**SUPPLEMENTARY INFORMATION:** Pursuant to section 401(a) of the Child Support Performance and Incentive Act of 1998 (CSPIA), the Department of Labor (DOL) and HHS jointly promulgated the

National Medical Support Notice Final Rule (NMSN Regulation). The NMSN Regulation, codified at 29 CFR 2590.609–2, simplifies the issuance and processing of medical child support orders; standardizes communication between state agencies, employers, and Plan Administrators; and creates a uniform and streamlined process for enforcement of medical child support to ensure that all eligible children receive the health care coverage to which they are entitled. This ICR addresses the Plan Administrator's responsibilities under the NMSN Regulation to complete Part B of the NMSN. DOL is proposing to require that the addendum to Part B of the NMSN, previously only for those using e-NMSN, be included for all Part B notices. The changes proposed to the form itself are generally formatting changes and additional spaces intended to facilitate completion of the notice and conform to similar changes made to Part A. In this ICR submission, DOL is seeking approval of the current and revised notices to allow states time to transition to the new notices. There will be a one-year transition period where the currently approved version of the NMSN Part B notice (ICR Ref. No. 202102–1210–001) may still be used before respondents will be required to use the revised notice. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 20, 2022 (87 FR 23570).

**SUPPLEMENTARY INFORMATION:**

#### I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

OSHA created the Alliance Program in 2002 as a structure for working with groups that are committed to worker safety and health. The program enables OSHA to enter into a voluntary, cooperative relationship at the national, regional, or Area Office level with industry, labor, and other groups to improve workplace safety and health; prevent workplace fatalities, injuries, and illnesses; and reach employers and workers that OSHA may not otherwise reach through its traditional methods. These groups include trade or professional organizations, businesses,
