

from nations in the International Dolphin Conservation Program that would otherwise be under embargo. The Act also allows U.S. fishing vessels to participate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean (ETP) on terms equivalent with the vessels of other nations. NOAA collects information to allow tracking and verification of “dolphin-safe” and “non-dolphin safe” tuna products from catch through the U.S. market.

The information is used by NMFS, the United States Coast Guard (USGC), and the IATTC to monitor the size and composition of the vessel fleets in the IATTC Convention Area for compliance and scientific-related purposes. Knowing such information as the number of vessels, the details of the vessels and their ownership, and the types of gear employed enables effective monitoring of vessel activity for enforcement and assessment purposes. NMFS also uses this information for the purposes of management the U.S. purse seine fleet capacity in the IATTC Convention Area.

This collection includes permit applications, notifications, tuna tracking forms, reports, and certifications that provide information on vessel characteristics and operations in the ETP, the origin of tuna and tuna products, chain of custody recordkeeping requirements and certain other information necessary to implement the Act.

Defense Acquisition Regulations System

[Docket Number DARS–2022–0016; OMB Control Number 0704–0478]

Information Collection Requirements; Defense Federal Acquisition Regulation Supplement (DFARS); Cyber Incident Reporting and Cloud Computing

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice.

SUMMARY: The Defense Acquisition Regulations System has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by September 30, 2022.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Safeguarding Covered Defense Information, Cyber Incident Reporting, and Cloud Computing; OMB Control Number 0704–0478.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Type of Request: Extension of a currently approved collection.

Number of Respondents: 2,097.

Responses per Respondent: 7.99, approximately.

Annual Responses: 16,760.

Average Burden per Response: 0.46 hours.

Annual Burden Hours: 7,695.

Reporting Frequency: On occasion.

Needs and Uses: Offerors and contractors must report cyber incidents on unclassified networks or information systems, within cloud computing services, and when they affect contractors designated as providing operationally critical support, as required by statute.

a. The clause at DFARS 252.204–7012, Safeguarding Covered Defense Information and Cyber Incident Reporting, covers cyber incident reporting requirements for incidents that affect a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract.

b. DFARS provision 252.204–7008, Compliance with Safeguarding Covered Defense Information Controls, requires an offeror that proposes to vary from any of the security controls of National Institute of Standards and Technology (NIST) Special Publication (SP) 800–171 in effect at the time the solicitation is issued to submit to the contracting officer a written explanation of how the specified security control is not applicable or an alternative control or protective measure is used to achieve equivalent protection.

c. DFARS provision 252.239–7009, Representation of Use of Cloud Computing, requires contractors to report that they “anticipate” or “do not anticipate” utilizing cloud computing service in performance of the resultant contract. The representation will notify contracting officers of the applicability of the cloud computing requirements at DFARS clause 252.239–7010 of the contract.

d. DFARS clause 252.239–7010, Cloud Computing Services, requires reporting of cyber incidents that occur when DoD is purchasing cloud computing services.

These DFARS provisions and clauses facilitate mandatory cyber incident reporting requirements in accordance with statutory regulations. When reports are submitted, DoD will analyze the reported information for cyber threats and vulnerabilities in order to develop response measures as well as improve U.S. Government understanding of advanced cyber threat activity. In addition, the security requirements in NIST SP 800–171 are specifically tailored for use in protecting sensitive information residing in contractor information systems and generally reduce the burden placed on contractors by eliminating Federal-centric processes and requirements. The information provided will inform DoD in assessing the overall risk to DoD covered defense information on unclassified contractor systems and networks.

Comments and recommendations on the proposed information collection should be sent to Ms. Susan Minson, DoD Desk Officer, at Oira_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer and the Docket ID number and title of the information collection.

You may also submit comments, identified by docket number and title, by the following method: Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the instructions for submitting comments.

DoD Clearance Officer: Ms. Angela Duncan. Requests for copies of the information collection proposal should be sent to Ms. Duncan at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.
