## SECURITIES AND EXCHANGE COMMISSION

[SEC File No. 270-789, OMB Control No. 3235-0731]

### Submission for OMB Review; Comment Request; Extension for Generic ICR: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

*Upon Written Request Copies Available From:* U.S. Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of

Management and Budget for extension and approval.

The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the SEC and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

Below is the projected average annual estimates each year for the next three years:

respondents, including through the use of automated collection techniques or other forms of information technology. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

#### Abstract of Proposed Collection

The Electronic Application for Immigrant Visa and Alien Registration (DS-260) is used to collect biographical information from individuals seeking an immigrant visa. This information collection is the Department's main immigrant visa application form and is used by most immigrant visa applicants.

The paper-based Application for Immigrant Visa and Alien Registration (DS-230) is primarily used to collect biographical information from individuals seeking for Cuban Family Reunification Parole. While this discretionary parole authority is exercised by the Department of Homeland Security, an applicant must demonstrate that he or she is eligible for an immigrant visa.

In rare circumstances, an applicant for an immigrant visa may complete the DS-230 in lieu of the online version of the application, the DS-260. Consular officers use the information collected by both versions of the form to elicit information necessary to determine an applicant's immigrant visa eligibility. Applicants must request permission to use the DS-230 from the consular

section at which they intend to apply for their immigrant visa.

#### Methodology

The DS-260 is submitted electronically over an encrypted connection to the Department via the internet. The applicant will be instructed to print a confirmation page containing a bar coded record locator, which will be scanned at the time of processing.

Applicants using the DS-230 will complete the form and submit it directly to a consular post. A consular officer will review the submitted application to determine whether the applicant is eligible for an immigrant visa. To submit the DS-230 in lieu of a DS-260 the applicant must first receive permission from the consular officer.
