SUPPLEMENTARY INFORMATION:

Title: Monitoring Trends in Burn Severity User Satisfaction Survey.

OMB Number: 0596–NEW.

Expiration Date of Approval:

Type of Request: NEW.

Abstract: Monitoring Trends in Burn Severity (MTBS) is an interagency program whose goal is to consistently map the location, extent, and burn severity of large fires across all lands of the United States from 1984 to present. MTBS data is distributed in a variety of geospatial formats that are accessible by website download. This survey will allow the MTBS program to assess the needs of its users and how well the program is meeting those needs. This survey will be offered to anyone visiting the MTBS website (www.MTBS.gov). The survey will be delivered using the Microsoft Forms platform. Participation in the survey will be voluntary. The survey will solicit information pertaining to what data the visitor is

interested in, the ease with which those data can be accessed, how the visitor will utilize the accessed data, the visitor's satisfaction with the program and data products, and any suggestions to improvements to products/services the visitor may have. The information collected from this survey will be used to guide program development and changes to better meet the visitor needs. The survey results will be collected and analyzed by federal staff. If this information is not collected the MTBS program will be unable to tailor its products and services to the needs of its users in the government and public domains.

Affected Public: Individuals, Private Sector Business and Non-Profit Organizations, State Government, Local Government and Tribal Government.

Estimate of Burden per Response: 5 minutes.

Estimated Annual Number of Respondents: 1,500 respondents.

Estimated Annual Number of Responses per Respondent: 1 response.

Estimated Total Annual Burden on Respondents: 7,500 minutes (125 hours).

Comment Is Invited: Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request toward Office of Management and Budget approval.

Chris French,

Deputy Chief, National Forest Systems.
