burden hours to the depreciation studies line item now being added.

In another adjustment, the number of hours for Oil Rates and Tariff Filings will decrease from 7.8 hours to 7 hours per respondent due to the hour allocation going to the second line (Depreciation Studies) in the table below. Additionally, since the previous renewal, the number of respondents to Oil Rates and Tariff filings also increased from 219 to 258 based on the number of filings received by the Commission. The overall revised burden estimates result to an increase to 280 (+61) respondents, 796 (+86) responses, and 6,298 hours (+760).

The Commission estimates the annual public reporting burden and cost for the FERC–550 information collection as follows:
