On April 26, 2022, we published a **Federal Register** notice (87 FR 24584) with a 60-day public comment period soliciting comments on this collection of information. In an effort to increase public awareness of, and participation in, our public commenting processes associated with information collection requests, the Service also published the **Federal Register** notice at <https://www.regulations.gov> (Docket No. FWS–HQ–WSFR–2022–0035) to provide the public with an additional method to submit comments (in addition to the typical Info_Coll@fws.gov email and U.S. mail submission methods). We received the following comments in response to that notice:

Comment 1: Email comment from Jean Public received April 26, 2022: The commenter did not address the information collection requirements.

Agency Response to Comment 1: No response required.

Comment 2: Letter (submitted via email) from Holly Huchko, Endangered Species Act Program Specialist/Sport Fish Restoration Coordinator for the State of Oregon Department of Fish and Wildlife, received May 17, 2022:

The data provided in the National FHWAR Survey is used by the Oregon Department of Fish and Wildlife when working with their partners and public. It has also been the source of the freshwater/saltwater split calculation for their fishing management funding. Collecting information through mail and digital format properly reaches their angling and hunting constituents.

Agency Response to Comment 2: The methodology for the 2022 FHWAR survey is responsive to the needs identified in this comment. Oregon and other coastal States will continue to receive data on the number of freshwater/saltwater anglers within their respective States, free of cost. The 2022 FHWAR survey responses will also be fielded in mail, telephone, and web modes.

Comment 3: Comment submitted on June 23, 2022, via [Regulations.gov](https://www.regulations.gov) (FWS–HQ–WSFR–2022–0035–0002) from Friends of Animals:

Wildlife watchers should be a source of funding for the U.S. Fish and Wildlife Service, in addition to hunters and anglers and boaters. Quantifying wildlife watching participation and expenditures will enable the appropriate management of non-consumptive wildlife-related recreation and funding. Birdwatching questions should be asked during all three waves of data collection.

Agency Response to Comment 3: Birding has always been a subset of all wildlife watching in this Survey; we include people who bird in our total wildlife watching estimates. After the 2022 questionnaire was finalized for the screening and Wave 1 interview, we decided birding warranted its own participation estimate. With this submission, we are putting the birding participation questions back in. We won't have clearance until Wave 3 at the earliest. The Survey is not part of/involved in the funding source for the Service.

Comment 4: Comment submitted on June 26, 2022, via [Regulations.gov](https://www.regulations.gov) (FWS–HQ–WSFR–2022–0035–0003) from Anonymous:

The commenter did not address the information collection requirements.

Agency Response to Comment 4: No response required.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
