DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

15 CFR Part 904

[Docket No. 220114-0015]

RIN 0648-B172

Civil Procedures in Civil Administrative Enforcement Proceedings

AGENCY: Office of General Counsel (OGC), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NOAA proposes to amend procedures governing its civil administrative enforcement proceedings. The principal changes would include updates to statutory references, clarifications regarding the Administrator's discretionary review, revised directions for appealing a written warning, revised requirements for denying a request for admission, and revised directions for electronic service related to certain appeals and petitions. Other changes would remove the requirement for NOAA to challenge late hearing requests, simplify the use of electronic signatures, rename discovery filings, allow depositions by videoconference, require discovery filings to state when a witness is expected to speak in a language other than the English language in order to arrange interpretation, clarify when failing to pay can be a basis for permit sanctions, incorporate Civil Asset Forfeiture Reform Act deadlines into administrative forfeiture proceedings, and allow NOAA to publish a Notice of Proposed Forfeiture on an official government website. In addition, minor changes would update titles and addresses and correct clerical errors.

DATES: Comments and information must be received no later than 5 p.m. Eastern Time on April 25, 2022.

SUPPLEMENTARY INFORMATION:

I. Background

NOAA is proposing to amend the civil procedure regulations that apply to its administrative proceedings (15 CFR part 904), as described below. This includes proposed changes to update the statutory references subject to the application of this chapter of the Code of Federal Regulations, the titles and addresses for various offices of NOAA, the procedures for collection of civil monetary payments, the process for appealing written warnings issued by an authorized officer, and references to the office of Administrative Law Judges. This action would also provide clarifications to NOAA's filing requirements, requirements for an answering party to deny a request for admissions, deadlines in an administrative forfeiture proceeding, the

availability of a NOAA email address to electronically submit appeals of written warnings, petitions to the Administrator, petitions for relief from forfeiture, the process to identify witnesses that are expected to testify in a foreign language, and the criteria the Administrator may rely on to determine whether or not to grant discretionary review. Furthermore, this action would add provisions to the forfeiture section to authorize the posting of notices online, and would correct erroneous cross-references, grammatical issues, internal inconsistencies, typos, and other clerical errors that have resulted from the passage of time or were inadvertently left unaddressed in the last major revision to the regulations and have since been identified.

II. Proposed Revisions

Subpart A—General

Purpose and Scope

Section 904.1: Paragraph (c) would be amended to update the list of statutes enforced by NOAA pursuant to the procedures set forth in 15 CFR part 904. Specifically, the proposed amendments would remove references to statutes that have been repealed and statutes that are not enforced by NOAA. References to statutes enacted, or amended to include civil administrative enforcement provisions, since 15 CFR part 904 was last amended, would be added.

Definitions and Acronyms

Section 904.2: This section would be amended to reflect that the Administrative Law Judges currently hearing NOAA enforcement cases do not have a docketing center; to clarify that when U.S. Coast Guard (USCG) personnel are accompanying or acting under the direction of any authorized officer, those USCG personnel are authorized officers; to clarify that it is the Secretary of Commerce that may enter into agreements with Federal and state agencies to enforce statutes administered by NOAA; to clarify that a written warning may be a final administrative decision; and to rename initial discovery filings.

Filing and Service

Section 904.3: The heading of this section would be simplified to reflect that its provisions pertain to the service of any documents rather than specific filings, such as filings with the Office of Administrative Law Judges. Paragraph (a) would be amended to clarify that the requirements related to service apply to Initial Decisions as well as to notices and Written Warnings, and conforming amendments would be made to

paragraphs (b), (c), and (d). Paragraphs (a) and (b) would also be amended to remove service by facsimile, given the diminished prevalence of this form of communication and the current use of electronic transmission.

Computation of Time Periods

Section 904.4: The first line of this section would be amended to correct a typographical error.

Subpart B—Civil Penalties

Notice of Violation and Assessment (NOVA)

Section 904.101: Introductory paragraph (a) would be amended to correct a typographical error.

Procedures Upon Receipt of a NOVA

Section 904.102: Paragraphs (c) and (d) of this section would be amended to correct typographical errors.

Hearing

Section 904.103: This section would be removed and reserved. This is not a substantive change because the existing language merely reiterates requirements more clearly articulated in other provisions of NOAA's civil procedures regulations. This revision proposes to delete the redundant text.

Payment of Final Civil Penalty

Section 904.105: Paragraph (a) would be amended by replacing the instructions for payment of civil penalties with language reflecting current practices. Instructions related to the form of payment are no longer included in the Notice of Violation and Assessment of civil penalty (NOVA) or settlement agreement, but are instead provided by NOAA in an initial bill.

Joint and Several Respondents

Section 904.107: The last sentence of paragraph (b) would be amended to ensure consistent and correct use of terms.

Factors Considered in Assessing Civil Penalties

Section 904.108: The last sentence of paragraph (e) and first sentence of paragraph (h) would be amended to reflect the fact that the Administrative Law Judge is assessing a penalty as a matter of first impression rather than reviewing a final agency action.

Subpart C—Hearing and Appeal Processes

Scope and Applicability

Section 904.200: Paragraph (a) would be amended to clarify that this subpart also pertains to violations of other laws

or authorities administered by NOAA to mirror the scope of § 904.1.

Hearing Requests and Case Docketing

Section 904.201: Paragraph (a) would be amended to require hearing requests to conform to the service requirements in § 904.3. Paragraph (b) would be inserted to clarify that a request for a hearing must contain current contact information, including an active telephone number and email address (if available), and that NOAA and the Office of Administrative Law Judges must be promptly notified of any changes to that information. Accordingly, paragraphs (b) and (c) would be renamed paragraphs (c) and (d), respectively. Paragraphs (a), (c) and (d), as renumbered, would be amended to reflect that the Administrative Law Judges currently hearing NOAA enforcement cases do not have a docketing center. Paragraph (c), as renumbered, would be amended to ensure consistent and correct use of terms.

Filing of Documents

Section 904.202: Paragraph (a) would be amended to reflect that the Administrative Law Judges currently hearing NOAA enforcement cases do not have a docketing center, and to incorporate the filing requirements specified at § 904.3.

Duties and Powers of Judge

Section 904.204: Paragraph (a) would be amended to reference § 904.201(c) rather than § 904.201(b) to reflect the change in the numbering of § 904.201.

Pleadings, Motions, and Service

Section 904.206: Paragraph (a) would be amended to reflect that the Administrative Law Judges currently hearing NOAA enforcement cases do not have a docketing center. Paragraph (b) would be amended to allow pleadings to be signed in any manner to allow flexibility in electronic filing.

Expedited Administrative Proceedings

Section 904.209: This section would be amended to correct a typographical error.

Stipulations

Section 904.214: This section would be amended to correct a typographical error.

Prehearing Conferences

Section 904.216: Introductory paragraph (a) of this section would be amended to correct a typographical error.

Discovery Generally

Section 904.240: Throughout this section, initial discovery filings would be renamed for clarity and to more accurately describe the purpose of these filings in NOAA's administrative proceedings. Conforming changes would be made throughout 15 CFR part 904 for consistency. Paragraph (a) would be amended to clarify that the Administrative Law Judge will set the deadline for the parties to submit their initial discovery filings. Paragraph (a)(2) would be amended to clarify who must sign the initial discovery filings, and that those filings must be served in conformance with § 904.3. Paragraph (b) would be amended to allow for service of discovery requests regarding ability to pay in conformance with § 904.3. Paragraph (f) would be amended to clarify that the provisions regarding the failure to comply with discovery obligations also apply to initial discovery filings.

Depositions

Section 904.241: Paragraph (a) would be amended to require the written notice of deposition to also provide the phone number and email address (if available) of the person before whom the deposition would be taken. Paragraph (c) would be amended to allow depositions to take place by videoconference. Paragraph (d) would be amended to clarify that the admissibility of depositions is determined under this part rather than the Federal Rules of Evidence, consistent with § 904.251, which states the formal rules of evidence do not necessarily apply.

Interrogatories

Section 904.242: Paragraphs (a) and (b) would be amended to clarify that service of interrogatories must be in conformance with § 904.3. Paragraph (a) would also be amended to move the requirement that answers to interrogatories be used in the same manner as depositions into new paragraph (d) to match the organization of other sections.

Admissions

Section 904.243: Paragraphs (a) and (b) would be amended to clarify that service of admission requests and responses must be in conformance with § 904.3. Paragraph (b) would be amended to require a denial to fairly respond to the substance of the matter and specify which part of an answer is denied. Paragraph (b) would also be amended to require a party failing to admit or deny an admission to state that it has made reasonable inquiry and

assert that the information known or readily obtainable is insufficient to admit or deny. The proposed language mirrors requirements in Rule 36 of the Federal Rules of Civil Procedures.

Hearings

Section 904.250: Paragraph (a) would be amended to correct the internal reference to paragraph (d) of the same section regarding the scheduling of expedited proceedings.

Evidence

Section 904.251: Paragraph (a)(3) would be amended to clarify that evidence may still be presented to establish matters of aggravation or mitigation where the respondent admits an allegation. Existing paragraph (i) would be separated into two paragraphs, so that new paragraph (i) would address foreign law and new paragraph (j) would address foreign language exhibits. This is an organizational change with no amendments to the content of the rules.

Witnesses

Section 904.252: Paragraph (a) would be amended to state that certain witnesses are eligible to receive fees rather than required to receive fees; this change would cover circumstances where the witness declines to receive payment. Paragraph (f) would be amended to require a party to state in its initial discovery filings if a witness the party sponsors is expected to testify in a language other than the English language and removes the requirement for the party sponsoring the witness to provide for the services. The proposed change would provide more notice than the current requirement of advising opposing counsel 10 days prior to a hearing and would create more flexibility to successfully arrange for the use of a certified interpreter.

Recordation of Hearing

Section 904.260: Paragraph (b) would be amended to reflect that the Administrative Law Judges currently hearing NOAA enforcement cases do not have a docketing center.

Record of Decision

Section 904.270: Paragraph (b) would be amended to reflect that the Administrative Law Judges currently hearing NOAA enforcement cases do not have a docketing center.

Initial Decision

Section 904.271: The title and contents of this section would be amended to ensure correct capitalization. Conforming changes

would be made throughout this part. Paragraphs (a) and (c) would be amended to clarify that this section applies to the Administrative Law Judge's Initial Decision upon the case. Paragraph (c) would be revised to reflect the current title of the Chief of the Enforcement Section of NOAA's Office of General Counsel. Paragraph (c) would also be amended to remove the reference to § 904.3 because § 904.3(a) already explicitly references Initial Decisions.

Petition for Reconsideration

Section 904.272: This section would be amended to correct typographical errors.

Administrative Review of Decision

Section 904.273: Paragraph (a) would be revised to update the directions for filing petitions for review, including by changing the NOAA Office of General Counsel section that must receive copies of any petitions for review, and providing both mail and electronic transmission options for service. Paragraph (a) would also clarify that service must be made in conformance with § 904.3(b). Paragraph (b) would be revised to clarify that the Administrator may affirm, reverse, modify or remand, in whole or in part, an Administrative Law Judge's Initial Decision. Paragraph (c) would be revised to clarify the factors the Administrator will consider in determining whether to grant discretionary review. Paragraph (d) would be amended to ensure correct capitalization, and conforming changes would be made throughout this part for consistency. Paragraphs (i) and (k) would be amended to allow for service consistent with § 904.3. Paragraph (l)(2) would be revised to correct an omission of paragraph (i) as actions constituting final agency action.

Subpart D—Permit Sanctions and Denials

Scope and Applicability

Section 904.300: Paragraph (a) would be amended to define the scope of permit sanctions such as the revocation, suspension, modification, and denial of permits. The scope of permit revocation, suspension, and modification would be moved into this paragraph from § 904.320. The scope of a permit denial would be added to clarify that the term permit sanction includes the denial of issuance of a permit in the future. Paragraph (b) would be amended to exclude the Land Remote Sensing Policy Act of 1992, as amended (Act), from this subpart, as regulations at 15

CFR part 960 apply to license denials under the Act.

Bases for Permit Sanctions

Section 904.301: The title of this section would be amended to reflect that permit denials are a form of permit sanction. Paragraph (a) would be amended to clarify that NOAA cannot sanction a permit in a manner inconsistent with an underlying statute. Paragraph (a)(1) and (a)(2) would be amended to simplify the language. Paragraph (a)(4) would be amended to incorporate statutory language from 16 U.S.C. 1858(g)(1)(C) regarding sanctions for failure to pay any amount in settlement of a civil forfeiture on a vessel or other property. Paragraph (b) would be amended to simplify the language regarding which permits a sanction may apply to. Paragraphs (b)(1) through (b)(3), containing hypotheticals where sanctions may be assessed, would be removed to avoid confusion and eliminate dated hypotheticals. These changes are meant to simplify the language and would not change the substance of the provisions related to imposition of sanctions.

Notice of Permit Sanction

Section 904.302: Paragraph (a) would be amended to remove the cross-reference to § 904.3 to avoid repetition.

Notice of Intent To Deny Permit

Section 904.303: Paragraph (a) would be removed and reserved because the substance of paragraph (a) regarding when NOAA may issue a notice of intent to deny permit is already stated in detail in § 904.301. Paragraph (b) would be amended to remove the cross-reference to § 904.3 to avoid repetition. Paragraph (d) would be amended by removing language referencing §§ 904.310 and 904.320 as redundant given earlier changes.

Opportunity for Hearing

Section 904.304: Paragraph (b) would be amended to simplify the language.

Nature of Permit Sanctions

Section 904.310: This section would be removed and reserved because the content of this section is already explained in § 904.301, which addresses the bases for permit sanctions.

Compliance

Section 904.311: The name of this section would be amended to better reflect the specific action addressed in the regulation. Additionally, language would be added to clarify that this regulates sanctions such as permit suspensions, denials, and modifications.

Nature of Permit Sanctions

Section 904.320: This section would be removed and reserved. The contents of this section provide the scope of three types of permit sanctions and are proposed to be moved to § 904.300 at the beginning of subpart D, which addresses the scope and applicability of permit sanctions.

Subpart E—Written Warnings

Procedures

Section 904.402: Paragraph (a) would be amended to remove the cross-reference to § 904.3 regarding service to avoid repetition. Section 904.3(a) already explicitly references service of written warnings.

Review and Appeal of a Written Warning

Section 904.403: Paragraph (a) would be removed and reserved. Paragraph (b) would be revised to direct all appeals of written warnings to the NOAA Deputy General Counsel. This change would ensure that any person involved in the decision to issue a written warning is not responsible for deciding the appeal. Conforming changes would be made to paragraph (b). Paragraph (b) would be further amended to include the procedures for appealing any written warnings and allow for electronic service.

Subpart F—Seizure and Forfeiture Procedures

Purpose and Scope

Section 904.500: Paragraph (a) would be simplified to remove internal inconsistencies. Paragraphs (a) and (b) would be revised to specify that the seizure and forfeiture regulations apply to any laws cited in paragraph (c) of § 904.1.

Notice of Seizure

Section 904.501: This section would be revised to correct grammatical errors, and would remove repetitive references to § 904.3.

Bonded Release of Seized Property

Section 904.502: Paragraph (c) would be revised to correct a typographical error.

Appraisement

Section 904.503: This section would be revised to make the language regarding appraising seized property permissible rather than mandatory to reflect NOAA's authority to sell perishable property through bids rather than appraisals.

Administrative Forfeiture Proceedings

Section 904.504: Paragraph (a) would be amended to conform with the amendments made to § 904.503. Paragraph (b)(1) would be amended to provide a deadline to publish the Notice of Proposed Forfeiture consistent with the Civil Asset Forfeiture Reform Act. Paragraph (b)(1) will also be amended to enable NOAA to publish a Notice of Proposed Forfeiture on an official government website. Paragraph (b)(1) would also remove a repetitive reference to § 904.3. Paragraph (b)(3)(i) would be amended by removing a confusing cross-reference to paragraph (b)(4).

Summary Sale

Section 904.505: Paragraph (c) would be amended to correct grammatical errors and to remove a redundant reference to § 904.3.

Remission of Forfeiture and Restoration of Proceeds of Sale

Section 904.506: Paragraph (a)(1) would be amended to correct grammatical errors and to mirror paragraph (b) of this section. Paragraph (b)(1) would be revised to reflect the current title of the Chief of the Enforcement Section of NOAA's Office of General Counsel and to allow persons to petition for relief from forfeiture electronically in addition to by mail. Paragraph (b)(1) would also be revised to clarify that property is administratively forfeited under § 904.504 and not § 904.506.

Disposal of Forfeited Property

Section 904.509: Paragraph (g)(2) would be amended to reference the updated Federal Property Management regulations.

Classification

This proposed rule has been determined to be not significant for purposes of Executive Order 12866.

Pursuant to the Executive Order on federalism, Executive Order 13132, this proposed rule does not have federalism effects and that a federalism assessment is not required.

There are no reporting, recordkeeping or other compliance requirements in the proposed rule. Nor does this proposed rule contain an information-collection request that would implicate the Paperwork Reduction Act, 44 U.S.C. 3501, *et seq.*

The Chief Counsel for Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy of the Small Business Administration that this proposed rule, if adopted, would not have a significant

economic impact on a substantial number of small entities.

The small businesses, as defined in the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, that this proposed rule may affect include, but are not limited to, vessel owners, vessel operators, fish dealers, individual fishermen, small corporations, and others engaged in commercial and recreational activities regulated by NOAA. However, this proposed rule does not have any compliance costs or associated fees for businesses, large or small. This proposed rule is purely procedural, and merely amends and refines NOAA's existing rules of civil procedure.

Because this proposed rule would only modify existing procedural rules, the overall economic impact on small entities, if any, is expected to be nominal. Accordingly, this proposed rule will not have a substantial impact on a significant number of small entities. As a result, an initial regulatory flexibility analysis is not required and none has been prepared.

§ 904.2 Definitions and acronyms.

* * * * *

Applicable statute means a statute cited in § 904.1(c), and any regulations issued by NOAA to implement it.

Authorized officer means:

(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard (USCG);

(2) Any special agent or fishery enforcement officer of NMFS;

(3) Any officer designated by the head of any Federal or state agency that has entered into an agreement with the Secretary of Commerce to enforce the provisions of any statute administered by NOAA; or

(4) Any USCG personnel accompanying and/or acting under the direction of any person described in paragraphs (1), (2), or (3) of this definition.

* * * * *

Final administrative decision means an order or decision of NOAA assessing a civil penalty, permit sanction, or written warning, which is not subject to further Agency review under this part, and which is subject to collection proceedings or judicial review in an appropriate Federal district court as authorized by law.

■ 4. Revise § 904.3 to read as follows:

§ 904.3 Filing and service.

(a) Service of a NOVA (§ 904.101), NOPS (§ 904.302), NIDP (§ 904.303), Notice of Proposed Forfeiture (§ 904.504), Notice of Seizure (§ 904.501), Notice of Summary Sale (§ 904.505), Written Warning (§ 904.402), or Initial Decision (§ 904.271) may be made by certified mail (return receipt requested), electronic transmission, or third party commercial carrier to an addressee's last known address or by personal delivery. Service of a notice under this subpart will be considered effective upon receipt.

(b) Service of documents and papers, other than those described in paragraph (a) of this section, may be made by first class mail (postage prepaid), electronic transmission, or third party commercial carrier, to an addressee's last known address or by personal delivery. Service of documents and papers will be considered effective upon the date of postmark (or as otherwise shown for government-franked mail), delivery to third party commercial carrier, electronic transmission, or upon personal delivery.

(c) Whenever this part requires service of a document or other paper referred to in paragraph (a) or (b) of this section, such service may effectively be made on the agent for service of process, on the attorney for the person to be served, or other representative. Refusal by the person to be served (including an agent, attorney, or representative) of service of a document or other paper will be considered effective service of the document or other paper as of the date of such refusal. In cases where a document or paper described in paragraph (a) of this section is returned unclaimed, service will be considered effective if the U.S. Postal Service provides an affidavit stating that the party was receiving mail at the same address during the period when certified service was attempted.

(d) Any documents and other papers filed or served must be signed:

(1) By the person or persons filing the same;

(2) By an officer thereof if a corporation;

(3) By an officer or authorized employee if a government instrumentality; or

(4) By an attorney or other person having authority to sign.

■ 5. In § 904.4, revise the first sentence to read as follows:

§ 904.4 Computation of time periods.

For a NOVA, NOPS or NIDP, the 30-day response period begins to run on the date the notice is received. * * *

■ 6. In § 904.101, revise paragraph (a) introductory text to read as follows:

§ 904.101 Notice of violation and assessment (NOVA).

(a) A NOVA will be issued by NOAA and served on the respondent(s). The NOVA will contain:

* * * * *

■ 7. In § 904.102, revise paragraphs (c) and (d) to read as follows:

§ 904.102 Procedures upon receipt of a NOVA.

* * * * *

(c) The respondent may, within the 30-day period specified in paragraph (a) of this section, request an extension of time to respond. Agency counsel may grant an extension of up to 30 days unless he or she determines that the requester could, exercising reasonable diligence, respond within the 30-day period. If Agency counsel does not respond to the request within 48 hours of its receipt, the request is granted automatically for the extension requested, up to a maximum of 30 days. A telephonic response to the request within the 48-hour period is considered an effective response, and will be followed by written confirmation.

(d) Agency counsel may, for good cause, grant an additional extension beyond the 30-day period specified in paragraph (c) of this section.

§ 904.103 [Removed and Reserved]

■ 8. Remove and reserve § 904.103.

■ 9. In § 904.105, revise paragraph (a) to read as follows:

§ 904.105 Payment of final civil penalty.

(a) Respondent must make full payment of the civil penalty within 30 days of the date upon which the NOVA becomes effective as the final administrative decision and order of NOAA under § 904.104 or the date of the final administrative decision as provided in subpart C of this part, as directed by NOAA. Payment must be made in accordance with the bill and instructions provided by NOAA.

* * * * *

■ 10. In § 904.107, revise paragraph (b) to read as follows:

§ 904.107 Joint and several respondents.

* * * * *

(b) A hearing request by one joint and several respondent is considered a request by the other joint and several respondent(s). Agency counsel, having

received a hearing request from one joint and several respondent, will send a copy of it to the other joint and several respondent(s) in the case. However, if the requesting joint and several respondent settles with the Agency prior to the hearing, upon notification by the Agency, any remaining joint and several respondent(s) must affirmatively request a hearing within the time period specified or the case will be removed from the hearing docket as provided in § 904.213.

* * * * *

■ 11. In § 904.108, revise paragraphs (e), (f), and (h) to read as follows:

§ 904.108 Factors considered in assessing civil penalties.

* * * * *

(e) Financial information regarding respondent's ability to pay should be submitted to Agency counsel as soon as possible after the receipt of the NOVA. If a respondent has requested a hearing on the violation alleged in the NOVA and wants the Initial Decision of the Judge to consider his or her inability to pay, verifiable, complete, and accurate financial information must be submitted to Agency counsel at least 30 days in advance of the hearing, except where the applicable statute expressly provides for a different time period. No information regarding the respondent's ability to pay submitted by the respondent less than 30 days in advance of the hearing will be admitted at the hearing or considered in the Initial Decision of the Judge, unless the Judge rules otherwise. If the Judge decides to admit any information related to the respondent's ability to pay submitted less than 30 days in advance of the hearing, Agency counsel will have 30 days to respond to the submission from the date of admission. In deciding whether to submit such information, the respondent should keep in mind that the Judge may assess a civil penalty either greater or smaller than that assessed in the NOVA.

(f) Issues regarding ability to pay will not be considered in an administrative review of an Initial Decision if the financial information was not previously presented by the respondent to the Judge prior to or at the hearing.

* * * * *

(h) Whenever a statute requires NOAA to take into consideration a respondent's ability to pay when assessing a civil penalty and the respondent has requested a hearing on the violation alleged in the NOVA, the Agency must submit information on the respondent's financial condition so that the Judge may consider that information, along with any other

factors required to be considered, in the Judge's assessment of a civil penalty. Agency counsel may obtain such financial information through discovery procedures under § 904.240, or otherwise. A respondent's refusal or failure to respond to such discovery requests may serve as the basis for inferring that such information would have been adverse to any claim by respondent of inability to pay the assessed civil penalty, or result in respondent being barred from asserting financial hardship.

* * * * *

■ 12. In § 904.200, revise paragraph (a) to read as follows:

§ 904.200 Scope and applicability.

(a) This subpart sets forth the procedures governing the conduct of hearings and the issuance of initial and final administrative decisions of NOAA involving alleged violations of the laws cited in § 904.1(c) and any other laws or authorities administered by NOAA and regulations implementing these laws, including civil penalty assessments and permit sanctions and denials. By separate regulation, these rules may be applied to other proceedings.

* * * * *

■ 13. Revise § 904.201 to read as follows:

§ 904.201 Hearing requests and case docketing.

(a) If the respondent wishes a hearing on a NOVA, NOPS or NIDP, the request must be dated and in writing, and must be served in conformance with § 904.3 on the Agency counsel specified in the notice. The respondent must either attach a copy of the NOVA, NOPS or NIDP or refer to the relevant NOAA case number. Agency counsel will promptly forward the request for hearing to the Office of Administrative Law Judges.

(b) Any party requesting a hearing under § 904.102(a)(3) must provide current contact information, including a working telephone number and email address (if one is available). The Agency and the Office of Administrative Law Judges must be promptly notified of any changes to this information.

(c) If a written application is made to NOAA after the expiration of the time period established in this part for the required filing of hearing requests, Agency counsel will promptly forward the request for hearing along with documentation of service and any other relevant materials to the Office of Administrative Law Judges for a determination on whether such request shall be considered timely filed. Determinations by the Judge regarding

untimely hearing requests under this section shall be in writing.

(d) Upon its receipt for filing in the Office of Administrative Law Judges, each request for hearing will be promptly assigned a docket number and thereafter the proceeding will be referred to by such number. Written notice of the assignment of hearing to a Judge will promptly be given to the parties.

■ 14. In § 904.202, revise paragraph (a) to read as follows:

§ 904.202 Filing of documents.

(a) Pleadings, papers, and other documents in the proceeding must be filed directly with the Office of Administrative Law Judges, be served on all other parties, and conform with all applicable requirements of § 904.3.

* * * * *

■ 15. In § 904.204, revise paragraphs (a) and (m) to read as follows:

§ 904.204 Duties and powers of Judge.

* * * * *

(a) Rule on timeliness of hearing requests pursuant to § 904.201(c);

* * * * *

(m) Assess a civil penalty or impose a permit sanction, condition, revocation, or denial of permit application, taking into account all of the factors required by applicable law;

* * * * *

■ 16. In § 904.206, revise paragraphs (a), (b), and (d) to read as follows:

§ 904.206 Pleadings, motions, and service.

(a) The original of all pleadings and documents must be filed with the Judge and a copy served on the Office of Administrative Law Judges and each party. All pleadings or documents when submitted for filing must show that service has been made upon all parties. Such service must be made in accordance with § 904.3(b).

(b) Pleadings and documents to be filed may be reproduced by printing or any other process, provided the copies are clear and legible; must be dated, signed; and must show the docket description and title of the proceeding, and the title, if any, address, and telephone number of the signatory. If typewritten, the impression may be on only one side of the paper and must be double spaced, if possible, except that quotations may be single spaced and indented.

* * * * *

(d) Unless otherwise provided, the answer to any written motion, pleading, or petition must be served within 20 days after service of the motion. If a motion states that opposing counsel has

no objection, it may be acted upon as soon as practicable, without awaiting the expiration of the 20-day period. Answers must be in writing, unless made in response to an oral motion made at a hearing; must fully and completely advise the parties and the Judge concerning the nature of the opposition; must admit or deny specifically and in detail each material allegation of the pleading answered; and must state clearly and concisely the facts and matters of law relied upon. Any new matter raised in an answer will be deemed controverted.

* * * * *

■ 17. Revise § 904.209 to read as follows:

§ 904.209 Expedited administrative proceedings.

In the interests of justice and administrative efficiency, the Judge, on his or her own initiative or upon the application of any party, may expedite the administrative proceeding. A motion by a party to expedite the administrative proceeding may, at the discretion of the Judge, be made orally or in writing with concurrent actual notice to all parties. Upon granting a motion to expedite the scheduling of an administrative proceeding, the Judge may expedite pleading schedules, prehearing conferences and the hearing, as appropriate. If a motion for an expedited administrative proceeding is granted, a hearing on the merits may not be scheduled with less than 5 business days' notice, unless all parties consent to an earlier hearing.

■ 18. Revise § 904.214 to read as follows:

§ 904.214 Stipulations.

The parties may, by stipulation, agree upon any matters involved in the administrative proceeding and include such stipulations in the record with the consent of the Judge. Written stipulations must be signed and served on all parties.

■ 19. In § 904.216, revise paragraph (a) introductory text to read as follows:

§ 904.216 Prehearing conferences.

(a) Prior to any hearing or at any other time deemed appropriate, the Judge may, upon his or her own initiative, or upon the application of any party, direct the parties to appear for a conference or arrange a telephone conference. The Judge shall provide at least 24 hours' notice of the conference to the parties, and shall record such conference by audio recording or court reporter, to consider:

* * * * *

■ 20. In § 904.240, revise paragraphs (a), (b), and (f) introductory text to read as follows:

§ 904.240 Discovery generally.

(a) *Initial Disclosures.* Prior to hearing, the Judge shall require the parties to submit Initial Disclosures and set a deadline for their submission. Except for information regarding a respondent's ability to pay an assessed civil penalty, these Initial Disclosures will normally obviate the need for further discovery.

(1) The Initial Disclosures shall include the following information: A factual summary of the case; a summary of all factual and legal issues in dispute; a list of all defenses that will be asserted, together with a summary of all factual and legal bases supporting each defense; a list of all potential witnesses, together with a summary of their anticipated testimony; and a list of all potential exhibits.

(2) The Initial Disclosures must be signed by the parties or their attorneys and must be served on all parties in conformance with § 904.3, along with a copy of each potential exhibit listed therein.

(3) A party has the affirmative obligation to supplement their Initial Disclosures as available information or documentation relevant to the stated charges or defenses becomes known to the party.

(b) *Additional discovery.* Upon written motion by a party, the Judge may allow additional discovery only upon a showing of relevance, need, and reasonable scope of the evidence sought, by one or more of the following methods: Deposition upon oral examination or written questions, written interrogatories, production of documents or things for inspection and other purposes, and requests for admission. With respect to information regarding a respondent's ability to pay an assessed civil penalty, the Agency may serve any discovery request (*i.e.*, deposition, interrogatories, admissions, production of documents) directly upon the respondent in conformance with § 904.3 of this part without first seeking an order from the Judge.

* * * * *

(f) *Failure to comply.* If a party fails to comply with any provision of this section, including with respect to their Initial Disclosures, a subpoena, or an order concerning discovery, the Judge may, in the interest of justice:

* * * * *

■ 21. In § 904.241, revise paragraphs (a), (c), and (d)(1) to read as follows:

§ 904.241 Depositions.

(a) Notice. If a motion for deposition is granted, and unless otherwise ordered by the Judge, the party taking the deposition of any person must serve on that person and on any other party written notice at least 15 days before the deposition would be taken (or 25 days if the deposition is to be taken outside the United States). The notice must state the name and address of each person to be examined, the time and place where the examination would be held, the name, mailing address, telephone number, and email address (if one is available) of the person before whom the deposition would be taken, and the subject matter about which each person would be examined.

* * * * *

(c) Alternative deposition methods. By order of the Judge, the parties may use other methods of deposing parties or witnesses, such as telephonic depositions, depositions through videoconference, or depositions upon written questions. Objections to the form of written questions are waived unless made within 5 days of service of the questions.

(d) * * *

(1) At hearing, part or all of any deposition, so far as admissible under this Part as though the witness were then testifying, may be used against any party who was present or represented at the taking of the deposition or had reasonable notice.

* * * * *

■ 22. In § 904.242, revise paragraphs (a) and (b) and add paragraph (d) to read as follows:

§ 904.242 Interrogatories.

(a) Service and use. If ordered by the Judge, any party may serve upon any other party written interrogatories in conformance with § 904.3.

(b) Answers and objections. Answers and objections must be made in writing under oath, and reasons for the objections must be stated. Answers must be signed by the person making them and objections must be signed by the party or attorney making them. Unless otherwise ordered, answers and objections must be served on all parties within 20 days after service of the interrogatories in conformance with § 904.3.

* * * * *

(d) Use of interrogatories at hearing. Answers may be used at hearing in the same manner as depositions under § 904.241(d).

■ 23. In § 904.243, revise paragraphs (a) and (b) to read as follows:

§ 904.243 Admissions.

(a) Request. If ordered by the Judge, any party may serve on any other party a written request for admission of the truth of any relevant matter of fact set forth in the request in conformance with § 904.3, including the genuineness of any relevant document described in the request. Copies of documents must be served with the request. Each matter for which an admission is requested must be separately stated.

(b) Response. Each matter is admitted unless a written answer or objection is served within 20 days of service of the request in conformance with § 904.3, or within such other time as the Judge may allow. The answering party must specifically admit or deny each matter, or state the reasons why he or she cannot truthfully admit or deny it. A denial must fairly respond to the substance of the matter; and when good faith requires that a party qualify an answer or deny only a part of a matter, the answer must specify the part admitted and qualify or deny the rest. The answering party may assert lack of knowledge or information as a reason for failing to admit or deny only if the party states that it has made reasonable inquiry and that the information it knows or can readily obtain is insufficient to enable it to admit or deny.

* * * * *

■ 24. In § 904.250, revise paragraph (a) to read as follows:

§ 904.250 Notice of time and place of hearing.

(a) The Judge shall be responsible for scheduling the hearing. With due regard for the convenience of the parties, their representatives, or witnesses, the Judge shall fix the time, place and date for the hearing and shall notify all parties of the same. The Judge will promptly serve on the parties notice of the time and place of hearing. The hearing will not be held less than 20 days after service of the notice of hearing unless the hearing is expedited as provided under paragraph (d) of this section.

* * * * *

■ 25. In § 904.251, revise paragraphs (a)(3) and (i) and add paragraph (j) to read as follows:

§ 904.251 Evidence.

(a) * * *

(3) In any case involving a charged violation of law in which the respondent has admitted an allegation, evidence may still be presented to establish matters of aggravation or mitigation.

* * * * *

(i) Foreign law. A party who intends to raise an issue concerning the law of a foreign country must give reasonable notice. The Judge, in determining foreign law, may consider any relevant material or source, whether or not submitted by a party.

(j) Foreign language exhibits. Exhibits in a foreign language must be translated into English before such exhibits are offered into evidence. Copies of both the untranslated and translated versions of the proposed exhibits, along with the name and qualifications of the translator, must be served on the opposing party at least 10 days prior to the hearing unless the parties otherwise agree.

■ 26. In § 904.252, revise paragraphs (a) and (f) to read as follows:

§ 904.252 Witnesses.

(a) Fees. Witnesses, other than employees of a Federal agency, summoned in an administrative proceeding, including discovery, are eligible to receive the same fees and mileage as witnesses in the courts of the United States.

* * * * *

(f) Testimony in a foreign language. If a witness is expected to testify in a language other than the English language, the party sponsoring the witness must indicate that in its Initial Disclosures so that an interpreter can be arranged for the hearing. When available, the interpreter should be court certified under 28 U.S.C. 1827.

■ 27. In § 904.260, revise paragraph (b) to read as follows:

§ 904.260 Recordation of hearing.

* * * * *

(b) The official transcript of testimony taken, together with any exhibits, briefs, or memoranda of law filed therewith, will be filed with the Office of Administrative Law Judges. Transcripts of testimony will be available in any hearing and will be supplied to the parties at the cost of the Agency.

* * * * *

■ 28. In § 904.270, revise paragraph (b) to read as follows:

§ 904.270 Record of decision.

* * * * *

(b) The Judge will arrange for appropriate storage of the records of any administrative proceeding, which place of storage need not necessarily be located physically within the Office of Administrative Law Judges.

■ 29. In § 904.271, revise paragraphs (a) introductory text, (b), (c), and (d) introductory text to read as follows:

§ 904.271 Initial Decision.

(a) After expiration of the period provided in § 904.261 for the filing of reply briefs (unless the parties have waived briefs or presented proposed findings orally at the hearing), the Judge will render an Initial Decision upon the record in the case, setting forth:

* * * * *

(b) If the parties have presented oral proposed findings at the hearing or have waived presentation of proposed findings, the Judge may at the termination of the hearing announce the decision, subject to later issuance of a written Initial Decision under paragraph (a) of this section. In such cases, the Judge may direct the prevailing party to prepare proposed findings, conclusions, and an order.

(c) The Judge will serve the Initial Decision on each of the parties, the Chief of the Enforcement Section of the NOAA Office of General Counsel, and the Administrator. Upon request, the Judge will promptly certify to the Administrator the record, including the original copy of the Initial Decision, as complete and accurate.

(d) An Initial Decision becomes effective as the final administrative decision of NOAA 60 days after service, unless:

* * * * *

■ 30. Revise § 904.272 to read as follows:

§ 904.272 Petition for reconsideration.

Unless an order or Initial Decision of the Judge specifically provides otherwise, any party may file a petition for reconsideration of an order or Initial Decision issued by the Judge. Such petitions must state the matter claimed to have been erroneously decided, and the alleged errors and relief sought must be specified with particularity. Petitions must be filed within 20 days after the service of such order or Initial Decision. The filing of a petition for reconsideration shall operate as a stay of an order or Initial Decision or its effectiveness date unless specifically so ordered by the Judge. Within 15 days after the petition is filed, any party to the administrative proceeding may file an answer in support or in opposition.

■ 31. Revise § 904.273 to read as follows:

§ 904.273 Administrative review of decision.

(a) Subject to the requirements of this section, any party who wishes to seek review of an Initial Decision of a Judge must Petition for Review of the Initial Decision within 30 days after the date the decision is served. The petition must be served on the Administrator in

conformance with § 904.3(b) at the following address: Administrator, National Oceanic and Atmospheric Administration, Department of Commerce, Room 5128, 14th Street and Constitution Avenue NW, Washington, DC 20230. Copies of the Petition for Review, and all other documents and materials required in paragraph (d) of this section, must be served in conformance with § 904.3(b) on all parties and to either *administrative.appeals@noaa.gov* or the following address: Chief, Oceans and Coasts Section, NOAA Office of General Counsel, 1305 East-West Highway, SSMC 4, Suite 6111, Silver Spring, MD 20910.

(b) The Administrator may elect to issue an order to review the Initial Decision without petition and may affirm, reverse, modify or remand, in whole or in part, the Judge's Initial Decision. Any such order must be issued within 60 days after the date the Initial Decision is served.

(c) Review by the Administrator of an Initial Decision is discretionary and is not a matter of right. If a party files a timely petition for discretionary review, or review is timely initiated by the Administrator, the effectiveness of the Initial Decision is stayed until further order of the Administrator or until the Initial Decision becomes final pursuant to paragraph (h) of this section. In determining whether or not to grant discretionary review, the Administrator will consider:

(1) Whether the Initial Decision contains significant factual or legal errors that warrant further review by the Administrator; and

(2) Whether fairness or other policy considerations warrant further consideration by the Administrator. Types of cases that fall within these criteria include, but are not limited to, those in which:

(i) The Initial Decision conflicts with one or more other NOAA administrative decisions or federal court decisions on an important issue of federal law;

(ii) The Judge decided an important federal question in a way that conflicts with prior rulings of the Administrator;

(iii) The Judge decided a question of federal law that is so important that the Administrator should pass upon it even absent a conflict; or

(iv) The Judge so far departed from the accepted and usual course of administrative proceedings as to call for an exercise of the Administrator's supervisory power.

(d) A Petition for Review must comply with the following requirements regarding format and content:

(1) The petition must include a concise statement of the case, that contains a statement of facts relevant to the issues submitted for review, and a summary of the argument that contains a succinct, clear and accurate statement of the arguments made in the body of the petition;

(2) The petition must set forth, in detail, specific objections to the Initial Decision, the bases for review, and the relief requested;

(3) Each issue raised in the petition must be separately numbered, concisely stated, and supported by detailed citations to specific pages in the record, and to statutes, regulations, and principal authorities. Petitions may not refer to or incorporate by reference entire documents or transcripts;

(4) A copy of the Judge's Initial Decision must be attached to the petition;

(5) Copies of all cited portions of the record must be attached to the petition;

(6) A petition, exclusive of attachments and authorities, must not exceed 20 pages in length and must be in the form articulated in § 904.206(b); and

(7) Issues of fact or law not argued before the Judge may not be raised in the petition unless such issues were raised for the first time in the Judge's Initial Decision, or could not reasonably have been foreseen and raised by the parties during the hearing. The Administrator will not consider new or additional evidence that is not a part of the record before the Judge.

(e) The Administrator may deny a Petition for Review that is untimely or fails to comply with the format and content requirements in paragraph (d) of this section without further review.

(f) No oral argument on Petitions for Review will be allowed.

(g) Within 30 days after service of a petition for discretionary review, any party may file and serve an answer in support or in opposition. An answer must comport with the format and content requirements in paragraphs (d)(5) through (d)(7) of this section and set forth detailed responses to the specific objections, bases for review and relief requested in the petition. No further replies are allowed, unless requested by the Administrator.

(h) If the Administrator has taken no action in response to the petition within 120 days after the petition is served, said petition shall be deemed denied and the Judge's Initial Decision shall become the final agency decision with an effective date 150 days after the petition is served.

(i) If the Administrator issues an order denying discretionary review, the order

will be served on all parties in conformance with § 904.3, and will specify the date upon which the Judge's Initial Decision will become effective as the final agency decision. The Administrator need not give reasons for denying review.

(j) If the Administrator grants discretionary review or elects to review the Initial Decision without petition, the Administrator will issue an order to that effect. Such order may identify issues to be briefed and a briefing schedule. Such issues may include one or more of the issues raised in the Petition for Review and any other matters the Administrator wishes to review. Only those issues identified in the order may be argued in any briefs permitted under the order. The Administrator may choose to not order any additional briefing, and may instead make a final determination based on any Petitions for Review, any responses and the existing record.

(k) If the Administrator grants or elects to take discretionary review, and after expiration of the period for filing any additional briefs under paragraph (j) of this section, the Administrator will render a written decision on the issues under review. The Administrator will serve the decision on each of the parties in conformance with § 904.3. The Administrator's decision becomes the final administrative decision on the date it is served, unless otherwise provided in the decision, and is a final agency action for purposes of judicial review; except that an Administrator's decision to remand the Initial Decision to the Judge is not final agency action.

(l) An Initial Decision shall not be subject to judicial review unless:

(1) The party seeking judicial review has exhausted its opportunity for administrative review by filing a Petition for Review with the Administrator in compliance with this section, and

(2) The Administrator has issued a final ruling on the petition that constitutes final agency action under paragraph (k) of this section or the Judge's Initial Decision has become the final agency decision under paragraph (h) or (i) of this section.

(m) For purposes of any subsequent judicial review of the agency decision, any issues that are not identified in any Petition for Review, in any answer in support or opposition, by the Administrator, or in any modifications to the Initial Decision are waived.

(n) If an action is filed for judicial review of a final agency decision, and the decision is vacated or remanded by a court, the Administrator shall issue an order addressing further administrative proceedings in the matter. Such order

may include a remand to the Chief Administrative Law Judge for further proceedings consistent with the judicial decision, or further briefing before the Administrator on any issues the Administrator deems appropriate.

■ 32. Revise § 904.300 to read as follows:

§ 904.300 Scope and applicability.

(a) This subpart sets forth procedures governing the suspension, revocation, modification, and denial of permits. The bases for sanctioning a permit are set forth in § 904.301.

(1) *Revocation.* A permit may be cancelled, with or without prejudice to issuance of the permit in the future. Additional requirements for issuance of any future permit may be imposed.

(2) *Suspension.* A permit may be suspended either for a specified period of time or until stated requirements are met, or both. If contingent on stated requirements being met, the suspension is with prejudice to issuance of any permit until the requirements are met.

(3) *Modification.* A permit may be modified, as by imposing additional conditions and restrictions. If the permit was issued for a foreign fishing vessel under section 204(b) of the Magnuson-Stevens Fishery Conservation and Management Act, additional conditions and restrictions may be imposed on the application of the foreign nation involved and on any permits issued under such application.

(4) *Denial.* Issuance of a permit in the future may be denied through imposition of a permit denial.

33 CFR Part 100

[Docket Number USCG–2022–0135]

RIN 1625–AA08

Special Local Regulation: Luminsea Offshore Powerboat Race; Atlantic Ocean, Miami Beach, FL

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is proposing to establish a special local regulation (SLR) on certain navigable waters of the Atlantic Ocean, offshore of Miami Beach, FL, in connection with the Luminsea Offshore Powerboat Race. The race will include approximately 55 offshore powerboats, ranging from 30 to 50 feet in length. The SLR is needed to protect personnel, vessels, and the marine environment from potential hazards associated with the high-speed powerboat race. The special local regulation establishes a race area where all persons and vessels, except those persons and vessels who are participating in the race, will be prohibited from entering, transiting through, anchoring in, or remaining within unless authorized by the Captain of the Port (COTP) Miami or a designated representative. We invite your comments on this proposed rulemaking.

DATES: Comments and related material must be received by the Coast Guard on or before April 8, 2022.

ADDRESSES: You may submit comments identified by docket number USCG–2022–0135 using the Federal Decision Making Portal at <https://www.regulations.gov>. See the “Public Participation and Request for Comments” portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: If you have questions on this proposed rule, call or email Omar Beceiro, Sector Miami Waterways Management Division, U.S. Coast Guard at 305–535–4317 or *Omar.Beceiro@uscg.mil*.

II. Background, Purpose, and Legal Basis

On February 15, 2022, Cigarette Racing Team, LLC. notified the Coast Guard they would be sponsoring an offshore powerboat race on May 6, 2022 from 8 a.m. to 6 p.m. and May 7, 2022 from 8 a.m. to 6 p.m. The race would take place in the Atlantic Ocean, offshore of Miami Beach, FL and involve approximately 55 powerboats ranging from 30 to 50 feet in length. Approximately 500 spectator crafts are anticipated to attend the event.

The COTP Miami has determined potential hazards associated with the high-speed boat race would be a safety concern for participants, participant vessels, and general public.

The purpose of this rulemaking is to protect event participants, spectators, and vessels on certain navigable waters of the Atlantic Ocean, offshore of Miami Beach, FL before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034.

The Coast Guard is issuing this notice of proposed rulemaking (NPRM) with a 15-day prior notice and opportunity to comment pursuant to section (b)(3) of the Administrative Procedure Act (APA) (5 U.S.C. 553). This provision authorizes an agency to publish a rule in less than 30 days before its effective date for “good cause found and published with the rule.” Under 5 U.S.C. 553(b)(3)(B), the Coast Guard finds that good cause exists for publishing this NPRM with a 15-day comment period because the Coast Guard was given short notice from the event sponsor, and this not a recurring event that would be listed in the existing annual marine event table as outlined in 33 CFR 100.702, Table 1. Therefore, it is impracticable to provide a 30-day comment period because we must establish this safety zone by May 6, 2022. A 15-day comment period would allow the Coast Guard to provide for public notice and comment, but also update the proposed regulation soon enough that the length of the notice and comment period does not compromise safety.

III. Discussion of Proposed Rule

The COTP proposes to establish an SLR from 8 a.m. until 6 p.m., on May 6, 2022 and May 7, 2022. The safety zone would cover certain navigable waters of the Atlantic Ocean beginning approximately 0.5 miles north of Government Cut and continuing north approximately 3.5 miles. The SLR extends approximately 2.5 miles offshore.

The duration of the zone is intended to protect personnel, vessels, and the
