POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service®.

ACTION: Notice of new system of records.

SUMMARY: The United States Postal Service® (USPS® or Postal Service) is proposing to create a new Customer Privacy Act System of Records (SOR) to support an initiative to centralize Commercial Mail Receiving Agency (CMRA) records into an electronic database, improve the security of the In-Person enrollment process, and consolidate all CMRA paper and electronic records under one new and dedicated SOR. Previous **Federal Register** Notices for CMRA records that covered the current manual paper record system were published as USPS SOR 840.000, Customer Mailing and Delivery Instructions.

DATES: These revisions will become effective without further notice on September 30, 2022, unless responses to comments received on or before that date, result in a contrary determination.

ADDRESSES: Comments may be submitted via email to the Privacy and Records Management Office, United States Postal Service Headquarters (privacy@usps.gov). To facilitate public inspection, arrangements to view copies

of any written comments received will be made upon request. All submitted comments and attachments are part of the public record and subject to disclosure. Do not enclose any material in your comments that you consider to be confidential or inappropriate for public disclosure.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202–268–3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service has determined that the creation of a new SOR is needed to support the implementation of an online application for CMRA owners and managers to enter the data collected on Postal Service (PS) Form 1583—Application for Delivery of Mail through an Agent, and to consolidate all functions related to the CMRA application, enrollment, and administration processes.

I. Background

A CMRA is a private business, registered with the Postal Service, that acts as an authorized agent on behalf of U.S. Postal Service customers to accept delivery of U.S. mail at an alternate address managed by the authorized agent. Currently, U.S. Postal Service customers apply for delivery of mail to a CMRA by voluntarily providing selected personally identifying information (PII) to the CMRA and the Postal Service via a paper form, Postal Service (PS) Form 1583—Application for Delivery of Mail through an Agent. The CMRA maintains a copy of this application form and provides a paper copy of each customer's completed form to the Postal Service each quarter. These paper records are maintained in hard-copy form at the respective delivery units based on ZIP Code™.

The Postal Service is proposing to convert all decentralized paper enrollment records into a centralized electronic database and enhance the in-person enrollment process for CMRA agents and customers. CMRA owners and managers will maintain an online account with the USPS Business Customer Gateway (BCG) portal. The BCG portal will be used to access a separate online CMRA registration database. As part of the enrollment process, PS Form 1583—Application for Delivery of Mail through an Agent, asks

customers to produce two valid forms of identification, residential and/or business addresses, as well as the address to where mail may be forwarded by the CMRA. The CMRA owner or manager will enter the information collected on this form into the CMRA registration database and upload a legible scanned copy of each identification document.

These proposed changes are designed to standardize the application and enrollment process for CMRA customers through a centralized online system that will provide increased assurance that mail is delivered as addressed and mitigate the risk of fraudulent activity.

II. Rationale for Creation of a New USPS Privacy Act Systems of Records

As indicated above, CMRA records were previously covered by USPS SOR 840.000, Customer Mailing and Delivery Instructions. USPS SOR 845.000, Commercial Mail Receiving Agency (CMRA) Records is being created to support the implementation of a centralized online database of customer data collected on PS Form 1583, and consolidate all administrative, review and compliance functions related to the CMRA process. This new centralized approach and online database is expected to improve efficiency, reduce costs, and improve the effectiveness for oversight and compliance efforts.

III. Description of the New System of Records

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, arguments, or comments on this proposal. A report of the proposed new SOR has been sent to Congress and to the Office of Management and Budget (OMB) for their evaluations. The Postal Service does not expect this new system of records to have any adverse effect on individual privacy rights.
