SUPPLEMENTARY INFORMATION:

I. Abstract

As part of its national service delivery system, MBDA awards cooperative agreements and grant awards through broad agency announcements each year to fund the provision of business development services to eligible minority business enterprises (MBEs). The recipient of each grant award is competitively selected to participate in one of the MBDA's programs. In accordance with the Government Performance and Results Act/Modernization Act (GPRA/MA), and the Foundations for Evidence-based Policymaking Act of 2018 (Evidence Act), MBDA requires all grant participants to report basic client information, service activities and progress on attainment of program goals via the Online CRM/Performance Database. The data inputs into the Online CRM/Performance Database originate from client intake forms used by each participant to collect information about each minority business enterprise that receives technical business assistance from the servicing grant participants. This data provides the baseline from which the Online CRM/Performance Database is populated. The Online CRM/Performance Database is used to regularly monitor and evaluate the progress of the MBDA programs, to provide the Department and OMB with a summary of the quantitative

information required to be submitted about government supported programs, to implement the GPRA/MA, conduct program evaluation in support of the Evidence Act. This information is also summarized and included in the MBDA Annual Performance Report, which is made available to the public.

The MBDA grant programs continue to use the Online CRM/Performance Database. The client transaction and verification forms in use for the business center program are used to collect information about the effectiveness of other grant programs funded by the agency. The forms include a statement regarding MBDA's intended use and transfer of the information collected to other federal agencies for the purpose of conducting research and studies on minority businesses.

FOR FURTHER INFORMATION CONTACT: Bryan Keller, Office of International Affairs, Trade, and Commerce, (202) 897–9208 or at Bryan.Keller@noaa.gov.

SUPPLEMENTARY INFORMATION: MSE is a process that allows fishery managers and stakeholders (e.g., industry, scientists, and non-governmental organizations) to assess how well different strategies achieve specified management objectives for a fishery. After several years of work, ICCAT expects to finalize its Bluefin tuna MSE in 2022 and anticipates adopting a management procedure in November 2022 to set Total Allowable Catch (TACs) for 2023 and future years for both the western Atlantic and the eastern Atlantic and Mediterranean stocks of Bluefin tuna. NMFS and the United States more broadly participate in this MSE development process and have been engaging stakeholders and considering their input throughout the process through various means, including consultation with the Advisory Committee to the U.S. Section to ICCAT. The United States also participates in the development of the Bluefin tuna MSE through active engagement by U.S. scientists in ICCAT's Standing Committee on Research and Statistics (SCRS).

The September 16 meeting is intended to update stakeholders and solicit their input on the MSE approach being developed by ICCAT. This includes SCRS progress in developing initial candidate management procedures (CMPs) illustrating potential management tradeoffs and the related process by ICCAT to refine management objectives to assist the SCRS in further refining and narrowing those CMPs. This open session Advisory Committee meeting is primarily informational in nature and is intended to increase the opportunity for stakeholder awareness and input on the Bluefin tuna MSE process. Discussions at the meeting will help inform U.S. scientists who are participating in the work of the SCRS, including the SCRS Species Group and Plenary meetings, scheduled for September 19–30, 2022.

In addition to MSE updates, NMFS staff will provide an update on the Marine Recreational Information Program Atlantic HMS Regional Implementation Plan for the IAC's and the public's information and background. There will be dedicated time for questions and discussion related to this plan.
