SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the route structure as necessary to preserve the safe and efficient flow of air traffic within the NAS.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists

Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

The FAA published a notice of proposed rulemaking for Docket No. FAA–2021–1079 in the **Federal Register** (86 FR 70771; December 13, 2021) to amend jet routes J–20, J–31, J–41, and J–73; and to remove J–69, and high altitude RNAV route Q–63. However, the details of the J–73 amendment were inadvertently left out of the NPRM. This SNPRM adds the amendment of J–73 to Docket No. FAA–2021–1079.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to amend jet route J–73 in the eastern United States. This action supports the FAA’s VOR MON program.

The proposed route change is as follows:

J–73: J–73 currently extends between the La Grange, GA, (LGC) VOR and Tactical Air Navigational System (VORTAC) and the Northbrook, IL, (OBK) VOR/Distance Measuring Equipment (VOR/DME). This action proposes to remove the La Grange VORTAC, and the segment between La Grange and Nashville, TN, from the route. As amended, J–73 would extend from Nashville, TN; Pocket City, IN; to Northbrook, IL.

Jet routes are published in paragraph 2004 of FAA Order JO 7400.11F dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The jet route listed in this document would be subsequently amended in FAA Order JO 7400.11

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is

certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
