II. Discussion

On February 8, 2022, the NRC published a document in the **Federal Register** (87 FR 7209) soliciting comments on DG-1385, "Water Sources for Long-Term Cooling Following a Loss-of-Coolant Accident." This DG is proposed Revision 5 to Regulatory Guide 1.82, which describes an approach that may be used to determine quality standards acceptable to the NRC staff, to meet the regulatory requirements for sumps and suppression pools that provide water sources for emergency core cooling, containment heat removal, or containment atmosphere cleanup systems. It also provides guidelines for evaluating the adequacy and the

availability of the sump or suppression pool for long-term recirculation cooling following a loss-of-coolant-accident, and the use of containment accident pressure in determining the net positive suction head for the emergency core cooling and containment heat removal pumps. This proposed revision guidance applies to both the pressurized-water reactor and boiling-water reactor types of light-water reactors. The comment period was originally scheduled to close on March 10, 2022. Upon the request of the Nuclear Energy Institute, the NRC has decided to extend the public comment period on this document until April 8, 2022, to allow more time for members of the public to submit their comments.

Dated: March 2, 2022.

SUPPLEMENTARY INFORMATION: OMB has approved and issued control numbers for three collections of information in PBGC's regulations relating to multiemployer plans. These collections of information are described below. OMB approvals for these collections of information expire June 30, 2022. PBGC intends to request that OMB extend its approval of these collections of information for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. PBGC is soliciting public comments to—

- Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collections of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

1. Termination of Multiemployer Plans (29 CFR Part 4041A) (OMB Control Number 1212-0020) (Expires June 30, 2022)

Section 4041A(f)(2) of ERISA authorizes PBGC to prescribe reporting requirements and other rules and standards for administering terminated multiemployer plans. Section 4041A(c) and (f)(1) of ERISA prohibit the payment by a mass-withdrawal-terminated plan of lump sums greater than \$1,750 or of nonvested plan benefits unless authorized by PBGC.

The regulation requires the plan sponsor of a terminated plan to file a notice of termination with PBGC. The notice of termination must contain the information and certification specified in the instructions for the notice of termination on <http://www.pbgc.gov>. The regulation also requires the plan sponsor of a mass-withdrawal-terminated plan that is closing out to give notices to participants regarding the election of alternative forms of benefit distribution and, if the plan is not closing out, to obtain PBGC approval to pay lump sums greater than \$1,750 or to pay nonvested plan benefits.

PBGC uses the information in a notice of termination to assess the likelihood that PBGC financial assistance will be needed. Plan participants and beneficiaries use the information on alternative forms of benefit to make personal financial decisions. PBGC uses the information in an application for approval to pay lump sums greater than \$1,750 or to pay nonvested plan benefits to determine whether such payments should be permitted.

The regulation also requires plans terminated by mass withdrawal, plans

terminated by plan amendment that are expected to become insolvent, and insolvent plans under part 4245 receiving financial assistance from PBGC (whether terminated or not terminated) to file with PBGC withdrawal liability information and actuarial valuations or, for smaller plans receiving financial assistance where the present value of the plan's nonforfeitable benefits is \$50 million or less, alternative information. PBGC uses the withdrawal liability and actuarial valuation information to estimate PBGC's multiemployer liabilities for purposes of its financial statements and to provide financial assistance to plans that become insolvent.

PBGC estimates that each year, plan sponsors submit notices of termination for five plans, distribute election notices to participants in one of those plans and submit requests to pay benefits or benefit forms not otherwise permitted for one of those plans. The estimated annual burden of this part of this collection of information is 25 hours and \$25,000.

Furthermore, PBGC estimates that each year, plan sponsors file actuarial valuations electronically for 100 plans that are terminated or insolvent, and that only 1 smaller plan will file alternative information. The estimated annual burden of this part of the collection of information is 26 hours and \$10,400.

PBGC estimates that each year plan sponsors file withdrawal liability payment information from approximately 10 plans. The estimated annual burden of this part of the collection of information is 10 hours and \$4,000.

The estimated total hour burden is 61 hours (25 + 26 + 10). The estimated annual burden of the collection of information is estimated to be \$39,400 (\$25,000 + \$4,000 + \$10,400).

2. Duties of Plan Sponsor of an Insolvent Plan (29 CFR Part 4245) (OMB Control Number 1212-0033) (Expires June 30, 2022)

Section 4245(e) of ERISA requires two types of notice: A "notice of insolvency," stating a plan sponsor's determination that the plan is or may become insolvent, and a "notice of insolvency benefit level," stating the level of benefits that will be paid during an insolvency year. The recipients of these notices are PBGC, contributing employers, employee organizations representing participants, and participants and beneficiaries.

The regulation establishes the procedure for complying with these notice requirements. It allows a plan

sponsor to combine the notice of insolvency and notice of insolvency benefit level. In addition, the regulation only requires a plan sponsor to provide an updated notice to participants and beneficiaries if there is a change in the amount of benefits paid to participants and beneficiaries. PBGC uses the information submitted to estimate cash needs for financial assistance to troubled plans. The collective bargaining parties use the information to decide whether additional plan contributions will be made to avoid the insolvency and consequent benefit suspensions. Plan participants and beneficiaries use the information in personal financial decisions.

PBGC estimates that at most one plan sponsor of an ongoing plan gives notices each year under section 4245. The estimated annual burden of the collection of information is 16 hours and \$10,000.

3. Duties of Plan Sponsor Following Mass Withdrawal (29 CFR Part 4281) (OMB Control Number 1212-0032) (Expires June 30, 2022)

Section 4281 of ERISA provides rules for plans that have terminated by mass withdrawal. Under section 4281, if nonforfeitable benefits exceed plan assets, the plan sponsor must amend the plan to reduce benefits. If the plan nevertheless becomes insolvent, the plan sponsor must suspend certain benefits that cannot be paid. If available resources are inadequate to pay guaranteed benefits, the plan sponsor must request financial assistance from PBGC.

The regulation requires a plan sponsor to give notices of benefit reduction, notices of insolvency, and notices of insolvency benefit level to PBGC and to participants and beneficiaries and, if necessary, to apply to PBGC for financial assistance. A plan sponsor can combine the notice of insolvency and the notice of insolvency benefit level.

PBGC uses the information it receives to make determinations required by ERISA, to identify and estimate the cash needed for financial assistance to terminated plans, and to verify the appropriateness of financial assistance payments. Plan participants and beneficiaries use the information to make personal financial decisions.

PBGC estimates that plan sponsors of terminated plans each year will file with PBGC 1 notice of benefit reduction, 7 notices of insolvency, 3 combined notices of insolvency and insolvency benefit level, and 5 notices of insolvency benefit level. PBGC also estimates that plan sponsors each year

will file initial requests for financial assistance for 10 plans and will submit 425 non-initial applications for financial assistance. The estimated annual burden of the collection of information is 241 hours and \$420,400.

SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-261, OMB Control No. 3235-0274]

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Extension:

Rule 17Ad-11

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (“PRA”) (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) is soliciting comments on the existing collection of information provided for in Rule 17Ad-11 (17 CFR

240.17Ad-11), under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*). The Commission plans to submit this existing collection of information to the Office of Management and Budget (“OMB”) for extension and approval.

Rule 17Ad-11 requires every registered recordkeeping transfer agent to report certain information to issuers and its appropriate regulatory agency in the event that the aggregate market value of an “aged record difference” exceeds certain thresholds. A “record difference” occurs when the number of shares or principal dollar amount of securities in an issuer’s records do not equal those in the master securityholder file as indicated, for instance, on certificates presented to the transfer agent for purchase, redemption or transfer. An “aged record difference” is a record difference that has existed for more than 30 calendar days. In addition, the rule requires every registered recordkeeping transfer agent to report certain information to issuers and its appropriate regulatory agency concerning buy-ins of all issues for which it acts as recordkeeping transfer agent. Further, the rule requires every registered recordkeeping transfer agent to report to its appropriate regulatory agency when it has failed to post certificate detail to the master securityholder file within five business days of the time required by Rule 17Ad-10 (17 CFR 240.17Ad-10). Transfer agents must also maintain a copy of any report required under Rule 17Ad-11 for a period of not less than three years following the date of the report, the first year in an easily accessible place.

Because the information required by Rule 17Ad-11 is already available to transfer agents, any collection burden for small transfer agents is minimal. Based on a review of the number of Rule 17Ad-11 reports the Commission, the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, and the Federal Deposit Insurance Corporation (collectively, the “appropriate regulatory agencies”) received since 2015, the Commission staff estimates that 8 respondents will file a total of approximately 10 reports annually. The Commission staff estimates that, on average, each report can be completed in 30 minutes. Therefore, the total annual time burden for the entire transfer agent industry is approximately 5 hours (0.5 hours × 10 reports). Assuming an average hourly rate of \$72 for a compliance staff employee at a transfer agent, the average total internal cost of compliance for each report is \$36. The total annual internal cost of compliance for the estimated 8 respondents is thus

approximately \$360 (\$36 per report × 10 reports).

The retention period for the recordkeeping requirement under Rule 17Ad-11 is not less than three years following the date of a report prepared pursuant to the rule. The recordkeeping requirement under Rule 17Ad-11 is mandatory to assist the Commission and other regulatory agencies in monitoring transfer agents who are not performing their functions promptly and accurately. This rule does not involve the collection of confidential information.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing by May 9, 2022.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

Please direct your written comments to: David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o John Pezzullo, 100 F Street NE, Washington, DC 20549, or send an email to: PRA_Mailbox@sec.gov.

Dated: March 2, 2022.

J. Matthew DeLesDernier,
Assistant Secretary.
