computerized comparisons for this purpose;” and

(xxv) New routine use (18) was added to allow the Department to disclose records from this system to the National Archives and Records Administration (NARA) for the purpose of records management inspections conducted under authority of 44 U.S.C. 2904 and 2906.

The Department is modifying the section entitled “POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS” to indicate that records are retained and disposed of in accordance with ED Records Schedule 075: FSA Loan Servicing, Consolidation, and Collections Records (N1-441-09-016) (ED 075); the Department has proposed amendments to ED 075 for NARA’s consideration; and the Department will continue to preserve all records covered by ED 075 until the amendments are approved.

The Department is modifying the section entitled “ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS” as follows:

(i) In the first paragraph, the Department removed the reference to Appendix II, which is being separately deleted, in its entirety, from this modified system of records notice;

(ii) In the second paragraph, the Department updated the reference to its Administrative Communications Directive and clarified that its requirements to undergo a security clearance investigation apply to contract personnel who have facility access and system access;

(iii) In the third paragraph, the Department removed the reference to OMB Circular No. A-130, Appendix III, because OMB Circular No. A-130 no longer contains an Appendix III;

(iv) In the fourth paragraph, the Department deleted and replaced “FSA Information Security and Privacy Policy” with “Standard PR.AC: Password Parameters Policy;”

(v) The Department included, in new fifth and sixth paragraphs, information on requirements under the Federal Information Security Management Act of 2002 (FISMA), as amended by the Federal Information Security Modernization Act of 2014, to clarify that the Department system must receive a signed Authorization to Operate (ATO) and to provide a more detailed explanation of controls; and

(vi) In the final paragraph, the Department is updating the reference to additional system locations given that Appendix II is being separately deleted, in its entirety, from this system of records notice; and deleting the

reference to “additional physical security measures” being in place.

The Department is removing APPENDIX I entitled “COMPUTER MATCHING PROGRAMS IN WHICH THE DEPARTMENT CURRENTLY ENGAGES OR HAS RECENTLY ENGAGED WITH RESPECT TO THIS SYSTEM” because the information that the Department receives from matching programs has been generally described in the section of the notice entitled “CATEGORIES OF RECORDS” and a separate appendix is not required by the Privacy Act or OMB and is not included in the Department’s other systems of records notices.

The Department is removing APPENDIX II entitled “ADDITIONAL SYSTEM LOCATIONS.” As part of removing Appendix II, the Department has made the following modifications:

(i) From the subsection entitled “The Department and its Contractors,” the Department’s locations have been moved to the “SYSTEM LOCATION” section, as described in greater detail in the above discussion of modifications thereto; and the PHEAA and Nelnet Servicing LLC locations have been deleted, as they were already, and continued to be, set forth in the “SYSTEM LOCATION” section;

PURPOSE(S) OF THE SYSTEM:

Note: Different parts of the HEA use the terms “discharge”, “cancellation” or “forgiveness” to describe when a borrower’s loan amount is reduced in whole or in part by the Department. To reduce complexity, this system of records notice uses the term “discharge” to include all three terms (“discharge”, “cancellation” and “forgiveness”), including but not limited to discharges of student loans made pursuant to specific benefit programs. At times, this system of records notice may refer by name to a specific benefit program, such as the “Public Service Loan Forgiveness” program; such specific references are not intended to exclude any such program benefits from more general references to loan discharges.

In accordance with the Department's Administrative Communications System Directive ACSD-OFO-013 entitled "Contractor Employee Personnel Security Screenings," all contract personnel who have facility access and system access are required to undergo a security clearance investigation. Individuals requiring access to Privacy Act records are required to hold, at a minimum, a moderate-risk security clearance level. These individuals are required to undergo periodic screening at five-year intervals.

In addition to conducting security clearances, contract and Department employees are required to complete security awareness training on an annual basis. Annual security awareness training is required to ensure that contract and Department users are appropriately trained in safeguarding Privacy Act records.

The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. All users of this system of records are given a unique user identification and password. The Department's Standard PR.AC: Password Parameters Policy requires the enforcement of a complex password policy. In addition to the enforcement of a complex password policy, users are required to change their password at least every 60 to 90 days in accordance with the Department's Information Technology standards.

In accordance with the Federal Information Security Management Act of 2002 (FISMA), as amended by the Federal Information Security Modernization Act of 2014, every Department system must receive a signed Authorization to Operate (ATO) from a designated Department official. The ATO process includes a rigorous assessment of security and privacy controls, a plan of actions and milestones to remediate any identified deficiencies, and a continuous monitoring program.

FISMA controls implemented comprise a combination of management, operational, and technical controls, and include the following control families: access control, awareness and training, audit and accountability, assessment, authorization, and monitoring, configuration management, contingency planning, identification and authentication, incident response, maintenance, media protection, physical and environmental protection, planning, program management, personnel security, personally identifiable information processing and transparency, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and supply chain risk management.

All of the Federal Loan Servicers, NFP Federal Loan Servicers, the Federal Perkins Loan Servicer, PCAs and other contractors, as listed in "SYSTEM LOCATION," undergo FISMA security authorizations. In addition, access is
