Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (the “Commission”) has accepted, subject to final approval, an agreement containing a consent order from Weber-Stephen Products LLC (“Respondent” or “Weber”). The proposed consent order (“Proposed Order”) has been placed on the public record for 30 days for receipt of comments by interested persons. Comments received during this period will become part of the public record.

After 30 days, the Commission will again review the agreement, along with any comments received, and will decide whether it should withdraw from the agreement and take appropriate action or make final the Proposed Order.

This matter involves the warranty Weber offers to purchasers of its gas and electric grills. According to the Commission’s complaint, the warranty is conditioned on purchasers using authorized Weber parts and accessories; otherwise, the warranty is void. Based on the foregoing, the Commission alleges that Respondent violated the Magnuson-Moss Warranty Act and regulations promulgated thereunder and engaged in deceptive acts or practices in violation of Section 5(a) of the FTC Act.

The Proposed Order contains injunctive provisions addressing the alleged deceptive conduct. Section I prohibits Respondent from expressly or implicitly conditioning a warranty on a consumer’s use of any article or service which is identified by brand, trade, or corporate name, unless the article or service is offered for free or the Commission has issued a waiver to the company, or from otherwise violating the Warranty Act or the Rules promulgated thereunder. Section II prohibits Respondent from representing to consumers, expressly or by implication, (a) that its warranties will be void if they use third-party parts or services or if they modify or alter the product without authorization, or (b) as a condition of warranty coverage, or within the written warranty, that consumers must use only genuine or authorized parts. Under Section II, Respondent may expressly exclude liability for defects or damage caused by unauthorized or third-party parts or service, or expressly exclude liability for unauthorized conversions of a gas grill to use a different fuel type (e.g., liquid propane to natural gas, or vice versa). Section II also requires Respondent to include language in the warranty that both affirmatively notifies consumers of their rights to use third-party parts under the Magnuson-Moss Warranty Act and enjoins Respondent from misrepresenting any material facts to consumers about the warranty.

Section III requires Respondent to inform its customers that its warranty has been updated, and that the updated warranty is not conditioned on the use of authorized parts. Respondent must clearly and conspicuously post and keep on its website, and on its smartphone/tablet app, the notice and its updated warranty terms, and it must submit reports regarding its notification program.

Sections IV through VII of the Proposed Order are reporting and compliance provisions, which include recordkeeping requirements and provisions requiring Respondent to provide information or documents necessary for the Commission to monitor compliance with the Proposed Order. Section VIII states that the Proposed Order will remain in effect for 20 years, with certain exceptions.

The purpose of this analysis is to aid public comment on the Proposed Order. It is not intended to constitute an official interpretation of the complaint or Proposed Order, or to modify in any way the Proposed Order's terms.

By direction of the Commission.

Joel Christie,

Acting Secretary.
