

stock assessment information from the U.S./Canada Transboundary Resource Assessment Committee and information provided by the Council's Groundfish Plan Development Team and recommend the overfishing level (OFL) and acceptable biological catch (ABC) for Georges Bank yellowtail flounder for the fishing years 2022 and 2023. They will also review stock assessment information from the 2021 Groundfish Management Track Assessment and information provided by the Council's Groundfish Plan Development Team and recommend the overfishing limits and acceptable biological catch (ABC) for Georges Bank (GB) cod for fishing years 2022 and 2023.

Also on the agenda is the review of information provided by the Council's Groundfish Plan Development Team and the results of recent Southern New England/Mid-Atlantic (SNE/MA) winter flounder management track stock assessment. Using the Council's acceptable biological catch (ABC) control rules, recommend the overfishing levels (OFL) and the ABCs for SNE/MA winter flounder for fishing years 2023, 2024 and 2025. They will consider other business as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 2, 2022.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Highly Migratory Species Advisory Subpanel (HMSAS) will hold a meeting, which is open to the public.

DATES: The online meeting will be held Wednesday, August 31, 2022, from 1 p.m. to 4:30 p.m. Pacific Time, or until business is completed.

ADDRESSES: This meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Kit Dahl, Staff Officer, Pacific Council; telephone: (503) 820-2422.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is for the HMSAS to familiarize its members with relevant topics to be taken up at the September 2022 Pacific Council meeting and begin considering the contents of reports the HMSAS may wish to submit to the Pacific Council. An agenda for the HMSAS meeting will be posted on the Pacific Council's website one week prior to the meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 2, 2022.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Marine Mammals; File No. 24359

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the NMFS Office of Protected Resources, Marine Mammal Health and Stranding Response Program (MMHSRP; Responsible Party: Sarah Wilkin), 1315 East West Highway, Silver Spring, MD 20910, has applied in due form for a permit to conduct research and enhancement on marine mammals.

DATES: Written, telefaxed, or email comments must be received on or before September 7, 2022.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 24359 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 24359 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Shasta McClenahan, Ph.D., or Amy Sloan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The MMHSRP requests a 5 year permit for activities including: (1) emergency response involving but not limited to rescue, rehabilitation, release, and entanglement response of threatened and endangered marine mammals under NMFS jurisdiction; (2) conducting health-related, bona fide scientific research and biomonitoring studies on marine mammals and marine mammal parts under NMFS jurisdiction; (3) unintentionally harassing non-target marine mammal species under NMFS jurisdiction during MMHSRP activities; and (4) collecting, salvaging, receiving, possessing, transferring, importing, exporting, analyzing, and curating marine mammal parts under NMFS jurisdiction.

Procedures proposed to carry out the activities include, but are not limited to: close approach via ground, vessel, and aerial surveys (manned and unmanned); hazing and attractants; capture, restraint, and handling; administration of drugs including anesthesia, medical treatments, and vaccinations; attachment of scientific instruments; marking (temporary and permanent including freeze- and hot-branding); disentanglement and de-hooking; rehabilitation, transport, and release; biological sampling and analyses; auditory evoked potential; active acoustic playbacks and echosounders for prey mapping; import and export; and unintentional harassment. Unintentional mortality, including euthanasia for humane purposes, may occur during emergency response and research activities including, but not limited to, accidental drowning during captures, trampling due to flushing, and vessel strike. See the application for take numbers requested by species, life stage, and procedure.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), NMFS is preparing a final Programmatic Environmental Impact Statement (PEIS) to examine whether significant environmental impacts could result from issuance of the proposed scientific research permit.

A draft of the PEIS was available for public review and comment in 2021 (86 FR 26514; May 14, 2021 and extended 86 FR 33705; June 25, 2021). The draft PEIS and information about the PEIS is available on the following website: <https://www.fisheries.noaa.gov/resource/document/programmatic-environmental-impact-statement-mmhsrp>.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: August 3, 2022.

Julia M. Harrison,
Chief, Permits and Conservation Division,
Office of Protected Resources, National
Marine Fisheries Service.

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 74 Post-Data Workshop Discard Mortality Webinar for Gulf of Mexico red snapper.

SUMMARY: The SEDAR 74 assessment of Gulf of Mexico red snapper will consist of a Data workshop, a series of assessment webinars, and a Review workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 74 Post-Data Workshop Discard Mortality Webinar will be held on August 29, 2022, from 10 a.m. until 1 p.m., Eastern.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571–4366; email: Julie.neer@safjmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Post-Data Workshop Discard Mortality Webinar are as follows: Participants will review discard mortality information for use in the assessment of Gulf of Mexico red snapper.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been
