NATIONAL SCIENCE FOUNDATION

Advisory Committee for Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation (NSF) announces the following meeting:

Name and Committee Code: Advisory Committee for Engineering #1170.

Date and Time: April 6, 2022: 11:00 a.m. to 6:00 p.m.; April 7, 2022: 10:30 a.m. to 3:15 p.m.

Place: National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314 | Virtual.

Type of Meeting: Open.

Contact Person: Evette Rollins, erollins@nsf.gov; 703–292–8300; NSF 2415 Eisenhower Avenue, Alexandria, VA 22314.

The forthcoming virtual meeting information and an updated agenda will be posted at <https://www.nsf.gov/eng/advisory.jsp>.

Purpose of Meeting: To provide advice, recommendations and counsel on major goals and policies pertaining to engineering programs and activities.

Agenda

Wednesday, April 6, 2022

- Directorate for Engineering Report
- NSF Budget Update
- NSF Strategic Plan
- ENG Strategic Planning
- Reports from Advisory Committee Liaisons

Thursday, April 7, 2022

- Diversity in Engineering: Current Data Trends
- Panel and Discussion on Diversity in Engineering
- Preparation for Discussion with the Director's Office
- Prospective from the Director's Office
- Strategic Recommendations for ENG

Dated: March 1, 2022.

Crystal Robinson,

Committee Management Officer.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION

Committee Management Renewals

The NSF management officials having responsibility for three advisory committees listed below have determined that renewing these groups for another two years is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science Foundation (NSF), by 42 U.S.C. 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Committees:

Advisory Committee for Environmental Research and Education, #9487
Proposal Review Panel for Industrial Innovations and Partnerships, #28164
Proposal Review Panel for Emerging Frontiers and Multidisciplinary Activities #34558

Effective date for renewal is March 2, 2022. For more information, please contact Crystal Robinson, NSF, at (703) 292–8687.

Dated: March 2, 2022.

Crystal Robinson,

Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

Notice of Application of Emergency Provision Under the Antarctic Conservation Act

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The Office of Polar Programs, National Science Foundation, is giving notice that an emergency relating to considerations of human health and safety caused hazardous waste to be stored at McMurdo Station for more than 15 months.

Hazardous waste in the form of batteries, biomedical waste, laboratory chemical waste, gas cylinders, hazardous debris, glycol, PCBs, petroleum-based compounds, solvents/paints/adhesives, radioactive material, and fuel contaminated soils and materials, with an aggregate of approximately 22,140 lbs. net weight, was, consistent with waste management best practices, segregated, packaged, and stored in a secured location for removal from the station.

FOR FURTHER INFORMATION CONTACT: Dr. Polly A. Penhale, Senior Advisor, Environment at 703–292–7420.

SUPPLEMENTARY INFORMATION: The waste was to be removed in February 2022, at the end of the 2021–2022 season. In January 2022, the annual cargo vessel sustained electrical damage on its voyage to Antarctica, and had to return to port in California for repairs. Due to this delay, the ship arrived to McMurdo Station later than anticipated, and the ice pier at McMurdo cracked during the off-load and on-load of material. This crack posed a serious safety concern for human life and the vessel, making further waste removal operations impossible. The removal of the remaining hazardous waste is a priority for removal during the January–February 2023 time period.

(Authority: 45 CFR 671.17)

Erika N. Davis,

Program Specialist, Office of Polar Programs.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 70–7020; NRC–2022–0053]

Sensor Concepts and Applications Incorporated

AGENCY: Nuclear Regulatory Commission.

ACTION: License renewal application; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff has received an application from Sensor Concepts and Applications, Incorporated (SCA or the licensee) to renew Special Nuclear Materials (SNM) License No. SNM–2017. The renewed license would authorize the applicant to continue to use SNM in greater than critical mass quantities for research and development of radiation detection instrumentation at its location in Glen Arm, Maryland as well as other locations selected by the United States Department of Defense. This license renewal, if approved, would authorize SCA to continue licensed activities for 10 years beyond its current license.

DATES: A request for a hearing or petition for leave to intervene must be filed by May 6, 2022.

ADDRESSES: Please refer to Docket ID NRC–2022–0053 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:
