

1, 2, and 7–13 of the '239 patent; and claim 19 of the '478 patent; but those claims are invalid for failure to comply with the written description requirement and the enablement requirement of 35 U.S.C. 112, para. 1. The ID also found claims 4 and 5 of the '525 patent invalid as indefinite under 35 U.S.C. 112, para. 2, because they depend from claims 2 and 3 of the '525 patent, which the ALJ found indefinite in the *Markman* Order. As for the '025 patent, the ID found the accused products do not infringe claims 19 and 20 and the claims have not been shown to be invalid. The ID further found that Complainants have shown that the domestic industry requirement has been satisfied with respect to the asserted patents under section 337(a)(3)(B).

The parties filed a joint motion to extend the time for them to file petitions for review from December 27, 2021 (with responses due January 4, 2022) to December 30, 2021 (with responses due January 10, 2022). On December 14, 2021, the Chair granted the motion.

On December 30, 2021, Complainants and Respondents filed separate petitions for review of the ID. On January 10, 2022, they filed separate replies to the petitions for review.

The Commission solicited submissions from the public on public interest issues raised by the recommended determination. On January 14, 2022, the Kroger Co. submitted comments on the public interest for the Commission to consider should the Commission find a violation.

Having reviewed the record of the investigation, including the final ID, the *Markman* Order, and the parties' submissions, the Commission has determined to review in part the final ID and the *Markman* Order. Specifically, the Commission has determined to review: (1) The ALJ's construction of the terms "vehicle body" and "a plurality of [rolling members/wheels] attached to the vehicle body" in the asserted claims of the '525, '239, and '478 patents; (2) the ID's finding that claims 2–5 of the '525 patent and claims 5, 6, 14, and 15 of the '239 patent are invalid as indefinite; (3) the ID's construction of the term "a displacement motor" in claim 1 of the '025 patent; and (4) the ID's findings that the economic prong of the domestic industry is satisfied.

Among other findings, the Commission has determined not to review the ID's finding that the asserted claims of the '525, '239, and '478 patents are invalid for failing to comply with the written description and enablement requirements of 35 U.S.C. 112, para. 1.

On review, the Commission affirms with modification the ALJ's

construction of the terms "vehicle body" and "a plurality of [rolling members/wheels] attached to the vehicle body" in the claims of the '525, '239, and '478 patents. The Commission also affirms the ALJ's finding of indefiniteness with respect to certain claims of the '525 and '239 patents and the ID's construction of the term "a displacement motor" in claim 1 of the '025 patent with the additional analyses provided in its opinion. Having adopted the ID's findings that the asserted claims of the '525, '239, and '478 patents are invalid and the asserted claims of the '025 patent are not infringed, the Commission has determined to take no position on the economic prong of the domestic industry requirement.¹ Accordingly, the Commission has determined to affirm with modifications the ID's finding of no violation of section 337. The investigation is terminated in its entirety. The Commission's reasoning in support of its determination is set forth more fully in its opinion.

The Commission vote for this determination took place on March 10, 2022.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in Part 210 of the Commission's Rules of Practice and Procedure, 19 CFR part 210.

By order of the Commission.

Issued: March 10, 2022.

Lisa Barton,

Secretary to the Commission.
