

Modernization Act of 2016 (HOTMA): Public Housing Waiting List Data Collection Tool.

OMB Approval Number: 2577–XXXX.

Type of Request: New Collection.

Form Number: Form HUD–XXXXX.

Description of the need for the information and proposed use: This collection of information implements a statutory requirement made by Section 103 of the Housing Opportunity Through Modernization Act of 2016 (HOTMA). HOTMA was signed into law on July 29, 2016 (Pub. L. 114–201, 130 Stat. 782). Section 103 of HOTMA amends section 16(a) of the United States Housing Act of 1937 (42 U.S.C. 1437n(a)) (1937 Act).

Section 103 of HOTMA states that after a public housing family has been over-income for two consecutive years, a public housing agency (PHA) must either: (1) charge the over-income family a monthly rent that is the higher of fair market rent under section 8(c) for the dwelling unit or the monthly amount of public housing subsidy provided for the dwelling unit; or (2) terminate the tenancy of the over-income family no later than 6 months after the end of the two-year period. Additionally, pursuant to section 103 of HOTMA, PHAs must submit an annual report on two specific

data points: (1) The number of over-income families residing in public housing and (2) the number of families on the public housing waiting lists.

The number of over-income families currently residing in public housing is already being collected via the form HUD–50058. Therefore, PHAs will be allowed to use income data already provided by form HUD–50058, under OMB approval number 2577–0083, which is submitted electronically in the PIH Information Center (PIC) system to satisfy the first data requirement to report the annual number of over-income families residing in public housing. The requirement for PHAs to report on the number of over-income families will be satisfied with currently-existing 50058 reporting requirements and HUD will compile this with the data provided on the number of families on the public housing waiting list for the public report.

The requirement for PHAs to report on the number of families on the public housing waiting list is new and so has resulted in the need to for this collection of information request. Each PHA will now be required to submit the total number of families on the public housing waiting lists annually utilizing the newly created electronic Public

Housing Waiting List Data Collection Tool. The data on the total number of unduplicated families on the public housing waiting list will be provided by the PHA in the aggregate and no personally identifiable information will be collected. Section 103 of HOTMA permits HUD to determine the format of these annual reports and HUD has elected to utilize PIC data when possible as this will result in no additional burden to the PHA. Per the requirements of Section 103 of HOTMA, HUD will compile the data provided in PIC and the new data that will be collected via the electronic Public Housing Waiting List Data Collection Tool to publish this information annually in a publicly available report.

Respondents: State, Local or Tribal Government.

Estimated Number of Respondents: 2,774 (This number excludes HCV-only PHA's).

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Assessing Community Needs for Terrestrial Analog Studies

AGENCY: Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a request to approve an information collection in use without an approval.

DATES: Interested persons are invited to submit comments on or before September 30, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Send comments by mail to the U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact Lauren Edgar by email at ledgar@usgs.gov, or by telephone at 928–556–7213. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on February 16, 2022. No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The survey is designed to gather feedback from community members that have a self-described interest in the use of terrestrial analogs. The survey is intended to assess the obstacles that exist related to training, research, sample collections, and data archiving within analog projects, the need for coordination across the community, and what products and services might be needed to further terrestrial analog use and to support exploration. Results from the survey will not be targeted at a particular audience but will instead be used to encourage responses and actions by various parts of the community.
