

*J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations*

The state did not evaluate environmental justice considerations as part of its SIP submittal. There is no information in the record inconsistent with the stated goals of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and indigenous peoples.

*K. Congressional Review Act (CRA)*

This action is subject to the CRA, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

*L. Petitions for Judicial Review*

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 21, 2022. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

**List of Subjects in 40 CFR Part 52**

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen oxides, Ozone, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: September 12, 2022.

**Martha Guzman Aceves,**  
*Regional Administrator, Region IX.*

For the reasons stated in the preamble, the Environmental Protection Agency amends part 52, chapter I, title 40 of the Code of Federal Regulations as follows:

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

■ 1. The authority citation for part 52 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

**Subpart F—California**

■ 2. Section 52.220 is amended by adding paragraphs (c)(347)(i)(B)(3) and (c)(586) to read as follows:

**§ 52.220 Identification of plan-in part.**

\* \* \* \* \*

- (c) \* \* \*
- (347) \* \* \*
- (i) \* \* \*
- (B) \* \* \*

(3) Previously approved on August 28, 2007, in paragraph (c)(347)(i)(B)(1) of this section and now deleted with replacement in paragraph (c)(586)(i)(A)(1) of this section, Rule 1118 adopted February 13, 1998, and amended November 4, 2005.

\* \* \* \* \*

(586) An amended regulation for the following agency was submitted on February 16, 2018, by the Governor’s designee as an attachment to a letter dated February 7, 2018.

(i) *Incorporation by reference.* (A) South Coast Air Quality Management District.

(1) Rule 1118, “Control of Emissions from Refinery Flares,” amended on July 7, 2017.

- (2) [Reserved]
- (B) [Reserved]
- (ii) [Reserved]

**BILLING CODE 6560–50–P**

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**50 CFR Part 32**

[Docket No. FWS–HQ–NWRS–2022–0055; FXRS12610900000–223–FF09R20000]

**RIN 1018–BF66**

**2022–2023 Station-Specific Hunting and Sport Fishing Regulations; Correction**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Final rule; correction.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), are correcting one amendatory instruction in a final rule that published in the **Federal Register** on September 16, 2022. That rule opened, for the first time, two National Wildlife Refuges (NWRs, refuges) that are currently closed to hunting and sport fishing. In addition, the rule opened or expanded hunting or sport fishing at 16 other NWRs and added pertinent station-specific regulations for other NWRs that pertain

to migratory game bird hunting, upland game hunting, big game hunting, or sport fishing for the 2022–2023 season.

**DATES:** Effective September 1, 2026.

**FOR FURTHER INFORMATION CONTACT:** Kate Harrigan, (703) 358–2440.

**SUPPLEMENTARY INFORMATION:** In the final rule that published in the **Federal Register** on September 16, 2022, at 87 FR 57108, the following correction is made:

**§ 32.33 [Corrected]**

■ On page 57129, in the third column, in amendment 6, the instruction “Effective September 1, 2026, § 32.33 is further amended by revising paragraph (c)(1)(iii) to read as follows:” is corrected to read “Effective September 1, 2026, § 32.33 is further amended by adding paragraph (c)(1)(iii) to read as follows:”

**RIN 0648–XC401**

**International Fisheries; Pacific Tuna Fisheries; 2022 Commercial Pacific Bluefin Tuna Trip Limit in the Eastern Pacific Ocean**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; inseason action.

**SUMMARY:** NMFS is announcing that the Pacific bluefin tuna (PBF) trip limit applicable to U.S. commercial fishing vessels in the eastern Pacific Ocean (EPO) is 3 metric tons (mt). This action is necessary to inform fishery participants of the trip limit established in a final rule published on August 5, 2022.

**DATES:** The rule is effective 12 a.m. local time September 19, 2022, through 11:59 p.m. local time December 31, 2022, or until the fishery is closed.

**FOR FURTHER INFORMATION CONTACT:** Celia Barroso, NMFS West Coast Region, 562–432–1850.

**SUPPLEMENTARY INFORMATION:** The United States is a member of the Inter-American Tropical Tuna Commission (IATTC), which was established under the Convention for the Establishment of an IATTC signed in 1949 (1949 Convention). The 1949 Convention provides an international agreement to ensure the effective international conservation and management of highly migratory species of fish in the IATTC Convention Area. In 2003, the IATTC updated the 1949 Convention through the adoption of the Convention for the Strengthening of the IATTC Established by the 1949 Convention between the United States of America and the Republic of Costa Rica (Antigua Convention). The IATTC Convention Area, as amended by the Antigua Convention, includes the waters of the EPO bounded by the coast of the Americas, the 50° N and 50° S parallels, and the 150° W meridian.

Fishing for Pacific bluefin tuna in the EPO is managed, in part, under the Tuna Conventions Act of 1950, as amended (Act), 16 U.S.C. 951 *et seq.* Under the Act, NMFS must publish regulations to carry out recommendations of the IATTC that have been approved by the Department of State. Regulations governing fishing by U.S. vessels in accordance with the Act appear at 50 CFR part 300, subpart C. These regulations implement IATTC recommendations for the conservation and management of highly migratory fish resources in the EPO.

On August 5, 2022, the National Marine Fisheries Service (NMFS) published a final rule (87 FR 47939) implementing IATTC Resolution C–21–05 (Measures for the Conservation and Management of Pacific Bluefin Tuna in

the Eastern Pacific Ocean). This rule established catch and trip limits for PBF caught by U.S. commercial fishing vessels in the EPO for 2022–2024. In 2022, the catch limit is 523 mt. Under the rule, in 2022, the fishery is subject to an initial trip limit of 20 mt that reduces throughout the year as catch thresholds are met. Specifically, during July–September of 2022 when cumulative catches are estimated to reach 325 mt, the trip limit will be reduced to 3 mt. This 3 mt trip limit will remain in effect until cumulative catches reach 523 mt (*i.e.*, the annual limit), at which time the fishery will be closed for the remainder of the calendar year.

Based on landings data and other information available as of September 14, 2022, preliminary estimates indicate that 262 mt of PBF has been caught by U.S. commercial vessels and NMFS estimates that 325 mt will be caught by publication of this notice. Therefore, in accordance with 50 CFR 300.25(g)(3)(ii), a 3 mt trip limit will be applied to the U.S. commercial fishing vessels in the EPO until the next threshold to reduce the trip limit is met or until the fishery is closed. Notice of this inseason action that reduces the trip limit has also been posted on the NMFS website: <https://www.fisheries.noaa.gov/west-coast/sustainable-fisheries/pacific-bluefin-tuna-commercial-harvest-status>.

#### Classification

NOAA's Assistant Administrator (AA) for NMFS finds that good cause exists for this notification to be issued without affording prior notice and opportunity for public comment under 5 U.S.C. 553(b)(B) because such notification would be impracticable and contrary to the public interest. This action complies

with the requirements of the management measures for the commercial Pacific bluefin tuna fishery (87 FR 47939, August 5, 2022) and implementing regulations under 50 CFR 300.25. Prior notice and opportunity for public comment was impracticable and contrary to the public interest because NMFS had insufficient time to provide for prior notice and the opportunity for public comment between the time catch was estimated and the time the fishery modifications had to be implemented in order to ensure that the thresholds to reduce trip limits in accordance with 50 CFR 300.25 were not exceeded. Delaying the action to engage in notice-and-comment rulemaking would prevent NMFS from lowering the trip limit as contemplated under current management measures, which are intended to ensure the U.S. fleet does not exceed its annual catch limit and thereby does not contribute to overharvest of the stock. As previously noted, notification of the regulatory action was also provided to fishermen through posting on the NMFS website. The AA also finds good cause to waive the 30-day delay in effectiveness required under 5 U.S.C. 553(d)(3), as a delay in effectiveness of this action would allow fishing at levels inconsistent with the goals of the current management measures.

This action is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 951 *et seq.*

Dated: September 16, 2022.
