

under the NEPA and the NHPA are independent, the regulations implementing section 106 of the NHPA, at 36 CFR 800.8(c) allow the NEPA process and documentation to substitute for various aspects of the NHPA review. This process is intended to improve efficiency, promote transparency and accountability, and support a broadened discussion of potential effects that a project could have on the human environment. During preparation of the Draft Tiered EIS USACE will ensure that the NEPA process will fully meet all NHPA obligations.

USACE invites all affected federal, state and local agencies, affected Native American Tribes, and other interested parties, and the general public to comment on the scope of this Draft Tiered EIS and to provide input into the potential significant impacts associated with the alternatives. SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Optimized Fleet Response Plan Phase Variation in Signature and Destructive Behaviors; OMB Control Number 0703-OFRP.

Type of Request: New collection.

Number of Respondents: 585.

Responses per Respondent: 1.

Annual Responses: 585.

Average Burden per Response: 30 minutes.

Annual Burden Hours: 292.5 hours.

Needs and Uses: Navy leaders in the Navy 21st Century Office (OPNAV N17) have engaged with researchers at the Naval Postgraduate School (NPS) through the NPS Naval Research Program to conduct research to investigate if signature and destructive behaviors vary across stages of the Optimized Fleet Response Plan (OFRP). The OFRP is a fleet force model that includes 5 phases: basic, advanced, integrated, sustainment, and

maintenance. Ships cycle through the phases to maintain employability and preserve maintenance, modernization, and workup. Anecdotal and observational evidence suggests variation in behaviors across the phases, and, in particular, an uptick in destructive behaviors during the maintenance phase. Congruent with research findings, the Chief of Naval Operations has directed the Navy to create a "Culture of Excellence," noting that by focusing on positive, signature behaviors, the Navy can build and sustain a lethal force of tough sailors who are ethical and masters of their trade. The Culture of Excellence Campaign's Perform to Plan effort will empower warfighting capability by fostering psychological, physical, and emotional toughness. To meet this goal, the Navy needs to understand what encourages signature behaviors and reduces destructive behaviors and how these behaviors impact readiness.

The overarching aim of this study is to support the Navy Culture of Excellence Campaign's Performance to Plan effort to encourage signature behaviors and reduce destructive behaviors. The study will answer three questions: What are the rates of signature & destructive behaviors during 3 phases of OFRP? Do rates differ by organizational command (department)? How do signature & destructive behaviors impact readiness?

Affected Public: Individuals or households.

Frequency: One-time.

Respondent's Obligation: Voluntary.
