*Title; Associated Form; and OMB Number:* Optimized Fleet Response Plan Phase Variation in Signature and Destructive Behaviors; OMB Control Number 0703-OFRP.

*Type of Request:* New collection.

*Number of Respondents:* 585.

*Responses per Respondent:* 1.

*Annual Responses:* 585.

*Average Burden per Response:* 30 minutes.

*Annual Burden Hours:* 292.5 hours.

*Needs and Uses:* Navy leaders in the Navy 21st Century Office (OPNAV N17) have engaged with researchers at the Naval Postgraduate School (NPS) through the NPS Naval Research Program to conduct research to investigate if signature and destructive behaviors vary across stages of the Optimized Fleet Response Plan (OFRP). The OFRP is a fleet force model that includes 5 phases: basic, advanced, integrated, sustainment, and

maintenance. Ships cycle through the phases to maintain employability and preserve maintenance, modernization, and workup. Anecdotal and observational evidence suggests variation in behaviors across the phases, and, in particular, an uptick in destructive behaviors during the maintenance phase. Congruent with research findings, the Chief of Naval Operations has directed the Navy to create a "Culture of Excellence," noting that by focusing on positive, signature behaviors, the Navy can build and sustain a lethal force of tough sailors who are ethical and masters of their trade. The Culture of Excellence Campaign's Perform to Plan effort will empower warfighting capability by fostering psychological, physical, and emotional toughness. To meet this goal, the Navy needs to understand what encourages signature behaviors and reduces destructive behaviors and how these behaviors impact readiness.

The overarching aim of this study is to support the Navy Culture of Excellence Campaign's Performance to Plan effort to encourage signature behaviors and reduce destructive behaviors. The study will answer three questions: What are the rates of signature & destructive behaviors during 3 phases of OFRP? Do rates differ by organizational command (department)? How do signature & destructive behaviors impact readiness?

*Affected Public:* Individuals or households.

#### SUPPLEMENTARY INFORMATION:

*Title:* Associated Form; and OMB Number: COVID-19 Behavioral Health Surveillance Survey; OMB Control Number 0703-BHSS.

*Type of Request:* New collection.

*Number of Respondents:* 25,000.

*Responses per Respondent:* 2.

*Annual Responses:* 50,000.

*Average Burden per Response:* 30 minutes.

*Annual Burden Hours:* 25,000.

*Needs and Uses:* Information about the impacts of the COVID-19 pandemic on service member health and readiness is urgently needed to inform the military's response to the pandemic and to ensure service member health and readiness. The proposed anonymous, web-based COVID-19 Behavioral Health Surveillance survey will provide unit-level and service-wide information about the effects of the pandemic on Sailors and Marines. Unit commanders will be provided with critical

information about specific COVID-19 related challenges service members face so that they can employ strategies to mitigate the harms associated with the pandemic. The survey asks about a range of issues related to the COVID-19 pandemic, including its effects on service members' ability to effectively perform their duties, home life and relationships, preventative health behaviors, and mental/behavioral health and readiness.

The surveillance effort will involve an initial assessment, which may be followed by a 6-month follow-up assessment using the same survey. It will be possible to use data resulting from repeated surveillance to determine changes over time in unit-level health and readiness.

*Affected Public:* Individuals or households.

*Frequency:* Survey will be fielded twice.

*Respondent's Obligation:* Voluntary.
