

care and management. This alternative will also include a mitigation and monitoring protocol to protect monument objects where target shooting is allowed. The BLM welcomes comments on all preliminary alternatives as well as suggestions for additional alternatives.

Planning Criteria

The planning criteria guide the planning effort and lay the groundwork for effects analysis by identifying the preliminary issues and their analytical frameworks. Preliminary issues for the planning area have been identified by BLM personnel and from early engagement conducted for this planning effort with Federal, State, and local agencies; Tribes; and other stakeholders. The BLM has identified three preliminary issues for this planning effort's analysis: (1) impacts on monument objects from recreational target shooting, (2) effectiveness of the mitigation and monitoring protocol in protecting monument objects, and (3) public health and safety. The planning criteria are available for public review and comment at the ePlanning website (see **ADDRESSES**).

Public Scoping Process

This notice of intent initiates the scoping period and public review of the planning criteria, which guide the development and analysis of the RMP amendment and EA.

The BLM will be holding a minimum of two virtual public meetings. The specific date(s) and location(s) of these scoping meetings will be announced at least 15 days in advance through local media, newspapers, and the project ePlanning page. You may submit comments to the BLM using one of the methods listed in the **ADDRESSES** section previously.

Dingell Act Recreational Target Shooting Closures

In accordance with the John D. Dingell, Jr. Conservation, Management, and Recreation Act of 2019 (Dingell Act, Pub. L. 116–9, Section 4103), the BLM is generally required to provide public notice and comment before a final decision is made to close an area to recreational shooting. If the BLM proposes any recreational shooting closures as part of the RMP amendment process, it will provide opportunities for public participation in accordance with 16 U.S.C. 7913.

Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plan amendment to consider the variety of

resource issues and concerns identified. Specialists with expertise in various disciplines, such as recreation management, National Conservation Lands, wildlife, vegetation, range management and soils, cultural and heritage resources, social and economic conditions and environmental justice, planning and environmental coordination, and Geographic Information Systems will be involved in this planning effort.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the proposed plan amendment and all analyzed reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the proposed plan amendment or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation; and it may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section 106. The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan amendment will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM Manual Section 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Indian Tribal nations and other stakeholders that may be interested in or affected by the proposed plan amendment that the BLM is evaluating are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency. The BLM intends to hold a series of government-to-government consultation meetings. The BLM will

send invites to potentially affected Tribal nations prior to the meetings. The BLM will provide additional opportunities for government-to-government consultation during the NEPA process.
