ADDRESSES: Virtual via Zoom.

SUPPLEMENTARY INFORMATION:

Purpose: In accordance with the Government in the Sunshine Act (Sunshine Act), Public Law 94–409, as amended (5 U.S.C. 552b), the U.S. Election Assistance Commission (EAC) will conduct an official meeting on the Voluntary Voting System Guidelines (VVSG) Lifecycle Policy 1.0.

Agenda: The U.S. Election Assistance Commission (EAC) will hear a presentation about the Voluntary Voting System Guidelines (VVSG) Lifecycle Policy 1.0 from EAC Testing and Certification Program Director Jon Panek and will consider the VVSG Lifecycle Policy 1.0 for adoption. The meeting will also include an update on VVSG 2.0 implementation.

The full agenda will be posted in advance on the EAC website: <https://www.eac.gov>.

Background: The Federal Election Commission published the first two sets of federal standards in 1990 and 2002. The EAC then adopted Version 1.0 of the VVSG on December 13, 2005 and on March 31, 2015, the EAC Commissioners unanimously approved VVSG 1.1. On February 10, 2021, the EAC Commissioners unanimously approved the most recent iteration, VVSG 2.0.

Since the approval of VVSG 2.0, the EAC has worked on next steps and materials so these standards and requirements can be implemented, and new voting systems can be manufactured and tested to those standards. Part of those materials is the VVSG Lifecycle Policy 1.0.

The intent of the VVSG Lifecycle Policy 1.0 is to help facilitate migration to new VVSG standards by providing guidance on the types of version changes, Voting System Test Laboratory (VSTL) accreditation, deprecation of obsolete major standards, and establishing a periodic review timeline for new standards going forward. The policy defines changes that may be made to systems certified to deprecated standards and describes the process for

updating the standards as defined in the Help America Vote Act (HAVA).

A public comment period on the Lifecycle Policy was available from November 9 to December 7, 2021. The EAC also gathered feedback from its advisory boards in 2021.

Status: This meeting will be open to the public.

Amanda Joiner,

Acting General Counsel, U.S. Election Assistance Commission.

[Docket No. CP21–6–000]

Spire Storage West, LLC.; Notice of Availability of the Final Environmental Impact Statement for the Proposed Clear Creek Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission), with the participation of the U.S. Bureau of Land Management (BLM) as a cooperating agency as described below, has prepared a final environmental impact statement (EIS) for the Clear Creek Expansion Project (Project) proposed by Spire Storage West, LLC (Spire). Spire requests authorization to expand natural gas storage at its existing Clear Creek Storage Field, modify the Clear Creek Plant to increase compression, decommission and remove facilities from the Clear Creek Plant, and move natural gas liquid storage and fueling equipment to an existing tank pad. Spire further proposes to construct pipeline connections north to the Canyon Creek Plant and south to the Kern River Gas Transmission mainline. All Project components are proposed in Uinta County, Wyoming.

The final EIS assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). As described in the final EIS, the FERC staff concludes that approval of the Project would result in some adverse environmental impacts; however, these impacts would be reduced to less-than-significant levels because of the impact
