**Abstract:** The BIA owns, operates, and maintains three electric power utilities that provide a service to the end user, pursuant to 25 CFR 175 (Indian Electric Power Utilities). The BIA must collect customer information to identify the individual responsible for repaying the government its costs for delivering the service and bill for those costs. The BIA must also collect information to identify the location of the service delivery (*i.e.*, electrical hook-up). In addition, the Debt Collection Improvement Act of 1996 (DCIA), 31 U.S.C. 3701-3733 requires that certain information be collected from individuals and businesses doing business with the government. This information includes the taxpayer identification number for possible future use to recover delinquent debt.

#### Proposed Revisions to This Information Collection

BIA proposes to revise the “Electric Service Application” form to expand electronic access and improve customer experience and delivery. The revised form introduces an opt-in checkbox for paperless billing and a new field for email address. The revised form also proposes clarifying text regarding the option for a letter from medical services provider. Customers that need essential medical equipment in their home to sustain life should obtain a letter from their medical services provider and contact respective utility. A letter on file from customer's medical services provider does not guarantee customer's service will not be disconnected for unpaid electric bills. Accounts with a letter on file from customer's medical services provider are subject to the same bill payment terms as other accounts.

**Title of Collection:** Electric Power Service Application.
