2022, and extending through September 30, 2027, or until superseded by another rate schedule, whichever occurs earlier.

Available

In the marketing area serviced by the Boulder Canyon Project.

Applicable

To power supplied by the Boulder Canyon Project through one meter, at one point of delivery, unless otherwise provided by contract.

Character and Conditions of Service

Alternating current at 60 hertz, threephase, delivered and metered at the voltages and points established by contract.

Base Charge

The charge paid by each contractor for their allocated capacity and firm energy based on the annual revenue requirement. The base charge shall be composed of a capacity component and an energy component:

Capacity Charge: Each month WAPA shall bill each contractor for a capacity charge equal to one-twelfth (1/12) of the capacity dollars multiplied by each contractor's contingent capacity percentage as provided by contract.

Energy Charge: Each month WAPA shall bill each contractor for an energy charge equal to that period's monthly energy ratio, multiplied by the contractor's energy dollars as provided by contract.

Forecast Rates

Energy: Shall be equal to the annual energy dollars divided by the lesser of the total master schedule energy or 4,501 megawatt-hours. This rate is applied to excess energy, unauthorized overruns, and water pump energy.

Capacity: Shall be equal to the annual capacity dollars divided by 2,074 megawatt-hours. This rate is applied to unauthorized overruns.

Calculated Energy Rate

Within ninety (90) days after the end of the fiscal year, an energy rate shall be calculated. For any rate year in which energy deemed delivered is greater than 4,501 megawatt-hours, WAPA shall apply the calculated energy rate to each contractor's energy deemed delivered to determine the contractor's actual energy charge. A credit or debit shall be established for each contractor based on the difference between the contractor's energy dollars and the contractor's actual energy charge, to be applied in the month following the calculation or as soon as possible thereafter. Lower Colorado River Basin Development Fund (Contribution Charge)

The Contribution Charge is 4.5 mills for each kilowatt-hour measured or scheduled to an Arizona purchaser and 2.5 mills for each kilowatt-hour measured or scheduled to a California or Nevada purchaser, except for purchased power.

Billing for Unauthorized Overruns

For each billing period in which there is a contract violation involving an unauthorized overrun of contractual power obligations, such overrun shall be billed at ten (10) times the forecast energy rate and forecast capacity rate. The Contribution Charge shall also be applied to each kilowatt hour of overrun.

Adjustments

None.

Proposed Information Collection Request; Comment Request; Proposed Information Collection Request; Comment Request; State Review Framework

AGENCY: Environmental Protection Agency (EPA). **ACTION:** Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Proposed Information Collection Request; Comment Request; State Review Framework'' (ÉPA ICR No. 2185.08, OMB Control No. 2020-0031 to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through April 30, 2023. An Agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before November 18, 2022.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-

OECA-2020-0031, online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460 and (2) OMB via email to oira_ submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Dave Hoffman, Office of Enforcement and Compliance Assurance, Office of Compliance, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–0725; email address: *Hoffman.dave@epa.gov.*

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at *www.regulations.gov* or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit *http://www.epa.gov/dockets*.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another Federal Register

notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The State Review Framework is an oversight tool designed to assess state performance in enforcement and compliance assurance. The Framework's goal is to evaluate state performance by examining existing data to provide a consistent level of oversight and develop a uniform mechanism by which EPA Regions, working collaboratively with their states, can ensure state environmental agencies consistently implement the national compliance and enforcement program to meet agreed-upon goals. Furthermore, the Framework is designed to foster dialogue on enforcement and compliance performance between states to enhance relationships and increase feedback, which will in turn lead to consistent program management and improved environmental results. This request will allow OECA to review and collect information from state and local agency enforcement and compliance files, to support the State Review Framework implementation from FY 2024 to FY 2027. It will also allow EPA to make inquiries to assess the State Review Framework process, including consistency achieved among the EPA Regions and states, resources required to conduct reviews, and overall effectiveness of the program.

Form Numbers: None.

Respondents/affected entities: States, localities, and territories.

Respondent's obligation to respond: Required as part of program authorization under the Clean Water, Clean Air, Safe Drinking Water and Resource Conservation and Recovery Acts.

Estimated number of respondents: 213 (total).

Frequency of response: Once every 5 years.

Total estimated burden: 12,993 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$546,729 (per year).

Changes in Estimates: There is an increase in total estimated response burden hours from 218 to 305 per respondent due to the addition of the safe drinking water act enforcement review pilot, which wasn't captured in the previous ICR. This pilot isn't formally part of the SRF, but the agency believes this ICR is an appropriate forum to collect input, due to their similarities in workload and purpose. At the conclusion of the pilot, the agency will review the program and if necessary, revise this ICR. In addition,

there is an increase in the number of respondents from 54 to 213 due to inclusion of all media (CAA, CWA, RCRA and SDWA) for 50 states and 4 territories, and 14 local air districts. Previous ICR's included a single response for each state/territory, whereas this ICR utilized a different methodology to capture the burden more accurately. The burden estimates for CAA, CWA and RCRA are unchanged.

John Dombrowski,

Director, Office of Compliance. [FR Doc. 2022–20173 Filed 9–16–22; 8:45 am] BILLING CODE 6560–50–P
