

approved by the Expedition Leader. Several measures would be taken to prevent against loss of the quadcopter including painting the them a highly visible color; only flying when the wind is less than 25 knots; flying for only 15 minutes at a time to preserve battery life; having prop guards on propeller tips, a flotation device if operated over water, and an “auto go home” feature in case of loss of control link or low battery; having an observer on the lookout for wildlife, people, and other hazards; and ensuring that the separation between the operator and quadcopter does not exceed an operational range of 500 meters. The applicant also proposes to operate small, tethered ROVs equipped with cameras to collect educational footage of underwater environments. The ROV power is fed through the tether and contains a 1.5 liter oil filled compensator. The ROV would not be deployed under fast ice. The ROV would only be operator by a trained ROV pilot. ROVs would operate up to around 100m depth, and no more than 100m laterally from the ship. The ROV would not be operated within any protected areas or historic sites and monuments (HSMs).

Location

Antarctic Peninsula region.

Dates of Permitted Activities

November 7, 2022–March 30, 2027.

Permit Application: 2023–015

3. Applicant

Haley Shephard, Vice President of Expedition Operations, Polar Latitudes, Inc. White River Junction, VT 05001

Activity for Which Permit Is Requested

Waste Management. The applicant seeks an Antarctic Conservation Act permit for waste management activities associated with coastal camping and the operation of a remotely piloted aircraft system (RPAS) in the Antarctic Peninsula region. The applicant seeks permission for no more than 50 campers and 6 expedition staff to camp overnight at select locations for a maximum of 10 hours ashore. Camping would be away from vegetated sites and at least 150m from wildlife concentrations or lakes, protected areas, historical sites, and scientific stations. Tents would be pitched on snow, ice, or bare smooth rock, at least 15m from the high-water line. No food, other than emergency rations, would be brought onshore and all wastes, including human waste, would be collected and returned to the ship for proper disposal. For remotely piloted aircraft systems (RPAS)

operation, the applicant proposes to operate small, battery-operated RPAS consisting, in part, of a quadcopter equipped with cameras to collect commercial and educational footage of the Antarctic. The quadcopter would not be flown over concentrations of birds or mammals, or over Antarctic Specially Protected Areas or Historic Sites and Monuments. The RPAS would only be operated by pilots with extensive experience, who are pre-approved by the Expedition Leader. Several measures would be taken to prevent against loss of the quadcopter including painting the them a highly visible color; only flying when the wind is less than 25 knots; flying for only 15 minutes at a time to preserve battery life, a flotation device if operated over water, and an “auto go home” feature in case of loss of control link or low battery; having an observer on the lookout for wildlife, people, and other hazards; and ensuring that the separation between the operator and quadcopter does not exceed an operational range of 500 meters.

Location

Camping: possible locations include Damoy Point/Dorian Bay, Danco Island, Roné Island, the Errera Channel, Paradise Bay (including Almirante Brown/Base Brown or Skontorp Cove), the Argentine Islands, Andvord Bay, Pleneau Island, Hovgaard Island, Orne Harbour, Leith Cove, Prospect Point and Portal Point. RPAS operations: Western Antarctic Peninsula region.

Dates of Permitted Activities

October 30, 2022–March 30, 2027.

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request’s acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service’s request(s) can be accessed via the Commission’s website (<http://www.prc.gov>). Non-public portions of the Postal Service’s request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

The Commission invites comments on whether the Postal Service’s request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern market dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s)
