

determine which applications are eligible to be read based on whether they have met the eligibility and application requirements.

The Secretary of Education (Secretary) will also consider compliance with assurances, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance (such as, for ED programs, 34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

2. *Review of Requests for Flexibility, Including Blending of Funds and Other Waivers:* Representatives of the Agencies that administer programs under which flexibility in Federal requirements is sought will evaluate whether the flexibility, including blending of funds and other waivers, requested by applicants meets the statutory requirements for P3 and is otherwise appropriate. For example, if an applicant is seeking flexibility under programs administered by HHS and DOL, its requests for flexibility will be reviewed by HHS and DOL officials. Applicants may be asked to participate in telephone calls at this point in the process in order to clarify requests for flexibility and other aspects of their proposals.

3. *Selecting Finalists:* Agency officials may recommend projects for selection by the Secretary. In consultation with the other Agencies, the Secretary will select up to 10 finalists after considering the recommendations of the Agencies that administer the programs for which the applicants are seeking flexibility, and other information, including an applicant's performance and use of funds and compliance history under a previous award under any agency program. In selecting pilots, the Secretary will first give priority to applicants that will serve communities that have experienced civil unrest, to address the statutory requirement that designated pilots include communities that have experienced civil unrest, and will then select those applications that will serve the highest numbers of disconnected youth.

For each finalist, ED and any other Agencies implicated in the pilot will negotiate the performance agreement. If a performance agreement cannot be finalized for an applicant, an alternative applicant may be selected as a finalist instead. The recommended projects will be considered finalists until performance agreements are signed by all parties, and pilot designation will be awarded only after finalization and approval of each finalist's performance agreement.

VI. Designation Administration Information

1. *Designation Notices:* If your application is successful, we notify your U.S. Representative(s) and U.S. Senators and send you a letter notification of your selection as a pilot. We may notify you informally, also.

If your application is not evaluated or not selected as a pilot, we will notify you.

2. *Performance Measures:* The performance agreement for each pilot will include outcome measures, interim indicators, and targets.

[Docket Nos. CP17-20-000, CP17-21-000, CP18-7-000]

Port Arthur LNG, LLC, Port Arthur Pipeline, LLC; Notice of Request for Extension of Time

Take notice that on July 28, 2022, Port Arthur LNG, LLC (PALNG) and Port Arthur Pipeline, LLC (PAPL), (together Port Arthur or the Applicants), requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time until June 18, 2028, to complete construction and make the Liquefaction Project, the Louisiana Connector Project, and the Texas Connector Project available for service, as authorized in the April 18, 2019 Order Granting Authorizations Under Sections 3 and 7 of the Natural Gas Act (Authorization Order)¹ and as amended in the October 15, 2020 (Order Amending Certificate)²

The Applicants state that since the Authorization Order was issued in 2019, Port Arthur has worked diligently to develop the Liquefaction Project, Texas Connector Project, and Louisiana Connector Project. PALNG has obtained all federal, state, and local authorizations necessary for construction of the Liquefaction Project facilities, and has taken concrete steps toward construction of the Liquefaction Project. The applicants assert that PAPL is fully subscribed and entered into 20-year precedent agreements with PALNG for 100 percent of the capacity on both the Louisiana Connector and Texas Connector Projects.

Mostly due to the unforeseeable impacts of the COVID-19 pandemic, the Applicants have encountered unanticipated circumstances that have prevented them from meeting the construction and in-service deadlines established in the Authorization Order. Port Arthur requests to extend the deadline to construct and place the project facilities in service and affirms

¹ *Port Arthur LNG, LLC*, et. al. 167 FERC ¶ 61,052 (2019) (Authorization Order). The Authorization Order describes the various locations in Texas and Louisiana where the approved facilities are to be located.

² *Port Arthur Pipeline, LLC*, 173 FERC ¶ 61,073 (2020). The Order Amending Certificate amended the certificate for the Louisiana Connector Project in 2020 to allow PAPL to add three new interconnections and relocate the site of the approved compressor station and interconnection. Ordering Para. (H) provides that "[PAPL] shall complete construction of the proposed facilities and make them available for service within the timeframe conditioned in the [Authorization Order]."

that no significant changes in circumstances exist that threaten the commercial viability of the projects.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on FLNG’s request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,³ the Commission will aim to issue an order acting on the request within 45 days.⁴ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁵ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission’s environmental analysis for the certificate complied with the National Environmental Policy Act.⁶ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁷ The OEP (spell out) Director, or his or her designee, will act on all of those extension requests that are uncontested.

[Docket No. RM98–1–000]

Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the

Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at <http://www.ferc.gov> using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document.
