHER INFORMATION CONTACT:

Nathan A. Chaffman, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198; telephone (206) 231-3460.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend Class E airspace extending upward from 700 feet above ground level, and remove Class E airspace extending upward from 1,200 feet above ground level to support IFR operations at Kit Carson County Airport, Burlington, CO.

History

The FAA published a notice of proposed rulemaking (NPRM) in the *Federal Register* (86 FR 60423; November 2, 2021) for Docket No. FAA-2021-0917 to modify Class E airspace at Kit Carson County Airport, Burlington, CO. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Subsequent to publication of the NPRM, the FAA discovered that it had inadvertently left out the proposed removal of the Class E airspace

extending upward from 1,200 feet above the surface of the earth from the Class E airspace legal description. The FAA is removing this airspace area from the Class E legal description because the area is contained within the Denver Class E6 domestic en route airspace area, and duplication is not necessary.

Class E5 and Class E6 airspace designations are published in paragraphs 6005 and 6006, respectively, of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in FAA Order JO 7400.11.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

The FAA is amending 14 CFR part 71 by modifying Class E airspace extending upward from 700 feet above the surface of the Earth at Kit Carson County Airport, Burlington, CO.

This airspace is designed to contain departing IFR aircraft until reaching 1,200 feet above the surface and arriving IFR aircraft descending below 1,500 feet above the surface. To properly contain IFR operations at the airport, the radius of the airspace is increased from a "6.5-mile" radius to a "7-mile" radius from the 207° bearing from the airport clockwise to the 268° bearing from the airport. Additionally, extensions to the south, northwest, and north of the airport are established to contain IFR departures to 1,200 feet above the surface and IFR arrivals descending below 1,500 feet above the surface. The southern extension is established within 2.6 miles on each side of the 160° bearing from the airport, extending from the 6.5-mile radius to 8.5 miles south of the airport. The northwest extension is established within 2.6 miles on each side of the 326° bearing from the airport, extending from the 6.5-mile radius to 7.5 miles northwest of the airport. The northern extension is established within 1.0 mile on each side of the 340° bearing from the airport, extending from the 6.5-mile radius to 10.8 miles north of the

airport. Additionally, the Class E airspace extending upward from 1,200 feet above the surface of the earth, excluding the airspace within the State of Kansas, is removed. The area is contained within the Denver Class E6 domestic en route airspace area, and duplication is not necessary. Finally, this action updates the Class E legal description, lines two and three. The second line of the text header is updated from "Burlington, Kit Carson County Airport, CO" to "Kit Carson County Airport", to match the FAA database. Additionally, the third line of the text header is updated from "(Lat. 39°14'41" N, long. 102°17'05" W) to "(Lat. 39°14'33" N, long. 102°17'07" W)" to match the FAA database.

Class E5 and Class E6 airspace designations are published in paragraphs 6005 and 6006, respectively, of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5a. This airspace action

is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant the preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANM CO E5 Burlington, CO [Amended]

Kit Carson County Airport, CO

(Lat. 39°14'33" N, long. 102°17'07" W)

That airspace extending upward from 700 feet above the surface within 6.5-mile radius of the Kit Carson County Airport, and within a 7.0-mile radius of the airport from the 207° bearing from the airport clockwise to the 283° bearing from the airport, and within 2.6 miles on each side of the 160° bearing from the airport, extending from the 6.5-mile radius to 8.5 miles south of the airport, and within 2.6 miles on each side of the 326° bearing from the airport, extending from the 6.5-mile radius to 7.5 miles northwest of the airport, and within 1.0 mile on each side of the 340° bearing from the airport, extending from the 6.5-mile radius to 10.8 miles north of the airport.

Issued in Des Moines, Washington, on February 8, 2022.

B.G. Chew,

Acting Group Manager, Operations Support Group, Western Service Center.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2021–0479; Airspace Docket No. 21–AGL–5]

RIN 2120–AA66

Amendment of VOR Federal Airways V–170, V–175 and V–250; Establishment of Area Navigation (RNAV) Route T–400; in the Vicinity of Worthington, MN.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; delay of effective date.

SUMMARY: This action changes the effective date of a final rule published in the **Federal Register** on January 14, 2022, amending VHF Omnidirectional Range (VOR) Federal airways V–170, V–175, and V–250, and establishing area navigation (RNAV) route T–400, due to the planned decommissioning of the VOR portion of the Worthington, MN, VOR/Distance Measuring Equipment (VOR/DME) navigational aid. The FAA is delaying the effective date to facilitate continued use of the current Air Traffic Procedures, while allowing sufficient time for redesign of the proposed procedures, in order to meet to required current procedure criteria.

DATES: The effective date of the final rule published on January 14, 2022 (87 FR 2322) is delayed until September 8, 2022. The Director of the Federal Register approved this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Jesse Acevedo, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Background

The FAA published a final rule in the **Federal Register** for Docket No. FAA–2021–0479 (87 FR 2322, January 14, 2022), amending VOR Federal airways V–170, V–175, and V–250, and establishing RNAV route T–400, due to the planned decommissioning of the VOR portion of the Worthington, MN, VOR/DME. The effective date for that final rule is March 24, 2022. Subsequent to publication of the final rule, the Flight Standards Procedure Review

Board (PRB) denied a waiver request to use a higher climb gradient than specified in current criteria for a portion of the Air Traffic Procedures that were revised in support of this action. The FAA is delaying the effective date to September 8, 2022 to facilitate continued use of the current Air Traffic Service procedures, while allowing sufficient time for the redesign of the proposed procedures, in order to meet the required current procedural criteria.

To facilitate the safe and continuous use of existing air traffic procedures while the ATS route procedures are redesigned, the planned decommissioning date for the Worthington, MN, VOR has been postponed to September 8, 2022. The rule amending V–170, V–175, and V–250, and establishing area navigation T–400 is delayed to coincide with that date.

VOR Federal airways and RNAV T-routes are published in paragraphs 6010(a) and 6011, respectively, of FAA Order JO 7400.11F, dated August 20, 2021, and effective September 15, 2021, which are incorporated by reference in 14 CFR 71.1. The ATS routes listed in this document will be published subsequently in FAA Order JO 7400.11.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Good Cause for No Notice and Comment

Section 553(b)(3)(B) of Title 5, United States Code, (the Administrative Procedure Act) authorizes agencies to dispense with notice and comment procedures for rules when the agency for “good cause” finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under this section, an agency, upon finding good cause, may issue a final rule without seeking comment prior to the rulemaking. The FAA finds that prior notice and public comment to this final rule is unnecessary due to the brief length of the extension of the effective date and the fact that there is no substantive change to the rule.”

Delay of Effective Date

Accordingly, pursuant to the authority delegated to me, the effective date of the final rule, Airspace Docket 21–AGL–5, as published in the **Federal Register** on January 14, 2022 (87 FR 2322), FR Doc. 2022–00457, is hereby delayed until September 8, 2022.

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., P. 389.
