Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** This ICR covers the collection of information from those organizations that receive cooperative agreements, contracts, and Targeted Brownfields Assessment (TBA) funds from EPA under the authority of the section 104(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Brownfields Utilization, Investment, and Local Development (BUILD) Act (Pub. L. 115-141). CERCLA 104(k), as amended, authorizes EPA to award grants or cooperative agreements and contract funding to states, tribes, local governments, other eligible entities, and nonprofit organizations to support the assessment and cleanup of brownfields

sites. Under section 101(39) of CERCLA, a brownfields site means real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cooperative agreement recipients (“recipients”) have general reporting and record keeping requirements as a condition of their cooperative agreement that result in burden. A portion of this reporting and record keeping burden is authorized under 2 CFR part 1500 and identified in the EPA’s general grants ICR (OMB Control Number 2030–0020). EPA requires Brownfields program recipients to maintain and report additional information to EPA on the uses and accomplishments associated with funded brownfields activities. EPA intends to expand programmatic reporting requirements to include TBA contractors and technical assistance contractors. EPA will use several forms to assist recipients and contractors in reporting the information and to ensure consistency of the information collected. EPA uses this information to meet Federal stewardship responsibilities to manage and track how program funds are being spent, to evaluate the performance of the Brownfields Cleanup and Land Revitalization Program, to meet the Agency’s reporting requirements under the Government Performance Results Act, and to report to Congress and other program stakeholders on the status and accomplishments of the program.

*Form Numbers:* EPA ICR No. 2104.09, OMB Control No. 2050–0192.

*Respondents/affected entities:* State/local/tribal governments; Non-Profits; Contractors.

*Respondent’s obligation to respond:* Required to obtain or Retain Benefits (2 CFR part 1500).

*Estimated number of respondents:* 5,714 (total).

*Frequency of response:* Bi-annual for subtitle CERCLA 128 recipients; quarterly for CERCLA 104(k) recipients.

*Total estimated burden:* 6,206 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$721,025 (per year), includes \$0 annualized capital or operation & maintenance costs.

*Changes in Estimates:* The burden hours estimate increased from 6,143 hours in the 2020 ICR request to 6,206 hours currently, for an increase of 63 hours. This slight change can be attributed to eliminating the Area-Wide Planning Form but adding two additional forms to track technical assistance. Additionally, the number of respondents increased from 5,517 in

2020 to an estimated 5,714, an increase of 197. Respondents indicated that improvements in the ACRES reporting system and increased familiarity with the program lead to a lower burden per individual entry.
