

Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this review for shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) for previously investigated or reviewed Chinese or non-Chinese exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (2) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the China-wide entity (*i.e.*, 216.37 percent); and (3) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with sections 751(a)(1) of the Act and 19 CFR 351.213(d).

SUPPLEMENTARY INFORMATION:

Background

(Dongkuk). In April 2022, we extended the preliminary results of this review to no later than August 31, 2022.² For a complete description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum.³

Scope of the Order

The merchandise subject to the order is wind towers.⁴ The product is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheading 7308.20.0020 or 8502.31.0000 and may also be classified under HTSUS subheading 7308.20.0020 or 8502.31.0000. While the HTSUS subheadings are provided for convenience and customs purposes, the written product description remains dispositive.

Methodology

Commerce is conducting this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). Export price is calculated in accordance with section 772 of the Act. NV is calculated in accordance with section 773 of the Act. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). A list of the topics discussed in the Preliminary Decision Memorandum is attached as the appendix to this notice.

Partial Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication of the notice of initiation. On January 5, 2022, the petitioner timely withdrew its request for administrative review of CS Wind Corporation (CS Wind);⁵ we received no other requests for review of this company. Therefore, Commerce is rescinding this review with respect to CS Wind, in accordance with 19 CFR 351.213(d)(1).

Preliminary Results of Review

As a result of this review, we preliminarily determine the following weighted-average dumping margin for

Commerce intends to issue the final results of this administrative review, including the results of its analysis raised in any written briefs, not later than 120 days after the date of publication of this notice, unless otherwise extended.¹⁴

Assessment Rates

Upon issuing the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries.

Pursuant to 19 CFR 351.212(b)(1), where Dongkuk reported the entered value of its U.S. sales, we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. Where either the respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. We intend to instruct CBP to take into account the "provisional measures deposit cap," in accordance with 19 CFR 351.212(d). The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Commerce's "automatic assessment" practice will apply to entries of subject merchandise during the POR produced by Dongkuk for which Dongkuk did not know that the merchandise it sold to the intermediary (*e.g.*, a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

For CS Wind, the company for which we are rescinding this administrative

review, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period February 14, 2020, through July 31, 2021, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions directly to CBP no earlier than 35 days after the date of publication of this notice in the **Federal Register**.

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for the company listed above will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated or reviewed companies not covered in this review, the cash deposit rate will continue to be the company-specific cash deposit rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, or the less-than-fair-value (LTFV) investigation, but the manufacturer is, then the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 5.41 percent, the all-others rate established in the LTFV investigation.¹⁵ These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

¹⁴ See section 751(a)(3)(A) of the Act.

¹⁵ See *Order*, 85 FR at 52547.

Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

SUPPLEMENTARY INFORMATION:**I. Abstract**

This is a request for a revision and extension of a currently approved information collection, approved under the authority and goals of the Magnuson-Stevens Fishery Conservation and Management Act.

Fishing livelihoods are both centrally dependent on marine ecosystems and part of the set of forces acting on other components of these ecosystems, including the ecosystem's resident fish and marine species. Alongside social factors like economics and management actions, biophysical dynamics within the ecosystems, including fisheries population fluctuations, shape fishing livelihoods. However, the decisions fishermen make regarding which fisheries to access and when to access them are not fully understood, particularly within the holistic food web frameworks offered up by ecosystem-based approaches to research and management. Moreover, a full understanding and predictive capacity for these movements of fishermen across fisheries in the context of ecological and social variability presents a significant gap in management-oriented knowledge. Managing fisheries in a way that enhances their social and economic value, mitigates risks to ecosystems and livelihoods, and facilitates sustainable adaptation, requires this fundamental knowledge.

For this reason, the Northwest Fisheries Science Center (NWFSC) seeks to conduct fisheries participation analyses which involve repeated follow-up surveys of United States (U.S.) West Coast commercial fishing participants. A U.S. mail survey will be conducted, replicating the survey administered during 2017 and 2020, with slight changes in questions about direct marketing of catch and community infrastructure. The survey will be voluntary, and contacted individuals may decline to participate. Respondents will be asked to answer questions about their motivations for fishing and other factors that affect participation in the suite of West Coast commercial fisheries. Fishing employment information will be collected so that responses can be organized based on a respondent typology. This survey is essential because data on smaller scale

fishing practices, values, participation decisions and beliefs about fishing livelihoods are sparse; yet, they are critical to the development of usable fishery ecosystem models that account for non-pecuniary benefits of fishing, as well as the ways in which fishing practices shape individual and community well-being.

II. Method of Collection

Respondents will be contacted via mail for administration of the survey.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.
