SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that SGS North America, Inc. (SGS) is applying for an expansion of its current recognition as a NRTL. SGS requests the addition of two test standards to its NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL’s scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-

certification activities for test standards within the NRTL’s scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by NRTLs or applicant organizations for initial recognition, as well as for expansion or renewal of recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including SGS, which details that NRTL’s scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

SGS currently has nine facilities (sites) recognized by OSHA for product testing and certification, with the headquarters located at: SGS North America, Inc., 620 Old Peachtree Road, Suwanee, Georgia 30024. A complete list of SGS’s scope of recognition is available at <https://www.osha.gov/dts/otpca/nrtl/sgs.html>.

II. General Background on the Application

SGS submitted an application to OSHA to expand the scope of recognition as a NRTL to include six additional test standards on April 19, 2018 (OSHA-2006-0040-0074). This application was amended on January 19, 2022 (OSHA-2006-0040-0075), to remove four standards from the original application. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

Table 1 lists the appropriate test standards found in SGS’s application for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN SGS’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 991	Tests for Safety-Related Controls Employing Solid-State Devices.
UL 2111	Overheating Protection for Motors.

III. Preliminary Findings on the Application

SGS submitted an acceptable application for expansion of the scope of recognition. OSHA’s review of the application file and pertinent documentation preliminarily indicates that SGS can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of the two test standards listed in Table 1, above, for NRTL testing and certification. This preliminary finding does not constitute an interim or temporary approval of SGS’s application.

OSHA welcomes public comment as to whether SGS meets the requirements of 29 CFR 1910.7 for expansion of the recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a

longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, at the above address. These materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2006-0040.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary for Occupational Safety and Health as to whether to grant SGS’s application for expansion of the scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of the final decision in the **Federal Register**.

IV. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational

Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor’s Order No. 8-2020 (85 FR 58393, September 18, 2020) and 29 CFR 1910.7.

Signed at Washington, DC, on March 11, 2022.

NATIONAL CREDIT UNION ADMINISTRATION

Agency Information Collection Activities: Proposed Collection; Comment Request; NCUA Template: Large Credit Union Data Collection

AGENCY: National Credit Union Administration (NCUA).

ACTION: Notice and request for comment.

SUMMARY: The National Credit Union Administration (NCUA), as part of a continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on the following new collection, as required by the Paperwork Reduction Act of 1995 (PRA).

DATES: Written comments should be received on or before May 20, 2022 to be assured consideration.

ADDRESSES: Interested persons are invited to submit written comments on the information collection to Dawn Wolfgang, National Credit Union Administration, 1775 Duke Street, Suite 6032, Alexandria, Virginia 22314; email at PRAComments@NCUA.gov. *Given the limited in-house staff because of the COVID–19 pandemic, email comments are preferred.*

FOR FURTHER INFORMATION CONTACT:

Address requests for additional information to Dawn Wolfgang at the address above or telephone 703–548–2279.

SUPPLEMENTARY INFORMATION:

OMB Number: 3133–NEW.

Title: NCUA Template: Large Credit Union Data Collection.

Type of Review: New collection.

Abstract: The NCUA issued regulation under 12 CFR part 702, subpart E, “Capital Planning and Stress Testing” regarding capital planning and stress testing for federally insured credit unions with \$10 billion or more in assets and supervised by Office of National Examinations and Supervision (covered credit unions). The rule authorizes covered credit unions to

conduct stress tests in accordance with the NCUA’s requirements.

Section 702.506 provides for the necessary requirements for those credit unions to conduct supervisory stress tests. The “NCUA Template: Large Credit Union Data Collection” was developed for the credit unions to provide NCUA with the specific data needed to evaluate their internal assessments of capital adequacy and to ensure their capital resources are sufficient.

Affected Public: Private Sector: Not-for-profit institutions.

Estimated No. of Respondents: (11 current covered credit unions and 8 potential covered credit unions.) 19.

Estimated Total Annual Responses: 95.

Estimated Total Annual Burden Hours: 3,447.

Previous reporting by covered credit unions fell below the PRA threshold. Because of the increased number of covered credit unions, along with the new and revised templates, NCUA is requesting this information collection as a new collection. In calculating the “total annual burden” the following was considered: (1) Recurring burden imposed on all covered credit unions to provide NCUA the prescribed information quarterly (19 respondents × quarterly reporting × 5 hours to complete each report = 380 annual burden hours); (2) an one-time burden of 400 hours on each of the 11 current covered credit unions (a total of 4,400 hours) to develop new templates and update current templates to accommodate revisions, and (3) a one-time burden of 600 hours on each of the estimated 8 potential covered credit unions (a total of 4,800 hours) to develop all templates for this information collection requirement. The “one-time” burden is defined as information collection burden related to the upfront templates development and revision captured in a single annual reporting period (first 12 months). Because the Office of Management and Budget (OMB) grants approval for up to three years, the one-time burden explained above which represents a majority of the total burden hours has been evenly allocated over the life of the anticipated approval period (3 years).

Request for Comments: Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) Whether the collection of information is necessary for the proper execution of the function of the agency, including
