

telephone number: 202-564-5627;
email address: Letnes.amelia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The collection of information is necessary in order to receive applications for credit assistance pursuant to section 5024 of the Water Infrastructure Finance and Innovation Act (WIFIA) of 2014, 33 U.S.C. 3903. The purpose of the WIFIA program is to provide Federal credit assistance in the form of direct loans and loan guarantees to eligible clean water and drinking water projects.

WIFIA requires that an eligible entity submit to the Administrator an application at such time, in such manner, and containing such information, as the Secretary or the Administrator *may require* to receive assistance under WIFIA. To satisfy these requirements, EPA must collect an application from prospective borrowers

seeking funding. The Letters of Interest and Applications collected from prospective borrowers through this solicitation will be used by the EPA, WIFIA program staff, and reviewers to evaluate applications for credit assistance under the WIFIA eligibility requirements and selection criteria.

Form Numbers: EPA 6100-030, 6100-031, and 6100-032.

Respondents/affected entities: The respondents affected by this collection activity include: corporations, partnerships, joint ventures, trusts, federal, state, or local government entities, tribal governments or a consortium of tribal governments, and state infrastructure finance authorities. The Letters of Interest and Applications collected from prospective borrowers through this solicitation will be used by EPA to evaluate requests for credit assistance under the WIFIA eligibility requirements and selection criteria.

Respondent's obligation to respond: The collection is required to obtain credit assistance pursuant to section 5024 of WIFIA, 33 U.S.C. 3903.

Estimated number of respondents: 105 per year (total).

Frequency of response: one per funding round.

Total estimated burden: 10,450 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$10,000,000.00 (per year), includes no annualized capital or operation and maintenance costs.

Change in Estimates: There is a decrease of 375 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a reduction in the expected number of collections from 55 to 45.

Andrew D. Sawyers,

Director, Office of Wastewater Management.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2018-0248; FRL-10155-01-OECA]

Proposed Information Collection Request; Comment Request; Air Stationary Source Compliance and Enforcement Information Reporting (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency is planning to submit

an information collection request (ICR), the Air Stationary Source Compliance and Enforcement Information Reporting (Renewal) (EPA ICR No. 0107.13, OMB Control No. 2060-0096) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the currently approved ICR. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before October 25, 2022.

ADDRESSES: Submit your comments, referencing the Docket ID number EPA-HQ-OECA-2018-0248, online using <https://www.regulations.gov/> (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

The EPA's policy is that all relevant comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. We encourage the public to submit comments via <https://www.regulations.gov/> or email, as there may be a delay in processing mail and faxes. Hand deliveries and couriers may be received by scheduled appointment only. For further information on EPA Docket Center services and the current status, please visit us online at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Mr. David A. Meredith, Enforcement Targeting and Data Division, Office of Compliance, (2222A), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-564-4152; email address: meredith.david@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov/> or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number

for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <https://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Burden is defined at 5 CFR 1320.03(b). EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Air Stationary Source Compliance and Enforcement Information Reporting is an activity whereby State, Local, Native American, Territorial, and Commonwealth governments (hereafter referred to as either “states/locals” or “state and local agencies”) make air stationary source compliance and enforcement information available to the U.S. Environmental Protection Agency (EPA or the Agency) on a cyclic basis via input to the Air component of the Integrated Compliance Information System (ICIS-Air). ICIS-Air supports EPA and state and local agency efforts to ensure compliance with the nation’s environmental laws pertaining to air, via the collection and management of important Clean Air Act (CAA or the “Act”) compliance and enforcement information. ICIS-Air is a subcomponent of ICIS, which provides compliance and enforcement information on thousands of facilities regulated under numerous federal statutes. The majority of delegated agencies maintain their own data system and extract data from it and report it to ICIS-Air using either electronic data transfer (EDT) or manually (“direct entry”). A small number of delegated agencies use ICIS-

Air exclusively, since they have no internal air compliance and enforcement database. The information provided to EPA via ICIS-Air includes source characterization, compliance monitoring, and enforcement activities. The EPA uses this information and information from other data systems, such as the Compliance and Emissions Data Interface (CEDRI) to assess the health of the compliance and enforcement program established under the Clean Air Act (CAA), to perform oversight activities of delegated agencies, and to provide public transparency about activities and findings related to compliance and enforcement both at individual facilities or aggregated categories of facilities. The EPA also uses ICIS-Air to record comparable federal activities to support program management and transparency. Agencies receive delegation of the CAA through regulated grant authorities, and report compliance/enforcement activities undertaken at stationary sources pursuant to the Minimum Data Requirements (MDRs) as outlined in this ICR. The provisions of section 114(a)(1) of the Clean Air Act, 42 U.S.C. 7414(a)(1) provide the broad authority for the reporting of compliance monitoring and enforcement information, along with Subpart Q—Reports in 40 CFR part 51: §§ 51.324(a) and (b) and 51.327. This renewal requires the continuation of reporting of previously established MDRs via either direct, on-line entry or electronic data transfer (EDT) to ICIS-Air.

The EPA collects compliance data from regulated sources via CEDRI and tracks enforcement and compliance monitoring information for stationary sources from delegated agencies and EPA Regions via ICIS-Air. The EPA is considering a process to standardize the facility identification process so that data can easily be shared across systems. As such, the EPA seeks comments, *on a voluntary basis*, regarding the following issues and questions we consider improvements to the integration of ICIS-Air and CEDRI information.

- The EPA seeks comments on whether it would be beneficial for the EPA to import facilities from CEDRI into ICIS-Air that are currently not found in ICIS-Air and create a means to link those facilities for purposes of more comprehensive compliance tracking. Additionally, we are seeking comment on, for cases where a delegated agency uses EDT to share data with EPA, whether the delegated agency would want the ability to create facilities from CEDRI facilities and manage those data in the delegated agency’s database.

- Assuming that some delegated agencies are reviewing compliance reports within CEDRI, the EPA seeks comments on how data within the CEDRI reports could be provided to ICIS-Air to reduce the need for overlapping data entry in ICIS-Air. We are seeking comment on whether delegated agencies perceive that there are identical data in CEDRI reports and data uploads into ICIS-Air, and whether data exists in CEDRI but not in ICIS-Air that would be helpful to share with ICIS-Air. We are specifically seeking comment on which data would be most helpful to share between the systems.

- The EPA is seeking comment on the utility of future functionality that would automatically flag situations within ICIS-Air when a CEDRI compliance report is due, but not received by the deadline.

- The EPA is seeking information on whether delegated agencies that do not currently provide Title V Certifications to CEDRI plan to do so in the near future.

- The EPA seeks comments on whether we should consider requiring that violations have a linkage to a discovery action, or CEDRI ID number, so that ECHO users can understand the activity that led to the violation finding(s).

- The EPA seeks comments on whether we should consider, in the future, developing a new reporting approach for delegated agencies that provide the CEDRI document ID to limit potential duplicate data entry (for example, linking certain fields that would not have to be manually entered).

- The EPA has begun collecting benzene fenceline monitoring data from refineries on a bi-weekly basis. We seek comment on whether, when deficiencies are noted that require follow-up actions by the facility, those deficiencies should be populated into ICIS-Air and shared via ECHO.

- Through CEDRI, the EPA is receiving performance reports directly from regulated entities. Some of these reports are used by delegated agencies to make compliance determinations. The EPA seeks comments on the effectiveness of the current process of making these reports accessible through the Agency’s WebFIRE website and suggestions for improvements that could assist delegated agencies with making compliance determinations.

- Finally, we seek comments on whether having a common facility numbering protocol for ICIS-Air and CEDRI would improve the overall management of the CAA program and associated data.

Although we are soliciting comment on these issues, the EPA intends to continue the status quo with respect to the minimum data requirements reported to ICIS-Air at this time. We will consider any comments received as we evaluate potential future improvements to the integration of information collected via ICIS-Air and CEDRI. The anticipated burden requirements for the current minimum data requirements associated with ICIS-Air are as follows:

Respondents: State, Local, Territorial, Indian Nations, and Commonwealth governments.

Respondent's obligation to respond: Mandatory (section 114(a)(1) of the Clean Air Act, 42 U.S.C. 7414(a)(1)).

Estimated number of respondents: 99.

Frequency of response: Every 60 days.

Estimated annual burden: 26,100 hours.

Estimated annual cost: \$1,280,000. There are no annualized capital/startup or operation & maintenance costs.

Changes in estimates: There is no anticipated change in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to several considerations. First, the ICIS-Air reporting system and minimum data reporting requirements have not changed over the past three years. Second, there is no anticipated change in the number of respondents or the number of responses from the prior ICR, so there is likely no significant change in the overall burden. For this ICR renewal, EPA will use experience from the last three years to provide burden estimates that adequately reflect the actual burden. EPA will consider any comments received and will conduct consultation with delegated agencies that are use ICIS-Air. There are no capital/startup or operation and maintenance (O&M) costs associated with this reporting activity. There is likely a slight increase in costs, due to the use of updated labor rates. This ICR will use labor rates from the most recent Office of Personnel Management (OPM), 2022 General Schedule.

John Dombrowski,

Director, Office of Compliance.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 101751]

Privacy Act of 1974; System of Records

AGENCY: Federal Communications Commission.

ACTION: Notice of a modified system of records.

SUMMARY: The Federal Communications Commission (FCC, Commission, or Agency) proposes to modify an existing system of records, FCC-2, Business Contacts and Certifications, subject to the Privacy Act of 1974, as amended. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency. The Commission uses the information on

individuals and businesses contained in the records in this system to collect and maintain points of contact at regulated entities and in related industries, and ensure compliance with FCC rules through certifications of information provided to the Commission. This modification expands the categories of individuals and record source categories of this system of records to include other Federal, state, local, U.S. territorial, and Tribal government entities and expands the purpose and routine uses of this system of records to include additional purposes for disclosing business contact and certification information and adding state, local, U.S. territorial, and Tribal government entities to the types of entities that may receive information from this system.

DATES: This modified system of records will become effective on August 26, 2022. Written comments on the routine uses are due by September 26, 2022. The routine uses will become effective on September 26, 2022, unless written comments are received that require a contrary determination.

ADDRESSES: Send comments to Brendan McTaggart, at privacy@fcc.gov, or at Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554 at (202) 418-1738.

FOR FURTHER INFORMATION CONTACT: Brendan McTaggart, (202) 418-1738, or privacy@fcc.gov (and to obtain a copy of the Narrative Statement and the Supplementary Document, which includes details of the modifications to this system of records).

SUPPLEMENTARY INFORMATION:

SYSTEM NAME AND NUMBER:

FCC-2, Business Contacts and Certifications

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Communications Commission (FCC), 45 L Street NE, Washington, DC 20554; Universal Service Administrative Company, 700 12th Street NW, Suite 900, Washington, DC 20005; or FISMA compliant contractor.

SYSTEM MANAGER(S):

Federal Communications Commission (FCC); Universal Service Administrative Company (USAC); or FISMA compliant contractor.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

47 U.S.C. 151, 152, 154 (i)-(j) & (o), 155, 251(e)(3), 254, 257, 301, 303, 332, 402, 1302; and 5 U.S.C. 602(c) and 609(a)(3).
