(4) include a description of the type of infrastructure projects that receive funding under the program, including information relating to: (A) the number of entities that are participating in the program; (B) the amount of Federal funds that are made available for the program for each fiscal year; and (C) any other information the head of the

Federal agency determines to be relevant.

Commission Infrastructure Programs: The Commission’s program areas are determined annually by the Commissioners for the Denali Commission (“Commissioners”) through the approval on an annual workplan. The current workplan (FY 2022 Workplan) is listed below. These program areas can change from year to year as determined by the

Commissioners but all of the funds for these areas could be used for an infrastructure project. Prior to the passage of the IJA the Commission’s Financial Assistance Awards were not subject to a Buy America requirement. Therefore all of the Commission’s programs were inconsistent with section 70914. All of the Commission’s programs are now compliant with the Buy America requirements.

Title of Collection: National Public Education Financial Survey (NPEFS) 2022–2024.

OMB Control Number: 1850–0067.

Type of Review: Revision of a currently approved information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 56.

Total Estimated Number of Annual Burden Hours: 7,327.

Furthermore, in addition to using the SPPE data as general information on the financing of elementary and secondary education, the U.S. Department of Education Secretary uses these data directly in calculating allocations for certain formula grant programs, including, but not limited to, title I, part A, of the ESEA, Impact Aid, and Indian Education programs. Other programs, such as the Education for Homeless Children and Youth program under title VII of the McKinney-Vento Homeless Assistance Act, and the Student Support and Academic Enrichment Grants under title IV, part A of the ESEA make use of SPPE data indirectly because their
