FOR FURTHER INFORMATION CONTACT: Mark Goldman, Office of Transportation and Air Quality, Compliance Division; telephone number: (202) 564–0604; email address:

SUPPLEMENTARY INFORMATION: EPA is hosting a virtual public workshop to discuss the implementation of the new biointermediate provisions promulgated as a part of Renewable Fuel Standard (RFS) final rule for years 2020, 2021, and 2022 (see 87 FR 39600, July 1, 2022).

These new provisions allow for the use of certain biointermediates to produce qualifying renewable fuels and specify requirements that apply when renewable fuel is produced through sequential operations at more than one facility. Additionally, the new provisions cover the production, transfer, and use of biointermediates and new regulatory requirements related to registration, recordkeeping, and reporting for facilities producing or

using a biointermediate for renewable fuel production.

The virtual public workshop will provide the opportunity for EPA to update stakeholders on how to register and comply with requirements for producing, transferring and using biointermediates. There will also be a question and answer period for stakeholders to ask additional questions related to biointermediates.

An agenda will be posted approximately one week before the workshop at: <https://www.epa.gov/renewable-fuel-standard-program/workshop-biointermediates-compliance-2022>. Interested parties should check this website for any updated information.
