**DEPARTMENT OF COMMERCE**
**Census Bureau**
**Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Ask U.S. Panel**

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize

the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 7, 2021, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

*Agency:* U.S. Census Bureau.

*Title:* Ask U.S. Panel.

*OMB Control Number:* 0607-XXXX.

*Form Number(s):* Not yet determined.

*Type of Request:* Regular submission, New Information Collection Request.

*Number of Respondents:* 1,700.

*Average Hours per Response:*

Approximately 39.9 minutes per respondent.

*Burden Hours:* 1,131 hours.

*Needs and Uses:* The Ask U.S. Panel ("the Panel") will be a nationally representative survey panel for tracking public opinion on a variety of topics of interest to numerous federal agencies and their partners, and for conducting experimentation on alternative question wording and methodological approaches. The Panel may also be used to collect national-representative rapid-response data, as a complement to that currently collected by the Household Pulse Survey. The Panel will be developed through a multi-year effort. The first two years will focus on developing the overall design and conducting a large-scale field Pilot Test. Nationally representative data collection based on a probability sample of U.S. adults will begin in the third year. The current request is limited to the Pilot Test. A future request will contain details for the full Panel.

A key objective of the Panel will be to produce representative and reliable statistics on a rapid turnaround suitable for use by federal agencies. Ultimately, the Panel seeks to make it possible to release data that meets standards of the Federal Statistical Agencies and the Office of Management and Budget (OMB). At the same time, the Panel will ensure availability of frequent data collection for nationally representative estimates on a variety of topics and a variety of subgroups of the population.

The Panel is an interagency effort, with representatives from Census, the Department of Agriculture's Economic Research Service, the Bureau of Labor Statistics, the National Center for Health Statistics, the National Center for Science and Engineering Statistics, the National Center for Education Statistics, the Department of Defense, Department of Transportation, Department of Labor and the Social Security Administration guiding its design, content and methodological rigor, that will be used to meet data needs across the Federal Statistical System.
