Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Notice of Amended Final Results of Countervailing Duty Administrative Review; 2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) is amending the final results of the administrative review of the countervailing duty (CVD) order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (China), covering the period of review (POR) January 1, 2019, through December 31, 2019, to correct ministerial errors.

DATES: Applicable August 15, 2022.

FOR FURTHER INFORMATION CONTACT:

Robert Copyak, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3642.

SUPPLEMENTARY INFORMATION:

Background

Commerce issued the *Final Results* of this review on June 29, 2022.¹ On July 6, 2022, we received ministerial error comments from the American Alliance for Solar Manufacturing (the Alliance),² a domestic interested party, and JA Solar Technology Yangzhou Co., Ltd. (JA Solar), one of the two mandatory

respondents in this administrative review.³ On July 11, 2022, we received rebuttal comments from JA Solar.⁴ We are amending the *Final Results* to correct three ministerial errors raised by the Alliance and JA Solar.

Legal Framework

A ministerial error, as defined in section 751(h) of the Tariff Act of 1930, as amended (the Act), includes “errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the administering authority considers ministerial.”⁵ With respect to final results of administrative reviews, 19 CFR 351.224(e) provides that Commerce “will analyze any comments received and if appropriate, correct any ministerial error by amending . . . the final results of review”

Ministerial Errors

Commerce determines that, in accordance with section 751(h) of the Act and 19 CFR 351.224(f), it made the following ministerial errors in the *Final Results*: (1) used an incorrect formula to calculate the benefit from Risen’s use of the Provision of Solar Glass for Less Than Adequate Remuneration program; (2) used an incorrect allocated benefit amount to calculate the program rate for Risen’s use of the Special Reward Fund program; and (3) did not revise the calculations of the sales denominators for certain JA Solar companies to exclude inter-company sales to cross-owned producers. Pursuant to 19 CFR 351.224(e), Commerce is amending the *Final Results* to reflect the corrections of these ministerial errors in the calculation of the countervailable subsidy rates, which change from 18.58 percent *ad valorem* to 18.55 percent *ad valorem* for JA Solar,⁶ and from 12.92 percent *ad valorem* to 13.18 percent *ad valorem* for Risen.⁷ For a detailed discussion of Commerce’s analysis, see the Ministerial Error Allegations Memorandum.⁸ As a result of these

changes, the rate for the 12 companies not selected for individual examination in this review, which is the simple average of JA Solar and Risen’s amended final *ad valorem* rates, changes from 15.75 percent *ad valorem* to 15.87 percent *ad valorem*.⁹

Amended Final Results of Review

As a result of correcting the ministerial errors described above, Commerce determines the following net countervailable subsidy rates for the POR, January 1, 2019, through December 31, 2019:

Producer/exporter	Subsidy rate (percent <i>ad valorem</i>)
JA Solar Technology Yangzhou Co., Ltd. (JA Solar) ¹⁰	18.55
Risen Energy Co., Ltd. ¹¹	13.18
Non-Selected Companies ¹²	15.87

Disclosure

We intend to disclose the calculations performed for these amended final results in accordance with 19 CFR 351.224(b).

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b)(1), Commerce shall determine and U.S. Customs and Border Protections (CBP) shall assess, CVDs on all appropriate entries of subject merchandise in accordance with the amended final results of this review.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of these amended final results of this review in the **Federal Register**. However, JA Solar and Risen each have filed a summons at the U.S. Court of International Trade challenging the original *Final Results*. Therefore, our assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication of this notice).

Cash Deposit Requirements

In accordance with section 751(a)(2)(C) of the Act, Commerce also intends to instruct CBP to collect cash deposits of estimated countervailing duties in the amounts shown for the companies subject to this review. For all non-reviewed companies, we will instruct CBP to continue to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposits, effective upon publication of these amended final results, shall remain in effect until further notice.

Administrative Protective Order

This notice serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application submitted by the Gulf of Maine Research Institute contains all of the required information and warrants further consideration. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed Exempted Fishing Permits.

DATES: Comments must be received on or before August 30, 2022.

ADDRESSES: You may submit written comments by the following method:

Include in the subject line “GMRI Third-Party DSM Pilot EFP.”

FOR FURTHER INFORMATION CONTACT:

Claire Fitz-Gerald, Fishery Policy Analyst, *claire.fitz-gerald@noaa.gov*, (978) 281-9255.

SUPPLEMENTARY INFORMATION: The Gulf of Maine Research Institute (GMRI) submitted a complete application for an Exempted Fishing Permit (EFP) to pilot a third-party dockside monitoring (DSM) program in support of maximized retention electronic monitoring (MREM) for the Northeast multispecies fishery. The groundfish sector MREM program currently operates under an EFP and NMFS administers an accompanying DSM program to collect catch information. MREM will be implemented in regulation as part of Amendment 23 to the Northeast Multispecies Fishery Management Plan during fishing year 2022. Measures implementing Amendment 23 were published in a proposed rule on February 28, 2022 (87 FR 11014). Amendment 23 was approved on behalf of the Secretary of Commerce on April 12, 2022; it will be implemented through a final rule in 2022, although the timing is uncertain. Amendment 23 aims to improve the reliability and accountability of catch reporting in the commercial groundfish fishery.

NMFS will continue to administer the DSM program while we finalize the DSM program standards and requirements, after which we will transition the program in an industry-funded model and sectors will contract directly with third-party providers for DSM services. GMRI intends to support this transition by administering a DSM pilot program with contracted third-party providers to achieve two main objectives: To provide increased DSM capacity; and explore innovative alternatives to the existing DSM program. If approved, this EFP would exempt participants from the MREM DSM regulation included in the Amendment 23 proposed rule at 50 CFR 648.11(l)(10)(i)(D). The EFP would exempt vessels in the MREM program from the requirement to participate in either an independent third-party DSM program approved by NMFS or the DSM program operated by NMFS. We intend to align issuance of this EFP, if approved, with the implementation of Amendment 23. Given this, we are notifying the public of our intent to issue the EFP and soliciting comments now even though we have yet to publish the final rule with implementing regulations for Amendment 23.

Under the EFP, GMRI and its contracted third-party providers would

provide additional DSM capacity for fishing year 2022 by overseeing some offloads for MREM vessels. GMRI and its contracted third-party providers would coordinate with the Northeast Fisheries Science Center (NEFSC) to deploy DSM services as needed, and would collect data required under the MREM program. In particular, the DSM program is responsible for: Verifying that the fish hold is empty after offload; independently recording dealer-reported weights; and collecting biosamples with an emphasis on sub-legal groundfish. GMRI and its contracted third-party providers would give the information collected to NEFSC for data entry and quality assurance and control.

The DSM pilot program would also explore innovative alternatives to existing protocols to collect catch information, and provide support to sectors, fishermen, and dealers. For example, innovations may include, but are not limited to, alternative program designs (e.g., subsampling) and technological solutions to data collection. GMRI would work with NMFS to identify innovations suitable for exploration and testing. The ultimate objective of the EFP would be to develop cost-effective and efficient DSM protocols to meet program standards and requirements that work across a variety of fishing and offload strategies.

The third-party DSM EFP would start when Amendment 23 is implemented and would operate through the remainder of fishing year 2022 (i.e., until April 30, 2023). NMFS expects approximately 12 vessels to enroll in MREM during fishing year 2022. Participating vessels would land at the following ports, although this list may change if new vessels join the program: Portland ME, Gloucester MA, Boston MA, and New Bedford MA. Cumulatively, MREM vessels are expected to take 250–300 trips. GMRI would work closely with NMFS to deploy DSM staff to vessels and ensure full DSM coverage in accordance with program requirements. All other regulations and conditions would still apply, including adherence to vessels' approved sector operations plans, EM plans, and vessel monitoring plans.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year as well as modifications resulting from changes to the regulations for the DSM program included in the Amendment 23 final rule. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research
