

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-34-2022]

**Foreign-Trade Zone (FTZ) 75—
Phoenix, Arizona; Notification of
Proposed Production Activity; Lucid
Motors USA, Inc. (Electric Automobiles
and Subassemblies); Casa Grande and
Tempe, Arizona**

Lucid Motors USA, Inc., submitted a notification of proposed production activity to the FTZ Board (the Board) for its facilities in Casa Grande and Tempe, Arizona within Subzone 75N. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on July 29, 2022.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz. The proposed material(s)/ component(s) would be added to the production authority that the Board previously approved for the operation, as reflected on the Board's website.

The proposed foreign-status materials and components include vehicle roof, backlite, window, and mirror glass (duty rate of 2.5%). The request indicates that the materials/components are subject to duties under section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is September 26, 2022.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Juanita Chen at juanita.chen@trade.gov.

Dated: August 10, 2022.

Andrew McGilvray,
Executive Secretary.

DEPARTMENT OF COMMERCE

International Trade Administration

[Docket No.: ITA-2022-0007]

RIN 0625-XC048

**Request for Comments on Artificial
Intelligence Export Competitiveness**

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Commerce (DOC) has made it a top priority to drive U.S. innovation and global competitiveness in critical and emerging technologies such as artificial intelligence (AI). Recognizing the growing importance of AI and the impact it can have for transforming our economy, industries, and society, the International Trade Administration (ITA) is requesting public comments to gain insight on the current global AI market and stakeholder concerns regarding international AI policies, regulations, and other measures which may impact U.S. exports of AI technologies. This stakeholder input will provide the DOC with a stronger understanding of the AI landscape as AI impacts existing economic sectors and industries, creates new areas for innovations, and makes its way into global trade discussions.

DATES: Comments must be submitted in writing by October 17, 2022.

ADDRESSES: You may submit comments by either of the following methods:

Electronic Submission (Strongly Preferred): Submit all electronic comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter ITA-2022-0007 in the Search box. Click on the "Comment" icon, complete the required fields, and enter or attach your comments.

Email: artificialintelligence@trade.gov. Comments submitted by email should be machine-readable and should not be copy-protected. However, if you are unable to comment via www.regulations.gov or email, you may contact artificialintelligence@trade.gov for instructions on submitting your comments.

Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by ITA. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change.

Commenters should include the name of the person or organization filing the comment. All personal identifying information (for example, name, address) voluntarily submitted by the commenter may be publicly accessible. ITA will not accept anonymous comments.

For those seeking to submit confidential business information (CBI) for Government use only, please clearly mark such submissions as CBI and submit an accompanying redacted version to be made public. CBI comments can be submitted either through www.regulations.gov (strongly preferred) or by email.

FOR FURTHER INFORMATION CONTACT: Cameron Small, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Room 28018, Washington, DC 20230; telephone (202) 495-8356; email artificialintelligence@trade.gov. Please direct media inquiries to ITA's Office of Public Affairs (202) 482-3809 or publicaffairs@trade.gov.

SUPPLEMENTARY INFORMATION: The Commerce Department is focused on solidifying U.S. leadership in emerging technologies, including AI, to drive U.S. innovation and global competitiveness. The United States seeks to promote the development of innovative and trustworthy AI systems that respect human rights, democratic values, and are designed to enhance privacy protections. The Department of Commerce International Trade Administration (ITA) seeks to promote these ideals through stakeholder engagement and with the goal of supporting U.S. economic interests. In support of its mission to create prosperity by strengthening the international competitiveness of U.S. industry, promoting trade and investment, and ensuring fair trade and compliance with trade laws and agreements, the ITA requests information from stakeholders on the global market landscape for AI. This information will be used to inform ITA efforts to promote an international environment that supports U.S. AI research and innovation, opens markets for U.S. AI technologies, and enhance the U.S. technological advantage in AI.

ITA is broadly defining AI as both the goods and services that enable AI systems, such as data, algorithms and computing power, as well as AI-driven products across all industry verticals, such as autonomous vehicles, robotics and automation technology, medical devices and healthcare, security technology, and professional and business services, among others.
