

malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities: Ammonium sulfate manufacturing facilities in the caprolactam by-product, synthetic, and coke oven by-products sectors of the ammonium sulfate manufacturing industry.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart PP).

Estimated number of respondents: 2 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 286 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$34,300 (per year), which includes \$0 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations: (1) the regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Abstract: This information collection request will allow EPA to employ a contractor to compile data from private companies providing compliance testing to owners of federally regulated underground storage tank systems (USTs). The completed dataset of test results will allow EPA to evaluate the effectiveness of several of the newly required measures to prevent fuel releases included in the 2015 federal UST regulation: spill containment liquid tightness testing, containment sump liquid tightness testing (for containment sumps used for interstitial monitoring of piping of single-wall construction), overfill equipment inspections, and two types of annual leak detection equipment testing. EPA is interested in quantitatively assessing if passing rates improve between initial and subsequent rounds of testing in the 15 states from which data will be collected. EPA will use the data to identify if, and by how much, testing required by the regulation impacts equipment performance over time. EPA will use this information to enhance national UST program performance. EPA will share the information gathered from this collection with all state implementing agencies, who could use the results to better inform their future regulations, policies, and guidance for preventing UST releases. Sharing this information will help states implement their programs better, which will help EPA execute national UST program goals and better protect human health and the environment.

Form Numbers: None.

Respondents/affected entities: UST testing and compliance companies, UST facility owners and operators.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 60.

Frequency of response: One-time collection.

Total estimated burden: 1,275 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$53,398.75 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: This is a request for a new collection.

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 103748]

Privacy Act of 1974; Matching Program

AGENCY: Federal Communications Commission.

ACTION: Notice of a new matching program.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (“Privacy Act”), this document announces a new computer matching program the Federal Communications Commission (“FCC” or “Commission” or “Agency”) and the Universal Service Administrative Company (USAC) will conduct with the Mississippi Department of Human Services. The purpose of this matching program is to

verify the eligibility of applicants to and subscribers of Lifeline, and the Affordable Connectivity Program (ACP), both of which are administered by USAC under the direction of the FCC. More information about these programs is provided in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Written comments are due on or before October 11, 2022. This computer matching program will commence on October 11, 2022, and will conclude 18 months after the effective date.

ADDRESSES: Send comments to Elliot S. Tarloff, FCC, 45 L Street NE, Washington, DC 20554, or to Privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Elliot S. Tarloff at 202-418-0886 or Privacy@fcc.gov.

SUPPLEMENTARY INFORMATION: The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Lifeline is administered by the Universal Service Administrative Company (USAC) under FCC direction. Consumers qualify for Lifeline through proof of income or participation in a qualifying program, such as Medicaid, the Supplemental Nutritional Assistance Program (SNAP), Federal Public Housing Assistance, Supplemental Security Income (SSI), Veterans and Survivors Pension Benefit, or various Tribal-specific federal assistance programs.

In the Consolidated Appropriations Act, 2021, Public Law 116-260, 134 Stat. 1182, 2129-36 (2020), Congress created the Emergency Broadband Benefit Program, and directed use of the National Verifier to determine eligibility based on various criteria, including the qualifications for Lifeline (Medicaid, SNAP, etc.). EBBP provided \$3.2 billion in monthly consumer discounts for broadband service and one-time provider reimbursement for a connected device (laptop, desktop computer or tablet). In the Infrastructure Investment and Jobs Act, Public Law 117-58, 135 Stat. 429, 1238-44 (2021) (codified at 47 U.S.C. 1751-52), Congress modified and extended EBBP, provided an additional \$14.2 billion, and renamed it the Affordable Connectivity Program (ACP). A household may qualify for the ACP benefit under various criteria, including an individual qualifying for the FCC’s Lifeline program.

In a Report and Order adopted on March 31, 2016, (81 FR 33026, May 24, 2016) (*2016 Lifeline Modernization Order*), the Commission ordered USAC to create a National Lifeline Eligibility Verifier (“National Verifier”), including the National Lifeline Eligibility Database

(LED), that would match data about Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. The Commission found that the National Verifier would reduce compliance costs for Lifeline service providers, improve service for Lifeline subscribers, and reduce waste, fraud, and abuse in the program.

The Consolidated Appropriations Act of 2021 directs the FCC to leverage the National Verifier to verify applicants’ eligibility for ACP. The purpose of this matching program is to verify the eligibility of Lifeline and ACP applicants and subscribers by determining whether they receive SNAP benefits administered by the Mississippi Department of Human Services.

Participating Agencies

Mississippi Department of Human Services.

Authority for Conducting the Matching Program

The authority for the FCC’s ACP is Infrastructure Investment and Jobs Act, Public Law 117-58, 135 Stat. 429, 1238-44 (2021) (codified at 47 U.S.C. 1751-52); 47 CFR part 54. The authority for the FCC’s Lifeline program is 47 U.S.C. 254; 47 CFR 54.400 through 54.423; Lifeline and Link Up Reform and Modernization, *et al.*, Third Report and Order, Further Report and Order, and Order on Reconsideration, 31 FCC Rcd 3962, 4006-21, paras. 126-66 (2016) (*2016 Lifeline Modernization Order*).

Purpose(s)

The purpose of this modified matching agreement is to verify the eligibility of applicants and subscribers to Lifeline, as well as to ACP and other Federal programs that use qualification for Lifeline as an eligibility criterion. This new agreement will permit eligibility verification for the Lifeline program and ACP by checking an applicant’s/subscriber’s participation in SNAP in Mississippi. Under FCC rules, consumers receiving these benefits qualify for Lifeline discounts and also for ACP benefits.

Categories of Individuals

The categories of individuals whose information is involved in the matching program include, but are not limited to, those individuals who have applied for Lifeline and/or ACP benefits; are currently receiving Lifeline and/or ACP benefits; are individuals who enable another individual in their household to qualify for Lifeline and/or ACP benefits; are minors whose status qualifies a parent or guardian for Lifeline and/or
