**SUPPLEMENTARY INFORMATION:****I. Background**

OSHA recognition of a NRTL signifies that the organization meets the requirements in section 1910.7 of title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational web page for each NRTL that details its scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

OSHA processes applications by a NRTL for renewal of recognition following requirements in appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, Appendix A, paragraph II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA, not less than nine months or no more than one year,

before the expiration date of its current recognition. The submission includes a request for renewal and any additional information the NRTL wishes to submit to demonstrate its continued compliance with the terms of its recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL's headquarters and key sites within the past 18 to 24 months, it will schedule the necessary on-site assessments prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces its preliminary decision to grant or deny renewal in the **Federal Register** and solicit comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

BACL initially received OSHA recognition as a NRTL on April 6, 2017 (82 FR 16856) for a five-year period that ends on April 6, 2022. BACL submitted a timely request for renewal, dated July 7, 2021 (OSHA–2016–0022–0013), and retains its recognition pending OSHA's final decision in this renewal process. The current address of the BACL facility recognized by OSHA and included as part of the renewal request is:

- Bay Area Compliance Laboratories Corporation, 1274 Anvilwood Avenue, Sunnyvale, California 94089.

**II. Notice of Preliminary Findings**

OSHA is providing notice that BACL is applying for renewal of its recognition as a NRTL. This renewal covers BACL's existing NRTL scope of recognition. OSHA evaluated BACL's application for renewal and preliminarily determined that BACL can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition. Accordingly, OSHA is making a preliminary determination that it does not need to conduct an additional on-site review of BACL's facility based on its evaluations of BACL's application and all other available information. This information includes OSHA's most recent audit of BACL's NRTL recognized site during this recognition period, and the satisfactory resolution of non-conformances with the requirements of 29 CFR 1910.7. This preliminary finding does not constitute an interim or temporary approval of the request.

OSHA welcomes public comment as to whether BACL meets the requirements of 29 CFR 1910.7 for renewal of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits.

Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in BACL's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N-3653, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA-2016-0022.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary on whether to grant BACL's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of this final decision in the **Federal Register**.

### III. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW, Washington, DC 20210, authorized the preparation of this notice. ## POSTAL REGULATORY COMMISSION

[Docket No. MC2022-46; Order No. 6122]

### Mail Classification Schedule

**AGENCY:** Postal Regulatory Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission is recognizing a recent Postal Service filing

requesting the transfer of Post Office Box service at a small number of selected locations from the market dominant to the competitive product list. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

**DATES:** *Comments are due:* April 29, 2022. *Reply comments are due:* May 13, 2022.

**ADDRESSES:** Submit comments electronically via the Commission's Filing Online system at <https://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

**FOR FURTHER INFORMATION CONTACT:** David A. Trissell, General Counsel, at 202-789-6820.

**SUPPLEMENTARY INFORMATION:** On March 16, 2022, the Postal Service filed a request under 39 U.S.C. 3642 and 39 CFR 3040.130, *et seq.* to transfer Post Office Box service at a small number of selected locations from the market dominant to the competitive product list.<sup>1</sup>

*Background.* The Commission has previously approved two Postal Service requests to transfer Post Office Box service from the market dominant product list to the competitive product list. By Order No. 473<sup>2</sup> and Order No. 780,<sup>3</sup> the Commission approved the transfer of approximately 6,800 locations to the competitive product list. Request at 1. The Postal Service states that the requests were based upon whether the Post Office Box customers had sufficient access to private mailbox service providers. *Id.* The Postal Service further states that at the time of its requests, "it was conducting further evaluations of all Post Office Box locations and might in the future seek the transfer of additional locations, if warranted, as it develops its understanding of the mailbox service market." *Id.* at 1-2 (footnote omitted). It further states that based on Commission approved criteria, it expanded the competitive service to one additional

location in 2013, to 1,625 locations in 2014 and to 227 locations in 2021. *Id.* at 2.

Having recently completed further evaluation of the criteria that indicate competitive status, the Postal Service requests the Commission to transfer an additional 297 locations from the market dominant to the competitive Post Office Box fee group. *Id.* The Postal Service requests the Commission to update the criteria applied to competitor locations to build upon the existing five-mile criterion and extend it by three miles to a range of eight miles. *Id.* The Request claims recent market research "shows customers are willing to travel longer distances for P.O. Box service than the current five-mile criterion recognizes." *Id.* It notes that the request for 297 locations represent a very small proportion of the 32,788 locations offering Post Office Box service. *Id.*

*Supporting materials.* To support its Request, the Postal Service filed the following attachments:

- Attachment A—Resolution of the Governors of the United States Postal Service, Transfer of Selected Post Office Box Service Locations to the Competitive Product List, May 6, 2021 (Resolution No. 21-12);
- Attachment B—Statement of Supporting Justification; and
- Attachment C—Proposed Mail Classification Schedule Changes.

*Notice of filings.* The Commission establishes Docket No. MC2022-46 to consider the Postal Service's proposals described in its Request.

Interested persons may submit comments on whether the Request is consistent with the policies of 39 U.S.C. 3642, 39 CFR 3040.130 *et seq.*, and the general provisions of title 39. Comments are due by April 29, 2022. Reply comments are due by May 13, 2022. The Request and related filings are available on the Commission's website (<https://www.prc.gov>). The Commission encourages interested persons to review the Request for further details.

The Commission appoints Eric D. Hughes to serve as Public Representative in this proceeding.

*It is ordered:*

1. The Commission establishes Docket No. MC2022-46 to consider the matters raised by the Postal Service's Request.

2. Pursuant to 39 U.S.C. 505, Eric D. Hughes is appointed to serve as an officer of the Commission (Public Representative) to represent the interests of the general public in this proceeding.

3. Comments by interested persons are due by April 29, 2022.

4. Reply comments are due by May 13, 2022.
