Abstract: The BLM seeks to renew OMB control number 1004–0121 pertaining to the leasing of solid minerals other than coal and oil shale on Federal land, and the development of those leases. The BLM's regulations at 43 CFR part 3500 apply to certain types of leasable minerals (*i.e.*, solid minerals other than coal and oil shale), but not to Indian lands or minerals except where expressly noted. The regulations at 43 CFR part 3580 apply to gold, silver, and quicksilver in confirmed private land grants, and to leasable minerals in specified locations. The information collections contained in 43 CFR part 3590 are necessary to enable the BLM to fulfill its statutory responsibilities under certain Federal mineral leasing laws and BLM's regulations at 43 CFR part 3500 and serve to help the BLM to govern the leasing of solid minerals other than coal and oil shale on Federal land, and the development of those leases.

Accordingly, the respondents affected by this information collection request are those who desire to obtain lease for Federal solid minerals other than coal and oil shale, and operators of such leases. The regulations at 43 CFR part 3590 apply to operations for discovery, testing, development, mining, reclamation, and processing. OMB control number 1004–0121 is currently scheduled to expire on October 31, 2022. The BLM plans to request that OMB renew this OMB control number of an additional three years.
