SUPPLEMENTARY INFORMATION: PHMSA received a special permit request from NGPL, a subsidiary of Kinder Morgan, Inc., on May 9, 2022, seeking a waiver from the requirements of 49 CFR 192.611(a) and (d): Change in class location: Confirmation or revision of maximum allowable operating pressure, and 49 CFR 192.619(a): Maximum allowable operating pressure: Steel or plastic pipelines.

This special permit is being requested in lieu of pipe replacement, pressure reduction, or new pressure tests for 14 gas transmission pipeline segments totaling 44,905.02 feet (approximately 8.505 miles) of 30-inch diameter pipe on the Louisiana Line #2 Pipeline (Pipeline) located in Montgomery and Liberty Counties, Texas.

The proposed special permit will allow NGPL to operate the Pipeline with original Class 1 pipe in Class 3 locations and to uprate the Pipeline from a current 936 pounds per square inch gauge (psig) maximum allowable operating pressure (MAOP) to a 1,100 psig MAOP. The MAOP uprate is being requested for additional gas flow capacity through the Pipeline. Prior to a 2007 MAOP reduction due to Class 1 to Class 3 location changes, the Pipeline operated at 1,100 psig. The Pipeline was constructed between 1974 and 1978.

The special permit request, proposed special permit with conditions, and draft environmental assessment (DEA) for the above listed NGPL pipeline segments are available for review and public comments in Docket No. PHMSA-2022-0075. PHMSA invites interested persons to review and submit comments on the special permit request and DEA in the docket. Please include any comments on potential safety and environmental impacts that may result if the special permit is granted. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comments closing date. Comments received after the closing date will be evaluated, if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, DC, on August 5, 2022, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.
