SUPPLEMENTARY INFORMATION: Appendix A is part of our system of records notices that cover systems containing information protected by the Privacy Act. Appendix A contains the routine uses that apply to all or many of our Privacy Act-covered systems and currently consists of uses A through H. Appendix A was last republished on December 20, 2013 (78 FR 77255, 77287). For the most up-to-date information, see the Appendix on our website at www.archives.gov/privacy/inventory.

The existing routine use H already covers disclosure of information in the system of records when necessary to facilitate responses to data breaches of the system. However, the Office of Management and Budget (OMB) issued a memorandum that included provisions relating to data breach routine uses that OMB required all agencies to incorporate into their SORNs. So we are updating routine use H to incorporate the required provisions from OMB M–17–12.

OMB M–17–12 also required agencies to incorporate provisions for another routine use, also related to data breaches, but designed to facilitate sharing information between agencies when appropriate so that another agency can better respond to its data breach. For example, this may include information that would assist the other agency in locating or contacting individuals potentially affected by a breach, or information that is related to the other agency's programs or information. So that we can disclose records in our systems of records that may reasonably be needed by another agency in responding to a breach, we are adding this routine use to all our systems of records.

The changes to routine use H will affect and be incorporated into all of our SORNs, and the new routine use I will be added to all of our SORNs based on this notice. To see the most current versions of our SORNs and Appendix A at any time, visit our website at www.archives.gov/privacy/inventory.

The Privacy Act of 1974, as amended (5 U.S.C. 552a) ("Privacy Act"), provides certain safeguards for an individual against an invasion of personal privacy. It requires Federal agencies that disseminate any record of personally identifiable information to do so in a manner that assures the action is for a necessary and lawful purpose, the information is current and accurate for its intended use, and the agency provides adequate safeguards to

prevent misuse of such information. NARA intends to follow these principles when transferring information to another agency or individual as a "routine use," including assuring that the information is relevant for the purposes for which it is transferred.

David S. Ferriero,
Archivist of the United States.

APPENDIX A

The following routine use statements apply to National Archives and Records Administration notices when indicated in the notice:

* * * * *

H. Routine Use—Data breach: A record from this system of records may be disclosed to appropriate agencies, entities, and people when (1) we suspect or confirm that there has been a breach of the system of records; (2) we determine that, as a result of the suspected or confirmed breach, there is a risk of harm to individuals, NARA (including its information systems, programs, and operations), the Federal Government, or national security; and (3) the disclosure made to such agencies, entities, and people is reasonably necessary to assist our efforts to respond to the suspected or confirmed breach or to prevent, minimize, or remedy such harm.

I. Routine Use—Other agency data breach: A record from this system of records may be disclosed to another Federal agency or Federal entity, when we determine that information from this system of records is reasonably necessary to assist the recipient agency or entity to (1) respond to a suspected or confirmed breach or (2) prevent, minimize, or remedy the risk of harm to individuals, the recipient agency or entity (including its information systems, programs, and operations), the Federal Government, or national security, resulting from a suspected or confirmed breach.

BILLING CODE 7515–01–P

NATIONAL TRANSPORTATION SAFETY BOARD

[Docket No.: NTSB–2021–0010, OMB Control No. 3147–0028]

Proposed Information Collection; Comment Request

AGENCY: National Transportation Safety Board (NTSB).

ACTION: 30-Day Notice of Information Collection; request for comments.

SUMMARY: Under the Paperwork Reduction Act (PRA) of 1995, the National Transportation Safety Board (NTSB) offers the public and Federal agencies the opportunity to comment regarding the NTSB's submission of an Information Collection Request (ICR) for an extension of a currently-approved information collection (IC) for Office of Management and Budget (OMB) Control No. 3147–0028. The OMB number, which is currently assigned to the NTSB's Request for a Medical Exception to the COVID–19 Vaccination Requirement form, was obtained through emergency clearance in November 2021 and will expire on May 31, 2022. The NTSB published a 60-Day Notice in December 2021, soliciting comments until February 15, 2022. With no comments received, the NTSB is issuing this 30-Day Notice, informing the public and Federal agencies to submit comments directly to the Office of Information & Regulatory Affairs (OIRA) regarding this ICR.

DATES: Submit comments to OIRA regarding this proposed collection of information by April 21, 2022.

ADDRESSES: Send comments directly to OIRA within 30 days of the publication of this Notice to <https://www.reginfo.gov/public/do/PRAMain>.

FOR FURTHER INFORMATION CONTACT: Kathleen Silbaugh, General Counsel, (202) 314–6080, rulemaking@ntsb.gov.

SUPPLEMENTARY INFORMATION: To comply with the September 9, 2021, Executive Order (E.O.) 14043 (*Requiring Coronavirus Disease 2019 Vaccination for Federal Employees*) and October 2021 guidance from the Safer Federal Workforce Task Force, the NTSB created and received emergency clearance in November 2021 for the following form: Request for a Medical Exception to the COVID–19 Vaccination Requirement. This form is designed for agency employees requesting a medical exception to the vaccine requirements. This IC is necessary because when an agency employee requests a medical exception to the COVID–19 vaccine requirements, the NTSB will use the information on this form to determine

whether the employee provided sufficient information to justify the request.

Because the OMB number assigned to this form was obtained through emergency clearance, the OMB number is only valid for six months and will expire on May 31, 2022. In anticipation of future requests from its employees, the NTSB is specifically seeking an extension of this currently-approved collection.

Prior to submitting the ICR to OIRA, the NTSB published in December 2020, a 60-day Notice in the **Federal Register**, soliciting comments until February 15, 2022; however, no comments were received as of the close of the comment period. Accordingly, the NTSB is publishing this 30-Day Notice to inform the public that the agency is submitting an ICR to OIRA for review and that future comments are to be sent directly to OIRA.

The NTSB currently is soliciting public comments that include: (1) Whether the proposed collection is necessary for the NTSB to perform its mission; (2) the accuracy of the estimated burden; (3) ways for the NTSB to enhance the quality, usefulness, and clarity of the IC; and (4) ways to minimize burden without reducing the quality of the IC.

A Notice Regarding Injunctions

The vaccination requirement issued pursuant to E.O. 14043 is currently the subject of a nationwide injunction. While that injunction remains in place, the NTSB will not process requests for a medical exception from the COVID-19 vaccination requirement pursuant to E.O. 14043. The NTSB will also not request the submission of any medical information related to a request for an exception from the vaccination requirement pursuant to E.O. 14043 while the injunction remains in place. But the NTSB may nevertheless receive information regarding a medical exception. That is because, if the NTSB were to receive a request for an exception from the COVID-19 vaccination requirement pursuant to E.O. 14043 during the pendency of the injunction, the NTSB will accept the request, hold it in abeyance, and notify the employee who submitted the request that implementation and enforcement of the COVID-19 vaccination requirement pursuant to E.O. 14043 is currently enjoined and that an exception therefore is not necessary so long as the injunction is in place. In other words, during the pendency of the injunction, any information collection related to requests for medical exception from the COVID-19 vaccination requirement

pursuant to E.O. 14043 is not undertaken to implement or enforce the COVID-19 vaccination requirement.

Title of Collection: Request for a Medical Exception to the COVID-19 Vaccination Requirement.

OMB Control Number: 3147-0028.

Form Number: Not applicable.

Type of Review: Extension of a currently-approved collection.

Affected Public: Private sector.

Total Estimated Annual Burden Hours: 20.

Estimated Average Burden Hours per Respondent: 1.

Frequency of Response: On occasion.

Total Estimated No. of Annual Responses: 20.

Jennifer Homendy,
Chair.

BILLING CODE 7533-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-237 and 50-249; NRC-2022-0025]

Constellation Energy Generation, LLC; Dresden Nuclear Power Station, Units 2 and 3

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has issued an exemption in response to an October 28, 2021, request from Exelon Generation Company, LLC to allow the submittal of sufficient Dresden Nuclear Power Station, Units 2 and 3, subsequent license renewal applications no later than 3 years prior to expiration of the existing renewed operating licenses and still place the licenses in timely renewal under NRC regulations. On February 1, 2022, Exelon Generation Company, LLC was renamed Constellation Energy Generation, LLC.

DATES: The exemption was issued on March 15, 2022.

ADDRESSES: Please refer to Docket ID NRC-2022-0025 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0025. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email:

Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION**

CONTACT section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to *PDR.Resource@nrc.gov*. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to *PDR.Resource@nrc.gov* or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays

FOR FURTHER INFORMATION CONTACT: Russell S. Haskell, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: 301-415-1129, email: *Russell.Haskell@nrc.gov*.

SUPPLEMENTARY INFORMATION: The text of the exemption is attached.

Dated: March 16, 2022.

For the Nuclear Regulatory Commission.

Russell S. Haskell,

Project Manager, Plant Licensing Branch III, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

Attachment—Exemption.

NUCLEAR REGULATORY COMMISSION

Docket Nos. 50-237 and 50-249

Constellation Energy Generation, LLC; Dresden Nuclear Power Station, Units 2 and 3

Exemption

I. Background

Constellation Energy Generation, LLC (the licensee), is the holder of Renewed Facility Operating License Nos. DPR-19 and DPR-25 which authorize operation of the Dresden Nuclear Power Station, Units 2 and 3, respectively. These units are boiling-water reactors located in Grundy County, Illinois. The licenses provide, among other things, that the
