

Intermarket Competition

The Exchange believes that the proposed change to its port fee schedule to provide proration for the first month of port connectivity will not impose a burden on competition because the Exchange's execution services are completely voluntary and subject to extensive competition both from the other live exchanges and from off-exchange venues, which include alternative trading systems that trade national market system stock. Moreover, as noted above, other exchanges currently charge new ports on a prorated basis for the first month of service.⁹ The proposed changes will help ensure that the Exchange's billing practices are commensurate with competitors.

The proposed change to the Exchange's port fee schedule is reflective of this competition because, as a threshold issue, the Exchange is a relatively small market so its ability to burden intermarket competition is limited. In this regard, even the largest U.S. equities exchange by volume only has 17–18% market share, which in most markets could hardly be categorized as having enough market power to burden competition. Accordingly, the Exchange does not believe that the proposed change will impair the ability of members, participants, or competing order execution venues to maintain their competitive standing in the financial markets.

The proposed changes to clarify that the Exchange does not charge a Disaster Recovery Port Fee for ports listed in Options 7, Section 7C(iii) and to clarify that NTF ports are provided at no cost are designed to expressly state existing practices without changing their operation and, therefore, the Exchange believes that the proposed changes will not impose a burden on competition.

1. *Application for Lump Sum Death Payment—20 CFR 404.390-404.392—0960-0013.* SSA uses Form SSA-8 to collect information needed to authorize payment of the lump sum death payment (LSDP) to a widow, widower, or children as defined in section 202(i) of the Social Security Act (Act). Respondents complete the application for this one-time payment through use of the paper form, or personal interview with an SSA employee either via telephone, or in a field office. For all personal interviews (either telephone or in-person), we collect the information via our electronic Modernized Claim System (MCS) screens. When a respondent completes the paper Form SSA-8, they mail it back to SSA. Respondents are applicants for the LSDP.

Type of Request: Revision of an OMB-approved information collection.

2. *Representative Payee Evaluation Report—20 CFR 404.2065 & 416.665—0960-0069.* Sections 205(j) and 1631(a)(2) of the Act state that SSA may authorize payment of Social Security benefits or Supplemental Security Income (SSI) payments to a representative payee on behalf of individuals unable to manage, or direct the management of, those funds themselves. SSA requires certain appointed representative payees to report once each year on how they used

or conserved those funds. Some representative payees, such as natural or adoptive parents of minor children or spouses of beneficiaries, are generally not required to complete this report. When a representative payee fails to adequately report to SSA, SSA conducts a face-to-face interview with the payee and completes Form SSA-624-F5, Representative Payee Evaluation Report, to determine the continued suitability of the representative payee to serve as a payee. In addition to interviewing the

representative payee, we also interview the recipient, and custodian (if other than the payee), to confirm the information the payee provides, and to ensure the payee is meeting the recipient’s current needs. However, we do not require the interviews to be face-to-face with non-representative payees. The respondents are individuals or organizations serving as representative payees for individuals receiving Title II benefits or Title XVI payments, and who fail to comply with SSA’s statutory
