Transition of the Electronic Certification System (eCERT) to an Updated Version (eCERT 2.0)

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces the transition of the Electronic Certification System (eCERT) to an updated version, eCERT 2.0, which will become the sole method for participating in the eCERT process. The updated version includes three new features that will enhance the existing system by implementing additional validations that verify the authorized use of quota certificates. The use of eCERT 2.0 will allow for the decrementing of quota certificates to prevent those certificates from being overused. Participating countries will have enhanced querying capabilities to query and track actual certificate usage.

Additionally, importers will be able to query their usage of the quota certificates via the Automated Broker Interface. In order to participate in eCERT 2.0, importers must provide the participating country with the Importer of Record (IOR) number in advance of filing an entry, and, in turn, the participating country must submit the IOR number as an additional data element of information within the transmission for eCERT 2.0. The transition to eCERT 2.0 will not change the tariff-rate quota or tariff preference level filing process or requirements. Importers will continue to provide the export certificate or certificate of eligibility numbers from the participating countries in the same manner as when currently filing entry summaries with U.S. Customs and Border Protection. The format of the export certificate and certificate of eligibility numbers will remain the same for the corresponding eCERT transmissions.

DATES: The transition to eCERT 2.0 will be operational as of September 25, 2022.

SUPPLEMENTARY INFORMATION:

Background

The Electronic Certification System (eCERT) is a system developed by U.S. Customs and Border Protection (CBP) that uses electronic data transmissions of information normally associated with a required export document, such as a license or certificate, to facilitate the administration of quotas and ensure that the proper restraint levels are charged without being exceeded. Foreign countries participating in eCERT transmit information directly or via a global network service provider to CBP's automated electronic system for commercial trade processing, the Automated Commercial Environment (ACE).

Specific data elements are transmitted to CBP by the importer of record (or an authorized customs broker) when filing an entry summary with CBP, and those data elements must match eCERT data from the foreign country before an importer may claim any applicable in-quota tariff rate of duty or the preferential duty rate under a tariff preference level (TPL). An importer may claim an in-quota tariff rate or preferential duty rate when merchandise is entered, or withdrawn from warehouse, for consumption, only if the information transmitted by the importer matches the information transmitted by the foreign government. If there is no transmission by the foreign
