

manage the system, the environmental sectors the working group recommends be developed into natural capital accounts, a proposed timeline for developing individual accounts (e.g., an air account, a land account), and additional research and guidance needs. This section also identifies the data and expertise within the U.S. Government needed to produce sustained natural capital accounts and environmental-economic statistics.

(5) *Administrative Coordination Across the Government* details how interagency coordination for developing the initiative would be carried out by the Chief Statistician of the United States and processes to facilitate data sharing to ensure interoperability across the Federal Government. This section also summarizes the legal authority for developing natural capital accounts and standardized environmental-economic statistics.

This request for information aims to support the Working Group's continued effort to develop and implement a strategy for developing statistics for environmental-economic decisions. OMB is interested in hearing from a diversity of stakeholders, sectors, and members of the public.

#### Information Requested

OMB is issuing this notice in order to facilitate robust interaction with the public on this new U.S. Government endeavor. Input is welcome from stakeholders and members of the public representing all backgrounds and perspectives. Through this RFI, OMB seeks information and feedback on the Strategic Plan for Statistics for Environmental-Economic Decisions in order to realize natural capital accounts and associated environmental-economic statistics, including on the following topics:

- Likely and potential applications for U.S. natural capital accounts and associated environmental-economic statistics that would improve government or private-sector decision making that are not described in the draft Strategic Plan;
- Comments related to established and widely recognized systems of environmental-economic statistics or natural capital accounts that could strengthen the U.S. system;
- External factors that may affect the Federal Government's ability to implement the Strategic Plan; and
- Ancillary or indirect consequences of developing natural capital accounts

or associated environmental-economic statistics.
