SUPPLEMENTARY INFORMATION:

I. Introduction

Westinghouse Electric Company, LLC (WEC) is authorized to possess and use SNM under part 70 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic Licensing of Special Nuclear Material” at its Columbia Fuel Fabrication Facility (CFFF) located in Hopkins, South Carolina. The CFFF is licensed to possess and process enriched uranium up to a maximum of 5 weight-percent uranium-235 for the manufacture of nuclear fuel assemblies for use in commercial nuclear power reactors.

II. Discussion

Pursuant to 10 CFR 2.106, the NRC is providing notice of the renewal of License No. SNM–1107, which authorizes WEC to continue the manufacture of nuclear fuel assemblies for use in commercial nuclear power reactors at its location in Hopkins, South Carolina.

WEC’s request for the license renewal was previously noticed in the **Federal Register** (FR) on February 27, 2015 (80 FR 10727), with a notice of opportunity to request a hearing and to petition for leave to intervene. No requests were received.

The NRC prepared a final Environmental Impact Statement (EIS), NUREG- 2248, “Environmental Impact Statement for the License Renewal of

the Columbia Fuel Fabrication Facility in Richland County, South Carolina” in support of WEC’s license renewal application in accordance with the requirements of 10 CFR part 51. The final EIS was noticed in the **Federal Register** on August 5, 2022 (87 FR 48044).

The NRC determined that License No. SNM–1107 complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and with the NRC’s rules and regulations as set forth in 10 CFR chapter 1. Accordingly, this license was issued on September 12, 2022, and was effective immediately.

The NRC staff prepared a safety evaluation report for the renewal of License No. SNM–1107 and concluded that WEC can continue to operate the facility without posing an undue risk to the worker or to public health and safety.

III. Availability of Documents

In accordance with 10 CFR 2.390 of the NRC’s “Rules of Practice,” the details with respect to this action, including the safety evaluation report and accompanying documentation and license, are available electronically in the NRC’s Electronic Reading Room at <https://www.nrc.gov/reading-rm/adams.html>.
