

this context is defined broadly and includes research, extension, and education in food, fiber, forestry, range, nutritional and social sciences, including food safety and positive youth development. This listening effort will focus on the agricultural science that NIFA invests in, but not primarily on NIFA processes or procedures.

Implementation Plans

Written comments by all interested stakeholders are welcomed through 5 p.m. Eastern time, November 30, 2022. All input will become a part of the official record and available on the NIFA website, <https://nifa.usda.gov/nifalistsens>.

Stakeholder input received from the two mechanisms is treated equally. The challenges, needed breakthroughs, and priorities identified by this effort will be evaluated in conjunction with input from NIFA staff. This information will be critical for NIFA's evaluation of existing science emphasis areas and to identify investment opportunities and gaps in the current portfolio of programs. The information obtained through this iterative analysis and synthesis will help ensure the strategic positioning and relevancy of NIFA's investments in advancing agricultural research, education and extension.

Done at Washington, DC, this day of September 9, 2022.
