

expose DAC order users to the gamma effect of options as they become more sensitive to underlying price changes as such options approach expiration, and reducing the amount of time during which the underlying price could potentially move. As described in the Notice,<sup>26</sup> single stock securities may experience greater price sensitivity and may experience larger price swings than compared to indexes and ETPs, and DAC options holders particularly may potentially be subject to a greater risk of paying much higher premiums given the price adjustment at close. The Commission believes the proposed restrictions are designed to minimize any potential incentive to attempt to manipulate the equities that may underlie a DAC order, particularly those securities that may experience relatively lower volume, and are designed to mitigate potential risk to holders of DAC options on single stock securities.

Finally, the Commission notes that the Exchange represents that: (1) it believes the Exchange and OPRA have the necessary systems capacity to handle any additional order traffic, and the associated restatements, that may result from the submission of DAC orders in equity options; (2) it continues to have an adequate surveillance program in place to monitor orders with DAC pricing, including such orders in equity options; (3) it intends to further enhance its surveillances to, among other things, monitor for certain changes in delta and stock price between an original order and the final terms of execution and to generally monitor activity in the underlying potentially related to DAC trades; (4) it has not observed any impact on pricing or price discovery at or near the market close as a result of DAC orders submitted in ETP and index options and does not believe that making DAC orders available in equity options will have any impact on pricing or price discovery at or near the market close; and (5) it has not identified an impact on pricing or price discovery at or near the close as a result of exercise prices for FLEX Equity Options series formatted as a percentage of the closing value of the underlying security, which is similar to a DAC order instruction and currently permitted on the Exchange.

Accordingly, for the foregoing reasons, the Commission believes that this proposed rule change is consistent with the Exchange Act.

**IV. Conclusion**

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Exchange Act,<sup>27</sup> that the proposed rule change (SR-CBOE-2022-036) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>28</sup>

**J. Matthew DeLesDernier,**  
*Deputy Secretary.*

## SURFACE TRANSPORTATION BOARD

**[Docket No. FD 36639]**

### Wheeling & Lake Erie Railway Company—Sublease Renewal Exemption—Pittsburgh & West Virginia Railroad

Wheeling & Lake Erie Railway  
Company (W&LE) has filed a verified

notice of exemption under 49 CFR 1180.2(d)(4) to renew its sublease of approximately 120 miles of rail line of the Pittsburgh & West Virginia Railroad (PWV), principally extending between Pittsburgh Junction, Ohio, and Connellsville, Pa., with short branch lines extending to Clairton and Mifflin Junction, Pa. (the Lines). W&LE states that the Lines have been leased by Norfolk Southern Railway Company (NSR) and its predecessors in interest since 1962. According to the verified notice, W&LE has subleased and provided all rail operations on the Lines since 1990. W&LE states that it has renewed the sublease for an additional period of ninety-nine (99) years, from October 16, 2062, to October 16, 2161.<sup>1</sup>

According to the verified notice W&LE seeks to renew its current lease and sublease arrangements for the Lines to provide stability and certainty for W&LE's operation and to accommodate long-term planning and investment for those lines.

As a condition to the use of this exemption, any employees affected by this transaction will be protected by the conditions imposed in *Mendocino Coast Ry.—Lease & Operate*, 354 I.C.C. 732 (1978), modified, 360 I.C.C. 653 (1980).

The transaction may be consummated on or after September 28, 2022, the effective date of the exemption (30 days after the verified notice was filed).

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than September 22, 2022 (at least seven days before the exemption becomes effective).

All pleadings, referring to Docket No. FD 36639, must be filed with the Surface Transportation Board via e-filing on the Board's website or in writing addressed to 395 E Street SW, Washington, DC 20423-0001. In addition, one copy of each pleading must be served on W&LE's representative: Thomas J. Litwiler, Fletcher & Sippel LLC, 29 North Wacker Drive, Suite 800, Chicago, IL 60606-3208.

<sup>1</sup> According to W&LE, the current agreement provides for the right to extend the sublease for an additional 99-year term with a written notice. Exhibit 2 of the verified notice provides copies of W&LE's written notice to NSR extending the 1990 sublease, dated May 24, 2022, and NSR's notice to PWV extending the 1962 lease, dated August 9, 2022. The verified notice states that no other modifications have been made to the underlying agreements.
