## **NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

[Notice: 22–071]

### **Name of Information Collection: Financial Assistance Awards/Grants and Cooperative Agreements**

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection renewal.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

**DATES:** Comments are due by October 12, 2022.

**ADDRESSES:** Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this information collection by selecting “Currently under 30-day Review-Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Bill Edwards-Bodmer, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, 757–864–3292 or [b.edwards-bodmer@nasa.gov](mailto:b.edwards-bodmer@nasa.gov).

**SUPPLEMENTARY INFORMATION:**

#### **I. Abstract**

This is a request to renew OMB control number 2700–0092. This collection is required to ensure proper accounting of Federal funds and property provided under financial assistance awards (grants and cooperative agreements) per 2 CFR 200—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. 2 CFR 200, subparts A through F, applies to all NASA award recipients except for for-profit organizations. Only subparts A through D of 2 CFR 200 apply to for-profit organizations. Reporting and recordkeeping are prescribed at 2 CFR part 1800—Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards. The requirements in 2 CFR part 1800 are applicable to awards that NASA issues to non-Federal entities, government, for-profit organization, and foreign organizations as allowed by 2 CFR 200.101, Applicability.

#### **II. Methods of Collection**

Grant and cooperative agreement proposals are submitted electronically through the NASA Solicitation and Proposal Integrated Review and Evaluation System (NSPIRES) or *Grants.gov*. The use of these systems reduces the need for proposers to submit multiple copies to the agency. Proposers may submit multiple

proposals and notices of intent to different funding announcements without registering in NSPIRES each time.

#### *Basis of Estimate*

Approximately 7000 NASA financial assistance awards are open at any one time. It is estimated that out of the 9,900 proposals received each year, NASA awards approximately 1,977 new awards. The period of performance for each financial assistance award is usually three to five years. Performance reports are filed annually, and historical records indicate that, on average, 1,625 changes to these reports are submitted annually. The total number of respondents is based on the average number of proposals that are received each year and the average number of active grants and cooperative agreements that are managed each year. The total number of hours spent on each task was estimated through historical records and experience of former recipients. Using past calculations, the total cost was estimated using the average salary (wages and benefits) for a GS–12 step 5.

*OMB Number:* 2700–0092.

*Type of review:* Renewal of a previously approved information collection.

#### **IV. Request for Comments**

*Comments are invited on:* (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.
