

Alternatives to Completing the Information Collection

Members of the public who prefer not to use the online version of this IC, or who do not have access to the internet, may continue to visit an FO, call SSA's 800 Number (or an FO), or write to SSA to establish a protective filing date for an application for benefits.

Need for Emergency Paperwork Reduction Act Approval

Based on the unexpected decrease in SSI claim submissions, mostly from people facing barriers, SSA is concerned this population needs more options and flexibility to help them apply for SSI. Our goal in developing this new SSI claims tool is to offer that flexibility, and to make it as easy as possible to complete the process. We are seeking

emergency PRA approval because it is important to us to start offering this new tool to everyone, particularly underserved populations, as soon as we can. An emergency PRA approval would facilitate rapid rollout of the tool, and would mitigate the delay inherent in the extensive time period of the standard OMB approval cycle.

Type of Request: New (emergency) information collection.

Modality of completion	Number of respondents	Frequency of response	Average burden per response (minutes)	Estimated total annual burden (hours)	Average theoretical hourly cost amount (dollars)*	Total annual opportunity cost (dollars)**

Respondent Type 3 (ex: Attorney Representatives)	2,125	2	7	496	* 71.59	** 35,509
Totals	21,250	4,675	** 143,726

* We based this figure on the average U.S. worker's hourly wages, as reported by Bureau of Labor Statistics data (https://www.bls.gov/oes/current/oes_nat.htm#00-0000), on average wages for Community and Social Service Organizations as reported by Bureau of Labor Statistics data (<https://www.bls.gov/oes/current/oes210000.htm>), and on average lawyer's hourly salary as reported by Bureau of Labor Statistics data (<https://www.bls.gov/oes/current/oes231011.htm>).

** This figure does not represent actual costs that SSA is imposing on recipients of Social Security payments to complete this online tool; rather, these are theoretical opportunity costs for the additional time respondents will spend to complete the tool. *There is no actual charge to respondents to complete the online tool.*
